

# Index

## A

- Accountability: in dialogue education, 4, 144; example of, 108; indicators of, 213; and learner-teacher contract, 107; in on-line situations, 108–109; as principle of adult learning, 107–108; as teaching, not telling, 108
- Achievement-based objectives (ABOs), 31; design purpose of, 41–42; example of, 42–43; as learning indicators, 45; and learning tasks, 45; as opposed to outcomes, 42–45; tough language of, 45; used in design of events, 4, 15
- Active listening, political purpose of, 53
- Adult Learning: Theory and Practice* (course), learning environment setting addressed in, 39
- Advanced learning design course (Raleigh, North Carolina): learning tasks in, 163–164; review of learning task potential in, 162–163
- American Baptist Conference's Next Step Forum, learning needs and resources assessment for, 21
- Annan, K., 90

## B

- Belenky, M. F., 24, 28, 37, 106
- Berardinelli, P., 137
- Bloom's taxonomy of verbs, 64
- Bushardt, S. C., 180

## C

- Clear roles: as both management and epistemological principle, 101–102;

- on-line, role specification in, 102
- Clinchy, B. M., 24, 28, 37, 106
- Closed questions, and formation of linear thinking, 111–112
- Community education, learning needs and resources assessment (LNRA) in, 25, 26
- Constructed knowing: concept of, 37, 94; in dialogue education, 37; and learning needs and resources assessment, 27–28
- Constructivism, and principle of ideas/feelings/actions, 97
- Course design: with dialogue education materials, 145; implementation challenges for, 165

## D

- Dialogue education: accountability of, 4; applications of, 3–4; basic epistemological assumption of, 73; constructed knowing as result of, 37; as dialogue between learners, 88; epistemological elements of, 210; evaluation of, 4, 114; feedback and affirmation in, 119–120; in the hard sciences, 94; and left-brain tendency to label things, 61–62; need for congruence in, 88; overcoming resistance to, 123–124; purpose of active listening in, 53; social aspect of, 4; structuring of content and process in, 14–16; teacher as listener in, 53; teacher's new roles in, 211; terms used in, 215–219; tough verbs list for, 221–222; transformation of systems and society through, 53

Dialogue education design: accountability for impact of, 144; examples of, 149–164; implementation challenges, 165; learning needs and resources assessment used in, 14–15, 16, 33, 84–85. *See also* Learning event design

Dialogue education in health care setting. *See* Health care system reform session; Patient education

Dialogue education structures, 2–3; and behavioral patterns, 12; as central frame for teaching and learning, 11; *F* concepts for use of, 11–14; and formation of new theories and groups, 12; and freedom from fear and indecision, 12; fusion of teaching and learning in, 12–13; and learner accessibility, 13; and quality of learning, 11

*Dialogue Education at Work* (Vella), 209

Dickson, S. S., 185–187

*Drawing on the Right Side of the Brain* (Edwards), 61

## E

Educational events: and clarity about participants and leaders in, 33; and decision-makers support, 34; design of, 35; and knowledge of situation (*Why?* question) in, 33–35; and learning indicators, 129

E-mail and telephone surveys, as assessment strategy, 22, 25

Engagement of learners, 212; on-line opportunity for, 106–107; physical signs of, 105; and received knowing, 106

Estrada, C., 171, 188–189

## F

Feedback: and affirmation, 119–120; deliberative and consultative voices in, 184; and learning needs and resources assessment extension, 22; useful, defined, 179–180

Forster, E. M., 100

Freire, P., 70, 95, 99, 214

## G

Global Learning Partners, 150

*Good to Great* (Collins), 14, 15, 16

## H

Hatch, M., 68, 95

Health care system reform session, 97–99; objectives and learning tasks in, 98–99; respect for learners as decision makers illustrated in, 98

*How Do They Know They Know?* (Berardinelli, Burrow, and Vella), 129

*How to Talk With Your Kids About Drinking* course, 137–144; anticipated impact of, 142–143; guidelines and learning tasks in, 138–142; measuring impact of, 143–144; possible impacts of, 142–143; and pre-course quantitative evaluation, 143; qualitative aspects of, 143

Howarth, S., 149

Huley, C., 171, 188–189

Hutchinson, T., 34, 182

## I

Immediacy principle of adult learning: and generative themes of learners, 99–100; and inductive work, 100; learning needs and resources assessment (LNRA) as tool for, 99; on-line application of, 100–101; usefulness of, 211

Impact: confused with transfer, 137; and indicators of transfer, 142; measurement of, 145; theory of, 137; types of, 129

Impact indicators: defined, 129; implementation challenges for, 146; organization and system changes as, 135; projected at course outset, 147; in relation to *Why?* and *Who?* questions, 137

Impact measurement matrix (IMM), 144, 145

Implementation learning task, participants' response to, 117–118

Indicators of learning, accountability and, 213

Inductive learning task, participants' response to, 118  
 Informal dialogue, used in assessment, 22  
 Input and integration learning tasks, participants' response to, 117–118  
 Introductory class party, as learning event for participants, 23

## J

Jefferson, T., 23  
 Joiner, B. L., 180  
 Jung, C., 67–68

## K

Kiersey, D., 68, 96

## L

Laughter, as indicator of sound learning, 86  
 Learning event design: definitive content and, 130; and learning indicators, 130; for on-line situations, 47–48; of site environment, 38–39  
 Learning indicators: behavioral products as, 65, 130–133; identifying and discovering, 132; implementation challenge for, 136; informal and formal, 132; learning event as result of, 129; research agenda for, 134  
*Learning to Listen, Learning to Teach: The Power of Dialogue in Educating Adults* (Vella), 1, 23, 34, 53, 83, 171, 181  
*Learning to Listen, Learning to Teach* course, 149, 169, 170  
 Learning materials, 122; appropriate, selection of, 33; criteria for, 47–48; quality and clarity of, 55. *See also* Sequence of materials and tasks  
 Learning needs and resources assessment (LNRA), 19–29; in community and hospital settings, 24–25; and constructed knowing, 27–28; design use of, 14–15, 16, 33, 84–85; designing, 28; as essential adult education practice, 83–85; examples of, 26–27, 84–85; implementation challenges, 29; informal, 20, 28; and learners as mentors, 27; in practice, 20–21; as principle of adult learning, 83–85;

process of constructed knowledge initiation in, 24; strategies for, 21–23; of student expectations for upcoming class, 205–206; survey form of, 84; and teacher's state of mind, 28; value of, 21, 162

Learning objectives. *See* Achievement-based objectives (ABOs)

*Learning Tasks* (Vella), 11

Learning tasks: accountability and, 45; achievement-based objectives (ABOs) in, 41–42, 45, 46; adequate time for learning in, 37; and affirmation of learners' efforts, 119–120; authentic ownership of content of, 65; clarity in, 117; creativity and spontaneity in, 54; for diverse educational contexts, 54–55; flow in, 62, 65; four elements of, 117–118; framing of, 125; and implementation challenges, 66, 126; inductive and anchoring work in, 62–63; implementation formats and tasks as element of; input of new content in, 64; integration element in, 65; involving projection, 142; and learners' culture, 182; open questions in, 46, 64–65; and purpose of learning event, 33–35; quality and clarity of materials in, 55; resistance to, 122–123; selection of, 33; setting guidelines and time frame for, 11–12, 120–121; and sharing of new content, 118–119; in small group, 54–55; structure in, 11, 54; teacher's role in, 45–46, 53, 64–65; theory construction in, 131; timing in, 47; use of tough action verbs in, 54, 181. *See also* Seven design steps

Lewin, K., 63

## M

*Mark as Story* (Rhoads, Dewey, and Michie), 71

Medical Education Conference, Philadelphia, learning needs and resources assessment course, 159–162; learning tasks in, 159–160; LNRA sample in, 160–161; rules of design used in, 161; seven design steps used in, 159–160

Mezirow, J., 105, 113  
 Mnemonics, printed learning design as, 122  
 Myers-Briggs scale, 95, 103

## N

Nitz, P. D., 60–62  
 Norris, J., 106  
 Nutrition and portion control learning task: implementation challenge for, 77; PowerPoint presentation of, 73–80

## O

On-line education: accountability in, 108–109; continuing feedback mechanism in, 77; continuous needs assessment in, 85; daily on-line report card as evaluation of, 93, 96–97; deterrents to studying in, 47–48; enhanced individual learning in, 76–77; explicit protocols for, 38; finding and assessing resources in, 48; implementation challenges for, 49, 125; incorporating affective aspect into, 96; initial design work for, 76–77; learning needs and resources assessment in, 25–27; mentoring teams in, 77; potential for immediacy in, 100–101; praxis in, 95, 101; and quality of design, 126; questions addressed in, 4; safety and sound relationships in, 87, 89–90; seven design steps for quality control in, 47; site and content accessibility in, 40; students as resources in, 85; structural implementation challenges in, 16–17; and teacher's versatility and creativity, 89–90; teacher's role in, 48; time-frame considerations in, 38  
 On-line principles and practices course: precise learning tasks in, 168–170; products of, 169; seven design steps used in, 167–168  
 On-line small group process: co-mentoring in, 60; consolidated individual learning in, 60; in learning tasks, 60–62  
 Open questions: connected and profound thinking resulting from, 112; examples of, 114–115; and implementa-

tion challenges, 115; and patterned thinking, 113; as powerful educational tool, 111; and quantum thinking, 112–113

Outcomes-based education, and transfer of learning indicators, 135

## P

Patient education event: achievement-based objectives for, 200; content accessibility and comprehension in, 194; examples of dialogue education in, 191–204; on health care resources for seniors, 199–204; implementation and integration of, 194; learning tasks in, 193–194, 196–198, 200–204; seven design steps used in, 191–192, 195–198; in YMCA nutrition class for seniors, 191–194; in workshop for expectant mothers, 194–198  
 Patterned thinking, concept of, 112  
 Polya, G., 3  
 PowerPoint presentations: in dialogue education, 73; examples of, 71–75; and learners' own points of power, 70; one-quarter approach to, 122  
 Praxis (action with reflection): and academic use of elusive and esoteric concepts, 93–94; creative imagination in, 94; as habit of mind and action, 208–209; and new content relevance, 94; on-line, 95; principle of, 93–95  
 Principles and practices of adult learning, 1, 2, 83–109; implementation challenge for, 109; new critical connotations for, 83; overall principle of, 83  
 Principles of ideas/feelings/actions, 95–96; basis of, 95; and failsafe teaching, 96; and learning in dialogue education classroom, 210; in on-line work, 96–97; as protection against self-exclusion, 95  
 Q  
 Quantum thinking and learning: concept of, 112; examples of, 114–115; and implementation challenges, 115;

- principle of, 130; transformational quality of, 113
- R**
- Reiff, M., 45
- Respect: as inclusive principle of dialogue education, 214; between teacher and students, 213–214
- Respect for learners: as decision makers, 97; example of, 97–99; and standard monologue lecture format, 209–210
- Results Now* (Schmoker), 186–187
- Results-based education, and transfer of learning indicators, 135
- Ridout, K., 150
- S**
- Safety in learning, 85–88; and closed questions, 86; deep learning enabled by, 207; and design of learning task, 54–55; establishing, 206; on-line, 87–88; responses to, 86–87; role of dissent in, 86; and teacher's behavior, 86
- Sappington, T., 105
- Scholtes, P. R., 180
- School leadership workshop. *See* Utah Staff Development Council (USDC) workshop design project
- Scripture studies learning task, Power-Point presentation of, 71–73
- Sequence of materials and tasks: element of time in, 91; and learners' safety, 208; in on-line learning, 92–93; as praxis, 209; principles and practices of, 90–93; protection as purpose of, 93; reinforcement as form of, 91–92, 208
- Serial thinking, concept of, 112
- Seven design steps, 3, 31–45; content and objectives (*What?* and *What for?* steps) in, 41–42; correlation between *When?* and *Where?* steps in, 40; integral context of *Who?* and *Why?* questions in, 35, 36; measurement of impact and, 145; naming of participants and leaders as *Who?* step in, 32–33; naming of specific tasks (*How?* step) in, 45–47; in on-line learning, 47–48; operative sequence of, 34; sequence determined by context in, 36; site (*Where?* step) considerations in, 38–40; situation calling for event (*Why?* step) in, 33–35; use of, 14–15, 16; time frame (*When?* step) in, 36–38
- Shelton, C., 120
- Simon Fraser University, Vancouver, dialogue education design course, 156–158; learning tasks and materials used in, 157–158; mnemonics and follow-up, 158; purpose of, 156; use of seven design steps in, 156–158
- Small group learning task, and large group sharing of new content, 118–119
- Small group process, 212–213; challenge of moving outside individual type in, 67–68; competition in, 58; creation of next-level tasks in, 58; creativity evoked in, 57; dealing with exclusion in, 59–60; diversity in, 67; emergence of leadership in, 56; energy in, 67; finding one's voice in, 59; indicators of learning in, 55; individual learning enhancement in, 67–80; language and phrasing of learning tasks in, 69–70; learning site environment for, 39; learning tasks in, 53–66; meaningful and internal labeling of lesson in, 62; pacing in, 69; and personal styles, 67; process and dynamics in, 55–60; productivity in, 68; products of, 54, 57; qualities of, 54; safety and inclusiveness in, 68, 69; size considerations in, 59; teacher's roles in, 54, 68–69; tough questions in, 57–58. *See also* On-line small group process
- Sound relationships: establishment of, 207–208; as learning principle, 88; in on-line situations, 89–90; and teacher's openness and clarity, 88; teacher's personal distancing as factor in, 88
- Streibel, B. J., 180
- Structureless teaching, 13–14
- Swart, S., 167
- T**
- Taking Learning to Task* (Vella), 53, 163, 170

Tate Museum, London, dialogue education seminar, 149–155; indicators of learning in, 155; learning tasks in, 152–155; seven design steps used in, 150–152

Teacher behavior and roles: and emergence of new roles, 211; as listener, 53; on-line, 48; and safety in learning, 86; and sound relationships, 88; in small-group process, 54, 68–69

Teaching assistants, and sound relationship building, 207–208

*Teaching Principles for Healthcare Professionals* course, 42

Teamwork: example of, 104; on-line, 104; as principle of adult learning, 102–104; safety in, 103; synchronicity and diversity of learner types in, 103. *See also* Small group process

Traditional teaching: concept labeling in, 61; resistance to dialogue education in, 209–210

Transfer of learning: as eighth design step, 133–134; impact and, 142; indicators of, 129, 133; longitudinal outcomes of, 133; measured by behavior after the event, 133; request for indicators of, 134

## U

University of Detroit Mercy on-line courses: accessible guidelines of, 102; as example of setting time boundaries, 38; formative evaluation in, 93

Utah Staff Development Council (USDC) workshop design project,

171–189; achievement-based objectives of, 173; application of adult learning principles in, 176–177; benefits and commitment resulting from, 184–185; contextualized dialogue education design in, 171, 178; Council president's preparations for, 171; dramatic changes resulting from, 186–189; first day tasks in, 174–181; giving and receiving feedback in, 179–181, 183–184; and group culture norms, 174; implementation and integration tasks in, 184; initial staff response to, 171; and integration of new content, 177; participant reflections on, 185–189; purpose and goal of, 172; review of four elements of learning tasks in, 178; second day learning tasks in, 181–182; self-awareness and personal changes as result of, 185–186; seven design steps used in, 172–173, 182–183; small group work in, 177

## V

Vella, J., 39, 41, 64, 70, 107, 113, 150, 210

## W

Websites of participants, 22

## Y

Zohar, D., 112
