Introduction	xv
Chapter 1: Introduction to Microsoft SharePoint 2007	1
What Is SharePoint?	2
The History of SharePoint	3
Differences between WSS and MOSS	5
Windows SharePoint Services 3.0	5
MS Office SharePoint Server 2007	6
What You Need to Run SharePoint	6
Software Requirements	6
Hardware Requirements	7
Building a Test Environment	7
Integrating with MS Office	8
Built-In Features of SharePoint	13
Alerts (WSS and MOSS)	14
RSS (WSS and MOSS)	14
File and Document Management (WSS and MOSS)	14
Project Management (WSS and MOSS)	16
Managing Meetings (WSS)	17
Keeping Your Organization Updated (MOSS)	19
Finding Your Information Faster (MOSS)	21
What File Types Can You Search?	22
What Type of Searching Can You Do?	23
Accessing SharePoint over the Internet	24
How You Do It	24
Allowing External Partners Access	25
Summary	28
Chapter 2: Installing Windows SharePoint Services	31
What Is New in WSS 3.0	31
Preparing to Install WSS	32
Types of WSS Configurations	35
Hardware Requirements	36
Software Requirements	39

Contents

Installing WSS	42
The Config and Content Databases	42
Installing a Single Server with the SQL Server 2005 Express	43
Installing a Single Server with a Local MS SQL Database	46
Installing a Single Server Using a Remote MS SQL Database	50
Upgrading SQL Server 2005 Express to MS SQL Server	54
Preparing to Upgrade the SQL Server 2005 Express	55
Upgrading WSS to a Local MS SQL 2005 Server	58
Uninstalling WSS	59
Removing a Site Collection but Leaving the Binary Files	59
Removing a Web Application	60
Removing WSS Completely	60
Summary	61
Chapter 3: Configuring and Managing Windows SharePoint Services	63
Important Concepts	64
Administration Web Sites and User Web Sites	64
Top Sites, Subsites, and Site Collections	71
The Security Mechanism	72
Beginning SharePoint Administration	73
Creating Your First Sites	74
Creating a New Site Collection	76
Configuring WSS to Use an Outgoing SMTP Mail Server	82
Configuring WSS to Accept Incoming SMTP e-mail	83
Managing Access Control of Web Sites	88
More Advanced WSS Administration	90
SharePoint Groups	90
Anonymous Access	98
Working with Custom Site Templates	103
Removing User Accounts	109
Summary	111
Chapter 4: Installing MS Office SharePoint Server 2007	115
Preparing for MOSS	115
MOSS Standard or Enterprise Edition?	116
When Do You Need MOSS?	118
Three Database Combinations	120
The Databases in MOSS	121
The Front-End and Back-End Roles	122

Medium and Large Farms	125
Hardware Requirements	126
Software Requirements	128
Installing MOSS	132
Installing on a Stand-Alone Server with SQL Express	133
Installing a MOSS Using the MS SQL Database	136
Backing Up MOSS 2007	147
Upgrading SQL Express to MS SQL Server	150
Preparing to Upgrade to MS SQL Server	150
Upgrading MOSS to a Local MS SQL Server	150
Post-Installation Tasks	152
The Configuration Database	152
The Content Database	153
The User Profile Database	153
More MOSS Databases	154
Uninstalling MOSS	154
Uninstalling the Portal Site but Leaving MOSS Intact	155
Removing MOSS Completely	155
Summary	156
Chapter 5: Configuring and Managing MOSS 2007	159
<hr/>	
Basic Configuration	159
Advanced Administration	160
Two Important Tasks to Start With	160
Other Common Tasks in SharePoint's Central Administration Tool	164
The Operations Page	176
The Application Management Page	186
Managing Access to the Portal Site	193
Managing Users and Groups	194
SharePoint Groups	195
Removing User Accounts	196
Anonymous Access	197
Summary	198
Chapter 6: Building Web Sites	199
<hr/>	
WSS Sites	199
WSS Default Site Templates	201
WSS Custom Site Templates	203
Moving Custom Site Templates	206

Contents

MOSS Sites	209
Comparing MOSS with SPS 2003	209
MOSS Site Templates	211
The My Sites Template	216
Site Permissions	231
Summary	233
Chapter 7: Office Integration	235
<hr/>	
MS Office Product Suite	235
MS Office 2000	236
MS Office XP	237
MS Office 2003	237
MS Office 2007	238
The New Generation	241
MS Outlook	243
MS Outlook 2003	243
MS Outlook 2007	244
More Effective Meetings with Outlook and SharePoint	254
Integrating Outlook and SharePoint	257
Managing a Series of Meetings	270
Meetings with Other Users	273
MS OneNote	275
MS InfoPath	278
Building InfoPath Forms	278
Displaying the Form Content	282
The Office Forms Service 2007	284
Other Applications	285
Summary	285
Chapter 8: Advanced Configurations	287
<hr/>	
Managing User Profiles in MOSS	287
User Profiles in a Windows NT 4 Environment	288
User Profiles in an Active Directory Environment	288
Configuring the User Profile Import Process	288
Managing Information Targeting with WSS and MOSS	297
More about Audience Groups (MOSS Only)	297
Creating Audiences	298
Applying Audiences (WSS and MOSS)	301

Searching in WSS and MOSS	308
Searching in WSS	309
Searching in MOSS	311
Some Tips about Searching	325
More Advanced Settings for MOSS and WSS	327
Information Rights Management	327
Managing Blocked File Types	327
Managing Diagnostic Logging	328
Summary	329
Chapter 9: Web Content Management	331
<hr/>	
Introduction to Content Management	331
Why Use Content Management?	332
Important CMS Features	333
Web Content Management	335
Web Content Management in MOSS 2007	335
Editing Web Page Content	339
News Editing	346
Creating News Layouts	351
Summary	359
Chapter 10: File and Document Management	361
<hr/>	
Traditional File Chaos	361
Document Management Systems	362
Traditional File Management Systems	363
What You Really Need	364
The SharePoint Way	365
Allowed File Types	367
Creating Document Libraries	369
Understanding Columns and Views	372
Working with Alerts	383
Checking Out and Checking In	384
Document Version History	387
Content Types and Document Templates	389
Document Management with MS Office	394
More about Datasheet Views	398
Managing List Access	400
Individual Permission Settings	401
Allowing Access to a Single List	403

Contents

Managing Document Workflow	404
Working with Document Workspaces	407
Using SharePoint as a File Share	409
Summary	411
Chapter 11: Intranet and Internet Sites	413
Analyzing the Needs	413
Building an Intranet Using WSS or MOSS?	414
Analyzing an Intranet	415
Available Web Parts	416
An Intranet Based on WSS	418
The General Features of the Intranet	419
Building an Intranet Using WSS	420
Creating Local Departments and Team Intranets	425
Creating Top-Level Local Intranets	426
An Intranet Based on MOSS	430
The General Features of the Intranet	430
Building the Intranet	431
Intranet Summary	449
Building Internet Sites	450
Accessing the Web Site from the Internet	450
WSS or MOSS for Internet Sites?	452
Using WSS for Internet Sites	453
Using MOSS for an Internet Site	454
Summary	457
Chapter 12: Customizing SharePoint 2007	459
MOSS Site Templates	459
Changing the Look and Feel of the Portal Site	460
Modifying the Portal Site	461
SharePoint's Folder Tree	464
Branding a SharePoint Site	468
Changing the CSS File	472
Managing the SharePoint Sites	476
The Home Page	476
WSS Pages	482
Managing Links	485
Creating Site Definitions	486
Summary	490

Chapter 13: SharePoint Designer 2007	493
Why SharePoint Designer 2007?	493
Opening Sites with SharePoint Designer	494
SharePoint Designer's Display Modes	495
Modifying the Site	496
Saving Your Work	497
Differences between MOSS and WSS Sites	497
Ghosting and Unghosting	499
Basic Design	500
Adding Text Outside Web Parts	500
Add a Background Picture	501
Interactive Buttons	502
Copying Complete Sites	503
Managing Web Part Zones	504
Retrieving a Site Summary	505
Extended Design	506
Managing Site Themes	506
Adding Pages to SharePoint	508
Data Sources and Data Views	514
Master Pages and Layout Pages	518
Master Pages	518
Layout Pages	522
Summary	526
Chapter 14: Backup and Restore	529
What Data Should You Protect?	529
The SharePoint Database	530
SharePoint Files	531
Backup Options	532
Moving and Copying Information	532
Backup with STSADM	534
Preparing for STSADM	535
Running the STSADM Backup	535
Tools for STSADM	536
Backing Up a Single Site	539
Backing Up a Complete Farm	540
Scheduling the Backup Process	541
Backup with the Central Administration Tool	542
Making Backups with SharePoint Central Administration	543

Contents

Restore Procedures	545
Restoring a Single Item	546
Restoring a Single Site	550
Restoring a Single Site Collection	552
Restoring a Complete Portal Server	553
Making a Backup Plan	554
Third-Party Backup Tools	555
General Backup Agents	556
MS SQL Backup Tools	556
AvePoint Tools	557
NSE Tools	558
Summary	558
Index	561
