*This book is sincerely dedicated to all of the leaders
who have brought such richness into my life:*

*To participants in my leadership and professional programs
who have challenged, questioned, and given me countless
opportunities for new learning. It has been fun to work with you!*

*To my health care colleagues who inspire me with their sense of
commitment, courage, and perseverance in the face
of daunting challenge and obstacles. You are awesome!*

*To my family and friends for their love, support, and
encouragement. What would I do without you?*
