- connected speech tasks
  - CSP Repetition Test, 141–2
  - Final Consonant Juncture Repetition Test, 146–7
  - Word-in-Sentence Repetition, 134–8
- single-word speech
  - Mispronunciation Self-Correction task, 123
  - Non-word Repetition Task, 117–18
  - Picture Naming Task #1, 101–3

- analysis of tasks (*Continued*)  
 Picture Naming Task #2, 106–7  
 Word Repetition Task, 110–11, 112  
 speech accuracy, rate and consistency tasks  
 Oral Movements and Silent DDK Rates, 157  
 Repetition and Spoken DDK Rates, 161  
 Speech Accuracy and Consistency, 169  
 anchor points in speech processing model, 6  
 apraxia of speech, 21, 57, 193  
 link to mutation in FOXP2 gene, 192  
 Aram, D., 191  
 Archibald, L., 155  
 articulation age, 49, 96, 155  
 assembly phase, developmental phase model, 20  
 assessment  
 comparison types, 23–4  
 development of procedures, 210–11  
 interpreting data, 211–18  
 principles, 7–11  
 psycholinguistic approach, 225–7  
 routine procedures, gaps in, 27–8  
 tasks for each question, 243–5  
 Aston Index, 48  
 Auditory Discrimination and Attention Test (ADAT), 73, 80, 89  
 auditory discrimination tasks, 47–50  
 Task 1: Same/Different, 50–7, 253–8  
 Task 2: Complex Non-words, 57–61, 259–61  
 Task 3: ABX Non-words, 61–7, 263–5, 267–8  
 Task 4: Legal vs Illegal Words, 68–71, 269–70  
 auditory lexical discrimination tasks, 73–5  
 Task 1: Mispronunciation Detection full version, 271–8  
 short form, 279–82  
 Task 2: With and Without Pictures, 81–5  
 With Pictures, 287–8  
 Without Pictures, 283–5  
 Task 3: Mispronunciation Detection for Individual Children, 85–8, 291–3  
 Task 4: Words in Sentences, 88–93, 295–307  
 Baker, E., 1, 209  
 ‘between’ levels of processing, assessing, 11  
 Beving, B., 47  
 biased sentences, 90, 93  
 bilingual children, 49–50  
 birth order, 194, 196, 198, 199  
 Bishop, D., 176  
 bottom-up processing, 6  
 bottom-up tasks, 7  
 box-and-arrow model, 17–20, 249  
 Bradford, A., 98  
 Bridgeman, E., 32, 48, 50, 53, 55, 253, 257  
 Broomfield, J., 2  
 Bryan, A., 23, 127, 215  
 carers, training to identify risk signs, 225  
 Cassidy, B., 88  
 Chiat, S., 98, 98, 184  
 Children’s Test of Non-word Repetition, 98  
 chronological age, effect on task performance, 49  
 close juncture, 132–3  
 cluster sequences, 48, 50–7, 210  
 clustering of tasks, 7–8  
 Coffield, C., 156, 168, 173, 413  
 comparison of performance  
 across different speech output tasks, 127–8  
 across different tasks, 98–100  
 inter-child, 24, 210–11  
 intra-child, 23, 210  
 Complex Non-words test, 57–61, 259–61  
 complex words, including in tasks, 210  
 connected speech, 131–2  
 Task 1: Word-in-Sentence Repetition, 133–8, 345–8  
 Task 2: CSP Repetition Test, 139–45, 349–53  
 Task 3: Final Consonant Juncture Repetition Test, 145–50, 355–60  
 consistency of speech repetition, 154–72

- Constable, A., 74, 81, 210
- coughs and colds, higher incidence in  
children with speech difficulties,  
196
- 'critical age hypothesis', 176, 184
- cross-sectional study  
aims of project, 30  
assessment tasks  
aims of, 32–3  
participants, 30–1  
procedure, 33  
results, 33–4  
stimuli, 31, 32
- CSP (Connected Speech Processes)  
Repetition Test, 139–45
- CVC (Consonant Vowel Consonant)  
discrimination, 48, 210
- Darili, E., 68
- delayed speech, 21–2, 154–5, 192, 193
- description of tasks  
auditory discrimination tasks  
ABX Non-words, 61–2  
Complex Non-words, 57  
Legal vs Illegal Words, 68  
Same/Different, 51  
auditory lexical discrimination  
tasks  
Mispronunciation Detection, 75  
Mispronunciation Detection for  
Individual Children, 85  
With and Without Pictures, 81  
Words in Sentences, 88  
connected speech tasks  
CSP Repetition Test, 139  
Final Consonant Juncture  
Repetition Test, 145  
Word-in-Sentence Repetition, 134  
single-word speech  
Mispronunciation Self-Correction  
task, 123  
Non-word Repetition Task, 116  
Picture Naming Task #1, 101  
Picture Naming Task #2, 106  
Word Repetition Task, 110  
speech accuracy, rate and consisten-  
cy tasks  
Oral Movements and Silent DDK  
Rates, 157  
Repetition and Spoken DDK  
Rates, 160  
Speech Accuracy and Consistency,  
169  
developmental history questionnaire,  
194–8, 439–42  
developmental information, 197  
developmental phase model, 20–3,  
155  
diadochokinetic (DDK) rates, 153  
Diagnostic Evaluation of Articulation  
and Phonology (DEAP), 96–7  
diagnostic labels, diversity of, 2–3  
discharge criteria, specifying, 223–4  
Dodd, B., 2, 98, 155, 193, 194  
Down's syndrome adolescents, accuracy  
and consistency tests, 156  
Dry, S., 68  
dysarthria, 153, 156  
dyslexia, 57  
dyspraxia, 98–9, 153, 156
