Preface	7	42 The forearm	98
1 Anatomical terms	8	43 The carpal tunnel and joints of the wrist and hand	100
2 Embryology	10	44 The hand	102
The thorax		45 Surface anatomy of the upper limb	104
3 The thoracic wall I	14	The lower limb	
4 The thoracic wall II	16	46 The osteology of the lower limb	106
5 The mediastinum I—the contents of the mediastinum	18	47 The arteries of the lower limb	108
6 The mediastinum II—the vessels of the thorax	20	48 The veins and lymphatics of the lower limb	110
7 The pleura and airways	22	49 The nerves of the lower limb I	112
8 The lungs	24	50 The nerves of the lower limb II	114
9 The heart I	26	51 The hip joint and gluteal region	116
10 The heart II	30	52 The thigh	120
11 The nerves of the thorax	32	53 The knee joint and popliteal fossa	123
12 Surface anatomy of the thorax	34	54 The leg	126
13 Thorax: developmental aspects	36	55 The ankle and foot I	128
14 The fetal circulation	38	56 The ankle and foot II	130
The abdomen and pelvis		57 Surface anatomy of the lower limb	132
15 The abdominal wall	40	The autonomic nervous system	
16 The arteries of the abdomen	43	58 The autonomic nervous system	134
17 The veins and lymphatics of the abdomen	46	The head and neck	
18 The peritoneum	48	59 The skull I	136
19 The upper gastrointestinal tract I	50	60 The skull II	138
20 The upper gastrointestinal tract II	52	61 Spinal nerves and cranial nerves I–IV	140
21 The lower gastrointestinal tract	54	62 The trigeminal nerve (V)	142
22 The liver, gall-bladder and biliary tree	56	63 Cranial nerves VI–XII	144
23 The pancreas and spleen	58	64 The arteries I	146
24 The posterior abdominal wall	60	65 The arteries II and the veins	148
25 The nerves of the abdomen	62	66 Anterior and posterior triangles	150
26 Surface anatomy of the abdomen	64	67 The pharynx and larynx	152
27 The pelvis I—the bony and ligamentous pelvis	66	68 The root of the neck	154
28 The pelvis II—the contents of the pelvis	68	69 The oesophagus and trachea and the thyroid gland	156
29 The perineum	70	70 The upper part of the neck and the submandibular region	158
30 The pelvic viscera	72	71 The mouth, palate and nose	160
31 Abdomen, developmental aspects	74	72 The face and scalp	162
The upper limb		73 The cranial cavity	166
32 The osteology of the upper limb	76	74 The orbit and eyeball	168
33 Arteries of the upper limb	80	75 The ear, lymphatics and surface anatomy of the head and neck	170
34 The venous and lymphatic drainage of the upper limb and the breast	82	76 Head and neck, developmental aspects	172
35 Nerves of the upper limb I	84	The spine and spinal cord	
36 Nerves of the upper limb II	86	77 The spine	174
37 The pectoral and scapular regions	88	78 The spinal cord	176
38 The axilla	90	Muscle index	178
39 The shoulder (gleno-humeral) joint	92	Index	185
40 The arm	94		
41 The elbow joint and cubital fossa	96
