vitamin B₂ see riboflavin

vitamin B₉ see folic acid

vitamin B₁₂ 251, 257

vitamin C 216, 241, 241, 258, 260, 262–264, 274, 283, 284

vitamin D 19–20, 133–134, 256–257, 262–263

vitamin E 19, 216, 242, 244, 262, 274, 283

wet-mass extrusion see extrusion–
spheronization process

whey proteins 14, 112

hydrogel delivery system 234–235

microbeads 239

microcapsule formation 242

nanoemulsion formation 242

yerba mate 37–38, 37

loading into bioactive starches 51–52

yoghurt 257, 272

encapsulated vitamin

incorporation 257–258

zein 16–23, 77

encapsulation applications 18–23

docosahexaenoicacid

stabilization 312–313

nanoparticle fabrication 77

TPGS-emulsified zein nanoparticles 87

origin 16

properties 16–18

zein–β-lactoglobulin nanoparticles 21–22

zein–chitosan complex nanoparticles 18–20

zein–omega-3 polyunsaturated fatty acids 22

zein–polyphenol composite colloidal

particles 20–21

zein–soy protein microparticles 22

zinc 40, 51

deficiency 39
