

# Contents at a Glance

Acknowledgments .....v  
Introduction .....xxix

**Part I: Linux First Steps ..... 1**  
Chapter 1: Starting with Linux .....3  
Chapter 2: Running Commands from the Shell .....33  
Chapter 3: Getting into the Desktop .....77

**Part II: Running the Show ..... 123**  
Chapter 4: Learning Basic Administration .....125  
Chapter 5: Getting on the Internet .....171  
Chapter 6: Securing Linux .....195

**Part III: Choosing and Installing a Linux Distribution ..... 241**  
Chapter 7: Installing Linux .....243  
Chapter 8: Running Fedora Core and Red Hat Enterprise Linux .....273  
Chapter 9: Running Debian GNU/Linux .....295  
Chapter 10: Running SUSE Linux .....319  
Chapter 11: Running KNOPPIX .....337  
Chapter 12: Running Yellow Dog Linux .....361  
Chapter 13: Running Gentoo Linux .....381  
Chapter 14: Running Slackware Linux .....401  
Chapter 15: Running Linspire and Freespire .....417  
Chapter 16: Running Mandriva .....433  
Chapter 17: Running Ubuntu Linux .....447  
Chapter 18: Running a Linux Firewall/Router .....467  
Chapter 19: Running Bootable Linux Distributions .....493

<b>Part IV: Running Applications</b> .....	<b>513</b>
Chapter 20: Playing Music and Video .....	515
Chapter 21: Working with Words and Images .....	553
Chapter 22: E-Mailing and Web Browsing .....	591
Chapter 23: Gaming with Linux.....	625
<b>Part V: Running Servers</b> .....	<b>653</b>
Chapter 24: Running a Linux, Apache, MySQL, and PHP (LAMP) Server .....	655
Chapter 25: Running a Mail Server .....	679
Chapter 26: Running a Print Server .....	695
Chapter 27: Running a File Server .....	719
<b>Part VI: Programming in Linux</b> .....	<b>753</b>
Chapter 28: Programming Environments and Interfaces .....	755
Chapter 29: Programming Tools and Utilities.....	785
Appendix A: Media .....	817
Appendix B: Entering the Linux Community .....	827
Index .....	833
GNU General Public License .....	849

# Contents

- Acknowledgments . . . . . v
- Introduction . . . . . xxix
  
- Part I: Linux First Steps** . . . . . **1**

---

- Chapter 1: Starting with Linux** . . . . . **3**
  - Taking Your First Step .....4
  - Starting Right Now .....6
  - Understanding Linux .....6
  - Exploring Linux History.....9
    - From a Free-Flowing UNIX Culture at Bell Labs.....9
    - To a Commercialized UNIX .....11
      - BSD Arrives .....11
      - UNIX Laboratory and Commercialization .....12
    - To a GNU Free-Flowing (not) UNIX.....13
    - BSD Loses Some Steam.....14
    - Linus Builds the Missing Piece .....14
  - What's So Great About Linux? .....16
    - Features in Linux .....16
    - OSI Open Source Definition .....17
    - Vibrant Communities .....19
    - Major Software Projects .....20
  - Linux Myths, Legends, and FUD .....21
    - Can You Stop Worrying About Viruses? .....21
    - Will You Be Sued for Using Linux? .....22
      - The SCO Lawsuits .....23
      - Software Patents .....24
      - Other Litigious Issues .....24
    - Can Linux Really Run on Everything from Handhelds to Supercomputers? .....25
    - Will Microsoft Crush Linux?.....25
    - Are You on Your Own If You Use Linux? .....26
    - Is Linux Only for Geeks? .....26
    - How Do Companies Make Money with Linux?.....27
    - How Different Are Linux Distributions from One Another? .....28
    - Is the Linux Mascot Really a Penguin? .....29
  - Getting Started with Linux .....29
  - Summary .....31

<b>Chapter 2: Running Commands from the Shell . . . . .</b>	<b>33</b>
Starting a Shell .....	34
Using the Shell Prompt .....	34
Using a Terminal Window .....	35
Using Virtual Terminals .....	36
Choosing Your Shell .....	36
Using bash (and Earlier sh) Shells .....	37
Using tcsh (and Earlier csh) Shells .....	37
Using ash .....	37
Using ksh .....	38
Using zsh .....	38
Exploring the Shell .....	38
Checking Your Login Session .....	38
Checking Directories and Permissions .....	39
Checking System Activity .....	40
Exiting the Shell .....	42
Using the Shell in Linux .....	42
Locating Commands .....	43
Rerunning Commands .....	45
Command-Line Editing .....	46
Command-Line Completion .....	48
Command-Line Recall .....	49
Connecting and Expanding Commands .....	51
Piping Commands .....	51
Sequential Commands .....	51
Background Commands .....	52
Expanding Commands .....	52
Expanding Arithmetic Expressions .....	53
Expanding Environment Variables .....	53
Creating Your Shell Environment .....	53
Configuring Your Shell .....	54
Setting Your Prompt .....	54
Adding Environment Variables .....	56
Adding Aliases .....	57
Using Shell Environment Variables .....	57
Common Shell Environment Variables .....	58
Set Your Own Environment Variables .....	59
Managing Background and Foreground Processes .....	60
Starting Background Processes .....	61
Using Foreground and Background Commands .....	61
Working with the Linux File System .....	62
Creating Files and Directories .....	65
Using Metacharacters and Operators .....	66
Using File-Matching Metacharacters .....	66

Using File-Redirection Metacharacters .....	68
Understanding File Permissions .....	68
Moving, Copying, and Deleting Files .....	71
Using the vi Text Editor .....	71
Starting with vi .....	72
Moving Around the File .....	75
Searching for Text .....	75
Using Numbers with Commands .....	76
Summary .....	76
<b>Chapter 3: Getting into the Desktop . . . . .</b>	<b>77</b>
Understanding Your Desktop .....	77
Starting the Desktop .....	78
Boot to the Desktop .....	78
Boot to Graphical Login .....	78
Boot to a Text Prompt .....	81
K Desktop Environment .....	82
Using the KDE Desktop .....	83
Managing Files with the Konqueror File Manager .....	86
Working with Files .....	87
Searching for Files .....	89
Creating New Files and Folders .....	90
Using Other Browser Features .....	91
Configuring Konqueror Options .....	92
Managing Windows .....	95
Using the Taskbar .....	95
Uncluttering the Desktop .....	95
Moving Windows .....	95
Resizing Windows .....	96
Pinning Windows on Top or Bottom .....	96
Using Virtual Desktops .....	96
Configuring the Desktop .....	96
Changing the Display .....	97
Changing Panel Attributes .....	98
Adding Application Launchers and MIME Types .....	99
Adding Applications to the Panel .....	99
Adding Applications to the Desktop .....	99
The GNOME Desktop .....	100
Using the Metacity Window Manager .....	102
Using the GNOME panels .....	103
Using the Applications and System Menu .....	104
Adding an Applet .....	105
Adding Another Panel .....	106
Adding an Application Launcher .....	106
Adding a Drawer .....	107
Changing Panel Properties .....	107

## Contents

Using the Nautilus File Manager .....	108
3D Effects with AIGLX .....	110
Changing GNOME Preferences .....	113
Exiting GNOME .....	114
Configuring Your Own Desktop .....	115
Configuring X.....	116
Creating a Working X Configuration File .....	116
Getting New X Drivers .....	117
Tuning Up Your X Configuration File .....	117
Choosing a Window Manager.....	119
Choosing Your Personal Window Manager .....	121
Getting More Information .....	121
Summary .....	122

## **Part II: Running the Show** **123**

---

### **Chapter 4: Learning Basic Administration** . . . . . **125**

Graphical Administration Tools .....	126
Using Web-Based Administration .....	126
Open Source Projects Offering Web Administration .....	126
The Webmin Administration Tool .....	127
Graphical Administration with Different Distributions .....	128
Red Hat Config Tools .....	128
SUSE YaST Tools.....	130
Using the root Login.....	131
Becoming Root from the Shell (su Command) .....	132
Allowing Limited Administrative Access .....	133
Exploring Administrative Commands, Configuration Files, and Log Files .....	134
Administrative Commands .....	134
Administrative Configuration Files .....	135
Administrative Log Files .....	139
Using sudo and Other Administrative Logins .....	139
Administering Your Linux System .....	142
Creating User Accounts .....	142
Adding Users with useradd.....	143
Setting User Defaults .....	146
Configuring Hardware .....	148
Managing Removable Hardware .....	149
Removable Media on a Fedora GNOME Desktop .....	149
Removable Media on a SUSE KDE Desktop .....	151
Working with Loadable Modules .....	152
Listing Loaded Modules .....	153
Loading Modules .....	154
Removing Modules .....	155

Managing File Systems and Disk Space .....155

- Mounting File Systems .....158
  - Supported File Systems.....158
  - Using the fstab File to Define Mountable File Systems .....160
  - Using the mount Command to Mount File Systems .....161
  - Using the umount Command .....164
- Using the mkfs Command to Create a File System .....164
- Adding a Hard Disk .....165
- Checking System Space .....168
  - Displaying System Space with df.....168
  - Checking Disk Usage with du.....169
  - Finding Disk Consumption with find .....169
- Monitoring System Performance.....170
- Summary .....170

**Chapter 5: Getting on the Internet . . . . . 171**

- Connecting to the Network .....172
  - Connecting via Dial-Up Service .....172
  - Connecting a Single Computer to Broadband .....173
  - Connecting Multiple Computers to Broadband.....174
  - Connecting Servers.....176
  - Connecting Other Equipment.....177
- Using Ethernet Connections to the Internet .....178
  - Configuring Ethernet During Installation .....178
  - Configuring Ethernet from the Desktop .....179
  - Using Network Configuration GUI in Fedora .....179
  - Identifying Other Computers (Hosts and DNS) .....181
  - Using Network Settings GUI in Ubuntu .....182
  - Understanding Your Internet Connection .....184
- Using Dial-Up Connections to the Internet .....186
  - Getting Information .....186
  - Setting Up Dial-Up PPP .....187
  - Creating a Dial-Up Connection with the Internet Configuration Wizard.....188
  - Launching Your PPP Connection .....190
  - Launching Your PPP Connection on Demand .....191
  - Checking Your PPP Connection .....191
    - Checking That Your Modem Was Detected .....192
- Connecting to the Internet with Wireless .....192
- Summary .....194

**Chapter 6: Securing Linux . . . . . 195**

- Linux Security Checklist.....196
  - Finding Distribution-Specific Security Resources .....198
  - Finding General Security Resources .....199

## Contents

Using Linux Securely .....	199
Using Password Protection .....	199
Choosing Good Passwords .....	200
Using a Shadow Password File .....	201
Breaking Encrypted Passwords .....	201
Checking for the Shadow Password File .....	202
Using Log Files.....	203
The Role of Syslogd .....	206
Redirecting Logs to a Loghost with syslogd.....	206
Understanding the messages Log File .....	208
Using Secure Shell Tools.....	208
Starting the ssh Service .....	209
Using the ssh, sftp, and scp Commands .....	209
Using ssh, scp, and sftp Without Passwords .....	211
Securing Linux Servers.....	212
Controlling Access to Services with TCP Wrappers.....	212
Understanding Attack Techniques .....	215
Protecting Against Denial of Service Attacks .....	216
Mailbombing .....	216
Spam Relaying .....	218
Smurf Amplification Attack.....	218
Protecting Against Distributed DOS Attacks .....	219
Protecting Against Intrusion Attacks.....	223
Evaluating Access to Network Services .....	224
Disabling Network Services .....	225
Securing Servers with SELinux .....	226
Protecting Web Servers with Certificates and Encryption .....	227
Symmetric Cryptography .....	228
Asymmetric Cryptography .....	228
Secure Socket Layer .....	229
Using Security Tools Linux Live CDs .....	237
Advantages of Security Live CDs.....	238
Using INSERT to check for rootkits .....	238
Summary .....	239

## **Part III: Choosing and Installing a Linux Distribution** **241**

---

<b>Chapter 7: Installing Linux. . . . .</b>	<b>243</b>
Choosing a Linux Distribution .....	244
Linux at Work .....	244
Other Distributions .....	245
Getting Your Own Linux Distribution .....	245
Finding Another Linux Distribution .....	246
Understanding What You Need .....	247
Downloading the Distribution .....	247
Burning the Distribution to CD .....	248

Exploring Common Installation Topics .....249

- Knowing Your Computer Hardware .....249
- Upgrading or Installing from Scratch .....251
- Dual Booting with Windows or Just Linux? .....251
- Using Installation Boot Options .....253
- Partitioning Hard Drives .....253
  - Partitioning with Disk Druid During Installation .....254
  - Partitioning with fdisk .....257
  - Tips for Creating Partitions .....260
- Using LILO or GRUB Boot Loaders.....261
  - Booting Your Computer with GRUB .....261
  - Booting with GRUB .....262
  - Temporarily Changing Boot Options.....262
  - Permanently Changing Boot Options .....264
  - Adding a New GRUB Boot Image .....265
  - Booting Your Computer with LILO .....266
  - Changing Your Boot Loader .....270
- Configuring Networking.....270
- Configuring Other Administrative Features .....271
- Installing from the Linux Bible CD or DVD .....272
- Summary .....272

**Chapter 8: Running Fedora Core and Red Hat Enterprise Linux. . . . . 273**

- Digging into Features .....275
  - Red Hat Installer (Anaconda) .....275
  - RPM Package Management .....276
  - Kudzu Hardware Detection .....276
  - Red Hat Desktop Look-and-Feel.....277
  - System Configuration Tools .....277
- Going Forward with Fedora Core.....277
  - Growing Community Support for Fedora .....278
  - Fedora Extras .....278
  - Fedora Legacy Project .....279
  - Forums and Mailing Lists .....280
- Fedora Comes of Age .....280
- Looking Forward with Fedora .....282
- Installing Fedora Core .....282
  - Choosing Computer Hardware .....282
  - Choosing an Installation Method .....283
    - Installing Without a Bootable CD Drive .....284
    - Installing on Multiple Computers .....284
    - Installation Guides .....284
  - Choosing to Install or Upgrade.....284
  - Beginning the Installation .....285
  - Running the Fedora Setup Agent .....293
- Summary .....293

<b>Chapter 9: Running Debian GNU/Linux . . . . .</b>	<b>295</b>
Inside Debian GNU/Linux .....	296
Debian Packages .....	296
Debian Package Management Tools .....	297
Debian Releases .....	299
Getting Help with Debian.....	299
Installing Debian GNU/Linux.....	300
Hardware Requirements and Installation Planning .....	300
Workstations.....	301
Servers .....	301
Running the Installer .....	301
Stage 1 .....	302
Stage 2 .....	303
Managing Your Debian System .....	307
Configuring Network Connections.....	307
IP Networks: Ethernet and Wireless .....	307
Dial-Up PPP Connections .....	308
PPPoE Connections .....	310
Package Management Using APT .....	310
Managing the List of Package Repositories .....	310
Updating the APT Package Database.....	311
Finding and Installing Packages .....	311
Removing Packages.....	312
Upgrading Your System .....	312
Package Management Using dpkg.....	313
Installing and Removing Packages .....	313
Querying the Package Database .....	313
Examining a Package File .....	314
Installing Package Sets (Tasks) with Tasksel .....	315
Alternatives, Diversions, and Stat Overrides .....	315
Managing Package Configuration with debconf .....	317
Summary .....	318
<b>Chapter 10: Running SUSE Linux . . . . .</b>	<b>319</b>
Understanding SUSE .....	321
What's in SUSE.....	321
Installation and Configuration with YaST .....	322
RPM Package Management .....	325
Automated Software Updates .....	326
Getting Support for SUSE.....	327
Installing openSUSE.....	327
Before You Begin.....	328
Starting Installation .....	329
Preparation .....	329
Installation Settings.....	330
Configuration Settings .....	332

Starting with SUSE .....	333
Summary .....	335
<b>Chapter 11: Running KNOPPIX . . . . .</b>	<b>337</b>
KNOPPIX Features .....	338
Understanding KNOPPIX .....	338
KNOPPIX News .....	338
Looking Inside KNOPPIX .....	339
What's Cool About KNOPPIX .....	340
Examining Challenges with KNOPPIX .....	342
Seeing Where KNOPPIX Comes From .....	343
Exploring Uses for KNOPPIX .....	343
Starting KNOPPIX .....	344
Getting a Computer .....	344
Booting KNOPPIX .....	345
Correcting Boot Problems .....	346
Customizing KNOPPIX .....	348
Special Features and Workarounds .....	350
Using KNOPPIX .....	351
Using the KDE Desktop in KNOPPIX .....	352
Getting on the Network .....	353
Installing Software in KNOPPIX .....	353
Saving Files in KNOPPIX .....	354
Writing to Hard Disk .....	355
Creating a Persistent Home Directory .....	356
Keeping Your KNOPPIX Configuration .....	357
Restarting KNOPPIX .....	357
Summary .....	358
<b>Chapter 12: Running Yellow Dog Linux . . . . .</b>	<b>361</b>
Understanding Yellow Dog Linux .....	362
Going Forward with Yellow Dog .....	363
Digging into Yellow Dog .....	364
Installing Yellow Dog Linux .....	365
Hardware Support .....	366
Planning Your Installation .....	367
Installing Mac OS X and Yellow Dog Linux on One Hard Drive .....	368
Installing Mac OS 9 or Earlier and Yellow Dog Linux on One Hard Drive .....	369
Installing Mac OS 9 or Earlier, Mac OS X, and Yellow Dog Linux on Multiple Hard Drives .....	369
Yellow Dog Linux 3.0.1 Special Considerations .....	369
Beginning the Installation .....	370
Rebooting Your Linux Mac .....	376
Updating Yellow Dog Linux .....	376
Running Mac Applications with Mac-on-Linux .....	377
Support Options .....	378
Summary .....	379

## Contents

<b>Chapter 13: Running Gentoo Linux . . . . .</b>	<b>381</b>
Understanding Gentoo .....	382
Gentoo's Open Source Spirit .....	382
The Gentoo Community .....	383
Building, Tuning, and Tweaking Linux .....	383
Where Gentoo Is Used .....	384
What's in Gentoo .....	385
Managing Software with Portage .....	386
Finding Software Packages .....	386
New Gentoo Features Entering 2007 .....	387
Installing Gentoo .....	387
Getting Gentoo .....	387
Live CD Install .....	388
Minimal/Universal Install CD .....	388
Starting Gentoo Installation from a Live CD .....	389
Starting Gentoo Installation from a Minimal CD .....	391
Getting Software with Emerge .....	399
Summary .....	399
<b>Chapter 14: Running Slackware Linux . . . . .</b>	<b>401</b>
Getting into Slackware .....	401
Characterizing the Slackware Community .....	403
The Slackware Creator .....	403
Slackware Users .....	405
Slackware Internet Sites .....	405
Challenges of Using Slackware .....	406
Using Slackware as a Development Platform .....	406
Installing Slackware .....	407
Getting Slackware .....	407
New Features in Slackware 11.0 .....	408
Hardware Requirements .....	408
Starting Installation .....	409
Starting with Slackware .....	414
Summary .....	416
<b>Chapter 15: Running Linspire and Freespire . . . . .</b>	<b>417</b>
Overview of Linspire .....	417
Which Version Is Right For You? .....	419
Installing Software with Click-N-Run .....	421
Other Installation Options .....	422
Linspire and Freespire Support .....	423
Forums and Information .....	423
Audio Assistant .....	423
Installing Linspire or Freespire .....	424
Hardware Requirements .....	424
Installing Linspire or Freespire .....	425

Securing Linspire and Freespire .....	430
Summary .....	431
<b>Chapter 16: Running Mandriva . . . . .</b>	<b>433</b>
Mandriva Features .....	433
Exploring Mandriva .....	436
Mandriva Installer (DrakX) .....	436
RPM Package Management with RPMDrake .....	437
Mandriva Linux Control Center .....	439
The Mandriva Community .....	440
RPM Repository on Mandrivaclub .....	440
Mandriva Forums .....	440
Installing Mandriva Limited Edition .....	441
The Right Hardware for Mandriva .....	441
Begin the DrakX Installation .....	442
Summary .....	445
<b>Chapter 17: Running Ubuntu Linux . . . . .</b>	<b>447</b>
Overview of Ubuntu .....	448
Ubuntu Releases .....	448
Ubuntu Installer .....	449
Ubuntu as a Desktop .....	449
Ubuntu as a Server .....	451
Ubuntu Spin-Offs .....	452
Challenges Facing Ubuntu .....	453
Installing Ubuntu .....	454
Starting with Ubuntu .....	458
Trying Out the Desktop .....	459
Adding More Software .....	461
Getting More Information About Ubuntu .....	464
Summary .....	465
<b>Chapter 18: Running a Linux Firewall/Router . . . . .</b>	<b>467</b>
Understanding Firewalls .....	468
Protecting Desktops with Firewalls .....	469
Starting Your Firewall in Fedora .....	469
Configuring a Firewall in Mandriva .....	470
Using Firewalls with iptables .....	472
Starting with iptables .....	472
Setting Some Rules .....	472
Saving Firewall Settings .....	476
Checking Your Firewall .....	476
Using iptables to Do SNAT or IP Masquerading .....	477
Adding Modules with iptables .....	478
Using iptables as a Transparent Proxy .....	479

## Contents

Using iptables for Port Forwarding .....	479
Getting iptables Scripts .....	480
Finding Out More About iptables .....	480
Making a Coyote Linux Bootable Floppy Firewall .....	481
Creating a Coyote Linux Firewall .....	481
Building the Coyote Linux Floppy .....	482
Running the Coyote Linux Floppy Firewall .....	488
Managing the Coyote Linux Floppy Firewall .....	488
Using a Web Interface .....	488
Using a Remote Login .....	489
Using Other Firewall Distributions .....	490
Summary .....	491
<b>Chapter 19: Running Bootable Linux Distributions . . . . .</b>	<b>493</b>
Overview of Bootable Linux Distributions .....	494
Choosing a Bootable Linux .....	494
Security and Rescue Bootables .....	495
BackTrack Network Security Suite .....	497
System Rescue CD .....	498
KNOPPIX Security Tools Distribution .....	498
The Inside Security Rescue Toolkit .....	499
Demonstration Bootables .....	500
Multimedia Bootables .....	501
MoviX2 .....	501
GeeXboX .....	502
KnoppMyth .....	502
Dyne:bolic .....	503
Tiny Desktops .....	503
Damn Small Linux .....	504
Puppy Linux .....	505
Special Purpose Bootables .....	506
Customizing a Bootable Linux .....	508
Summary .....	510
<b>Part IV: Running Applications</b>	<b>513</b>
<b>Chapter 20: Playing Music and Video . . . . .</b>	<b>515</b>
Playing Digital Media and Obeying the Law .....	516
Copyright Protection Issues .....	516
Exploring Codecs .....	518
Playing Music .....	519
Setting Up Audio Cards .....	519
Choosing an Audio CD Player .....	521
Playing CDs with gnome-cd .....	522
Playing CDs with cdp .....	524

Playing Music with Rhythmbox Audio Player .....525

Playing Music with XMMS Multimedia Player .....527

Using MIDI Audio Players .....531

Performing Audio File Conversion and Compression .....531

    Converting Audio Files with SoX .....531

    Compressing Music Files with oggenc .....534

Recording and Ripping Music .....534

    Creating an Audio CD with cdrecord .....535

    Ripping CDs with Grip .....536

    Creating CD Labels with cddlabelgen .....538

Working with TV, Video, and Digital Imaging .....539

    Watching TV with tvtime .....539

        Getting a Supported TV Card .....539

        Running tvtime .....540

    Video Conferencing with Ekiga .....541

        Getting a Supported Webcam .....541

        Opening Your Firewall for Ekiga .....542

        Running GnomeMeeting .....542

Watching Movies and Video .....543

    Watching Video with xine .....544

        Using xine .....545

        Creating Playlists with Xine .....545

        Xine Tips .....546

    Using Helix Player and RealPlayer 10 .....547

Using a Digital Camera with Gtcam and gPhoto2 .....548

    Downloading Digital Photos with Gtcam .....550

    Using Your Camera as a Storage Device .....551

Summary .....552

**Chapter 21: Working with Words and Images . . . . . 553**

Using OpenOffice.org .....554

Other Word Processors .....556

    Using StarOffice .....556

    Using AbiWord .....557

    Using KOffice .....558

    Getting Away from Windows .....558

Using Traditional Linux Publishing Tools .....561

Creating Documents in Groff or LaTeX .....562

    Text Processing with Groff .....563

        Formatting and Printing Documents with Groff .....564

        Creating a Man Page with Groff .....565

        Creating a Letter, Memo, or White Paper with Groff .....567

        Adding Equations, Tables, and Pictures .....571

## Contents

Text Processing with TeX/LaTeX .....	573
Creating and Formatting a LaTeX Document .....	574
Using the LyX LaTeX Editor .....	575
Printing LaTeX Files .....	576
Converting Documents.....	576
Building Structured Documents .....	578
Understanding SGML and XML .....	578
Understanding DocBook.....	578
Printing Documents in Linux .....	581
Printing to the Default Printer.....	582
Printing from the Shell .....	582
Checking the Print Queues.....	583
Removing Print Jobs .....	583
Checking Printer Status .....	584
Displaying Documents with ghostscript and Acrobat .....	584
Using the ghostscript and gv Commands .....	584
Using Adobe Acrobat Reader .....	585
Working with Graphics .....	586
Manipulating Images with The GIMP .....	586
Acquiring Screen Captures .....	588
Modifying Images with KPaint .....	589
Using Scanners Driven by SANE .....	589
Summary .....	590
<b>Chapter 22: E-Mailing and Web Browsing .....</b>	<b>591</b>
Using E-Mail .....	591
Choosing an E-Mail Client .....	591
Getting Here from Windows.....	593
Getting Started with E-Mail .....	594
Tuning Up E-Mail.....	595
Reading E-Mail with Thunderbird .....	596
Connecting to the Mail Server.....	602
Managing Incoming Mail .....	602
Composing and Sending Mail .....	603
Filtering Mail and Catching Spam.....	604
Managing E-Mail in Evolution .....	605
Receiving, Composing, and Sending E-Mail .....	606
Managing E-Mail with Search Folders.....	607
Filtering E-Mail Messages .....	608
Reading E-Mail with Mozilla Mail.....	609
Working with Text-Based E-Mail Readers .....	609
Mutt Mail Reader .....	609
Pine Mail Reader.....	610
Mail Reader.....	610
Choosing a Web Browser .....	610

Exploring the Mozilla Suite .....	611
Using Firefox .....	612
Setting Up Firefox .....	612
Setting Firefox Preferences .....	612
Adding Plug-ins .....	615
Changing Firefox Themes .....	616
Securing Firefox .....	618
Tips for Using Firefox .....	619
Using Firefox Controls .....	620
Improving Firefox Browsing .....	620
Adding a Preferences Toolbar .....	620
Adding Java Support .....	622
Doing Cool Things with Firefox .....	622
Blocking Pop-ups .....	622
Using Tabbed Browsing .....	622
Using the DOM Inspector .....	623
Resizing the Web Page .....	623
Using Text-Based Web Browsers .....	623
Summary .....	624
<b>Chapter 23: Gaming with Linux . . . . .</b>	<b>625</b>
Overview of Linux Gaming .....	625
Basic Linux Gaming Information .....	626
Where to Get Information About Linux Gaming .....	627
Choosing a Video Card for Gaming .....	628
Binary-Only Video Card Drivers .....	628
Open Source Video Drivers .....	629
Running Open Source Linux Games .....	630
GNOME Games .....	630
KDE Games .....	631
Getting Extra Games .....	633
Chess Games .....	635
Freeciv .....	637
Beginning with Freeciv .....	639
Building Your Civilization .....	640
Exploring Your World .....	641
Using More Controls and Actions .....	641
PlanetPenguin Racer (TuxRacer) .....	642
Commercial Linux Games .....	643
Getting Started with Commercial Games in Linux .....	643
Playing Commercial Linux Games .....	644
id Software Games .....	645
Quake III Arena .....	645
Return to Castle Wolfenstein .....	646
Playing TransGaming and Cedega Games .....	646

## Contents

Loki Software Game Demos .....	648
Civilization: Call to Power .....	649
Myth II: Soulblighter .....	650
Heretic II .....	650
Neverwinter Nights.....	651
Summary .....	651

## **Part V: Running Servers** **653**

---

### **Chapter 24: Running a Linux, Apache, MySQL, and PHP (LAMP) Server. . . 655**

Components of a LAMP Server.....	656
Apache .....	656
MySQL.....	656
PHP .....	657
Setting Up Your LAMP Server.....	658
Installing Apache .....	658
Installing PHP.....	659
Installing MySQL .....	660
Operating Your LAMP Server .....	662
Editing Your Apache Configuration Files .....	662
Adding a Virtual Host to Apache .....	664
User Content and the UserDir Setting.....	666
Installing a Web Application: Coppermine Photo Gallery .....	666
Troubleshooting .....	669
Configuration Errors.....	669
Access Forbidden and Server Internal Errors .....	672
Securing Your Web Traffic with SSL/TLS.....	673
Generating Your Keys .....	674
Configuring Apache to Support SSL/TLS .....	675
Summary .....	677

### **Chapter 25: Running a Mail Server . . . . . 679**

Internet E-Mail's Inner Workings .....	679
About the System and the Software Used .....	681
Preparing Your System .....	681
Configuring DNS for Direct Delivery .....	682
Configuring for Retrieval from a Mail Host .....	683
Installing and Configuring the Mail Server Software.....	683
Installing Exim and Courier .....	684
Installing ClamAV and SpamAssassin .....	685
Testing and Troubleshooting.....	688
Checking Logs .....	688
Common Errors (and How to Fix Them) .....	689
Messages Rejected by Exim.....	689
Messages Not Delivered by Exim .....	690
Login Failures When Connecting to Courier.....	690

Configuring Mail Clients .....	691
Configuring Fetchmail .....	692
Configuring Web-Based Mail .....	693
Securing Communications with SSL/TLS .....	693
Summary .....	694
<b>Chapter 26: Running a Print Server . . . . .</b>	<b>695</b>
Common UNIX Printing Service .....	696
Setting Up Printers .....	697
Using Web-Based CUPS Administration .....	697
Using the Red Hat Printer Configuration Window .....	700
Configuring Local Printers in Fedora .....	701
Configuring Remote Printers in Fedora.....	705
Adding a Remote CUPS Printer.....	705
Adding a Remote UNIX Printer.....	706
Adding a Windows (Samba) Printer .....	706
Working with CUPS Printing .....	708
Configuring the CUPS Server (cupsd.conf).....	708
Starting the CUPS Server .....	709
Configuring CUPS Printer Options Manually .....	710
Using Printing Commands .....	711
Printing with lpr .....	711
Listing Status with lpc .....	712
Removing Print Jobs with lprm.....	712
Configuring Print Servers .....	713
Configuring a Shared CUPS Printer .....	713
Configuring a Shared Samba Printer .....	715
Understanding smb.conf for Printing .....	715
Setting Up SMB Clients.....	715
Summary .....	716
<b>Chapter 27: Running a File Server . . . . .</b>	<b>719</b>
Setting Up an NFS File Server .....	720
Getting NFS .....	722
Sharing NFS File Systems .....	722
Configuring the /etc/exports File.....	723
Exporting the Shared File Systems .....	726
Starting the nfs Daemons .....	726
Using NFS File Systems .....	727
Manually Mounting an NFS File System .....	727
Automatically Mounting an NFS File System .....	728
Using autofs to Mount NFS File Systems on Demand .....	731
Unmounting NFS File Systems .....	732
Other Cool Things to Do with NFS .....	733
Setting Up a Samba File Server.....	733

Getting and Installing Samba .....	735
Configuring Samba with SWAT .....	735
Turning on the SWAT Service .....	736
Starting with SWAT .....	736
Creating Global Samba Settings in SWAT .....	737
Configuring Shared Directories with SWAT .....	743
Checking Your Samba Setup with SWAT .....	744
Working with Samba Files and Commands .....	744
Editing the smb.conf File .....	744
Adding Samba Users .....	746
Starting the Samba Service .....	747
Testing Your Samba Permissions .....	747
Checking the Status of Shared Directories .....	747
Using Samba Shared Directories .....	747
Using Samba from Nautilus .....	747
Mounting Samba Directories in Linux .....	748
Troubleshooting Your Samba Server .....	748
Basic Networking in Place? .....	748
Samba Service Running? .....	749
Firewall Open? .....	750
User Passwords Working? .....	750
Summary .....	751

---

## **Part VI: Programming in Linux** **753**

### **Chapter 28: Programming Environments and Interfaces . . . . . 755**

Understanding Programming Environments .....	756
Using Linux Programming Environments .....	756
The Linux Development Environment .....	757
The Process Model .....	758
CPU and Memory Protection .....	759
The Security Model .....	760
Preemptive Multitasking .....	761
Multiuser by Design .....	762
Interprocess Communication .....	763
The Building Blocks Philosophy .....	763
Graphical Programming Environments .....	765
Eclipse: The Universal Tool Platform .....	765
KDevelop: KDE's IDE .....	767
Code Crusader .....	768
The Command-Line Programming Environment .....	770
Linux Programming Interfaces .....	771
Creating Command-Line Interfaces .....	771
Creating Text-Mode User Interfaces with ncurses .....	773
Creating Text-Mode User Interfaces with S-Lang .....	776

Creating Graphical Interfaces .....	778
Application Programming Interfaces .....	780
Summary .....	784
<b>Chapter 29: Programming Tools and Utilities. . . . .</b>	<b>785</b>
The Well-Stocked Toolkit .....	785
Using the GCC Compiler .....	786
Compiling Multiple Source Code Files .....	788
GCC Command-Line Options .....	791
Automating Builds with make .....	792
Library Utilities .....	795
The nm Command .....	796
The ar Command .....	797
The ldd Command .....	798
The ldconfig Command .....	799
Environment Variables and Configuration Files .....	799
Source Code Control .....	800
Source Code Control Using RCS .....	800
Checking Files In and Out .....	801
Making Changes to Repository Files .....	802
Additional Command-Line Options .....	802
Source Code Control with CVS .....	803
Debugging with GNU Debugger .....	807
Starting GDB .....	808
Inspecting Code in the Debugger .....	810
Examining Data .....	811
Setting Breakpoints .....	813
Working with Source Code .....	814
Summary .....	815
<b>Appendix A: Media . . . . .</b>	<b>817</b>
<b>Appendix B: Entering the Linux Community . . . . .</b>	<b>827</b>
<b>Index . . . . .</b>	<b>833</b>
<b>GNU General Public License . . . . .</b>	<b>849</b>
