

Preface	xv
Acknowledgments	xvii
Contributors	xix

Chapter 1 _____
Classification and Diagnosis Concepts **1**

*Randy W. Kamphaus, Ellen W. Rowe, Erin T. Dowdy,
and Cheryl N. Hendry*

Defining Classification and Diagnosis	1
Categorical and Dimensional Methods	3
Psychiatric Diagnostic Classification	4
Characteristics of Psychiatric (Categorical) Diagnosis	5
Individuals with Disabilities Education Act	14
Dimensional Methods of Classification	17
Advantages of Dimensional Methods of Classification	20
Disadvantages of Dimensional Methods of Classification	21
Combining Categorical and Dimensional Diagnostic Methods	22
A Composite Diagnostic Model	23
Conclusion	26

Chapter 2 _____
Interpretation of Findings **29**

Randy W. Kamphaus

Assessing Core Constructs/Symptoms	30
Onset and Developmental Course	33

Alternative Causes and Etiologies	35
Rule in Comorbidities	37
Case Study	38
Conclusion	42

Chapter 3

Mental Retardation/Intellectual Disability 45

Jonathan M. Campbell

Characteristics 45

Constructs of Interest 46

Intellectual Functioning	47
Adaptive Behavior	50
A Comprehensive Model of Personal Competence	51
Psychopathology	52
Phenotypic "Profiling"	55

Diagnostic Standards 58

American Association on Mental Retardation	59
<i>Diagnostic and Statistical Manual of Mental Disorders, Fourth Edition, Text Revision</i>	61
Individuals with Disabilities Education Act Guidelines	62

Assessment Methods and Procedures 63

Intellectual Functioning	63
Adaptive Functioning	69
Psychological and Behavioral Assessment	69
Health, Physical, and Etiological Considerations	74
Environmental Considerations	75

Case Study 75

Discussion of Case Study 84

Conclusion 85

Chapter 4

Learning Disabilities 87

Randy W. Kamphaus, Matthew Quirk, and Anna P. Kroncke

Constructs of Interest 87

Diagnostic Standards 92

<i>Diagnostic and Statistical Manual of Mental Disorders</i> Criteria	97
Emerging Diagnostic Criteria	98

Assessment Methods	101
Interpretation of Findings	103
Case Study	104
Conclusion	113

Chapter 5

Autism Spectrum Disorders 119

Jonathan M. Campbell

Constructs of Interest 120

- Social Functioning 120
- Language Development and Use 122
- Restricted, Repetitive, and Stereotyped Activities, Interests, and Behaviors 123
- Neurocognitive Functioning 123
- Adaptive Functioning 126

Diagnostic Standards 126

- Autistic Disorder 127
- Asperger’s Disorder 128
- Childhood Disintegrative Disorder 130
- Rett’s Disorder 131
- Pervasive Developmental Disorder—Not Otherwise Specified 132
- Individuals with Disabilities Education Act 133

Assessment Methods and Procedures 134

- Introduction to the Comprehensive Developmental Approach 134
- Additional Guidelines for Assessment 136
- Diagnostic Assessment of the Autistic Triad: Social Functioning, Communication, and Repetitive Behavior/Interests/Activities 137
- Language Functioning 143
- Cognitive Functioning 144
- Adaptive Functioning 148
- Assessment of Problem Behaviors 149
- Emotional Functioning 151
- Additional Consultations 152

Interpretation and Communication of Findings 153

- Content of Session 153
- Parents’ Perspective of the Informing Meeting 154

Case Study	155
Discussion of Case Study	166
Conclusion	167
Chapter 6	
Depressive Disorders	169
<i>Jonathan M. Campbell</i>	
Characteristics	170
Phenomenology of Depression in Children and Adolescents	171
Constructs of Interest	172
Affective Features and Mood	172
Physical Manifestations of Depression	173
Cognitive Constructs	173
Comorbid Psychopathology	175
Conceptual Controversies Relevant to Assessment of Depression	176
Tripartite Model of Anxiety and Depression	176
Diagnostic Standards	179
Major Depressive Disorder	179
Dysthymic Disorder	180
Depressive Disorder—Not Otherwise Specified	180
Mixed Anxiety-Depressive Disorder	181
Individuals with Disabilities Education Act	181
Assessment Methods and Procedures	182
Self-Report Scales	183
Third-Party Rating Instruments	186
Structured Interviews	188
Assessment of Suicidal Risk	189
Case Study	192
Discussion of Case Study	201
Conclusion	208
Chapter 7	
Anxiety Disorders	211
<i>Jonathan M. Campbell</i>	
Constructs of Interest	212
Multidimensional Definition of Anxiety	212
Cognitive/Subjective Manifestations	213

Physiological Manifestations	215	
Behavioral Symptoms	215	
Comorbidities	216	
The Tripartite Conceptualization of Depression and Anxiety Revisited	217	
Diagnostic Standards		219
<i>Diagnostic and Statistical Manual of Mental Disorders, Fourth Edition, Text Revision</i>	219	
Individuals with Disabilities Education Act	222	
Assessment Methods and Procedures		223
Self-Report Instruments	224	
Third-Party Rating Instruments		228
Behavior Assessment System for Children	228	
Achenbach System of Empirically-Based Assessment	229	
Children's Yale-Brown Obsessive Compulsive Scale	231	
Structured and Semistructured Interviews	232	
Case Study		233
Discussion of Case Study		241
Conclusion		244
Chapter 8		
<hr/>		
Traumatic Brain Injury		245
<i>Juliana S. Bloom, Morris J. Cohen, and Jonathan M. Campbell</i>		
Constructs of Interest		246
Categories of Traumatic Brain Injury	246	
Types of Traumatic Brain Injury	247	
Incidence and Epidemiology	249	
Recovery	252	
Outcomes	253	
Diagnostic Standards		256
Degree of Consciousness	257	
<i>Diagnostic and Statistical Manual of Mental Disorders, Fourth Edition (DSM-IV)</i>	258	
Individuals with Disabilities Education Act	258	
General Approach to Assessment and Specific Assessment Methods		259
Intelligence	261	
Academic Achievement	262	

Language Skills	263	
Executive Functioning	264	
Attention	264	
Memory	265	
Visual-Perceptual and Visual-Motor Skills	266	
Motor Skills	266	
Social-Emotional and Behavioral Functioning	267	
Interpretation and Communication of Findings		268
Feedback to Family Members	268	
Recommendations for the School	269	
Psychopharmacological Intervention	270	
Case Study		270
Discussion of Case Study		281
Conclusion		282
Chapter 9		
<hr/>		
Eating and Feeding Disorders		283
<i>Kathryn F. Moon and Jonathan M. Campbell</i>		
Constructs of Interest		284
Self-Evaluation and Body Image	284	
Binge Eating	285	
Compensatory Behaviors	286	
Developmental, Medical, and Nutritional Problems	286	
Comorbid Psychopathology	287	
Biological, Psychological, and Social Risk Factors	288	
Gender and Socioeconomic Status Risk Factors	290	
<i>DSM-IV-TR and International Classification of Disease, 10th Edition (ICD-10)</i>	290	
Other Classification Systems	294	
Individuals with Disabilities Education Act	295	
Assessment Procedures		295
Physical Examination and Nutritional Assessment	296	
Interviews	296	
Interviews versus Self-Report Questionnaires	298	
Self-Report Questionnaires for Eating Disorder Psychopathology	299	
Self-Report of Binge Eating	301	

Self-Report of Body Image	302	
Self-Report Measures of Depression, Personality, and Behavior	302	
Behavioral Assessment	304	
Interpretation and Communication of Findings		306
Communicating Findings to Children and Adolescents	307	
Case Study		308
Discussion of Case Study		314
Conclusion		316

Chapter 10

Diagnosis of Attention-Deficit/Hyperactivity Disorder and Its Subtypes **319**

Mauricio A. García-Barrera and Randy W. Kamphaus

Constructs of Interest		319
Diagnostic Standards		321
Assessment Methods		327
Attention-Deficit/Hyperactivity Disorder, Special Education, and Federal Law		337
Case Study		338
Conclusion		354

Chapter 11

Conduct Disorder and Oppositional Defiant Disorder **357**

Carrah L. James and Jonathan M. Campbell

Constructs of Interest		358
Risk Factors and Etiological Considerations	361	
Diagnostic Standards		364
<i>Diagnostic and Statistical Manual of Mental Disorders</i>	365	
Contextual Variables	367	
Gender Issues	367	
Age	367	
Comorbidity and Differential Diagnosis	368	
Individuals with Disabilities Education Act	368	

Assessment Methods	369
Third-Party Rating Scales	370
Direct Observation and Interviewing	375
Self-Reports	377
Preschool Assessment	379
Case Study	379
Discussion of Case Study	387
Conclusion	389
Chapter 12	
<hr/>	
Assessment and Diagnosis of Substance Use in Childhood and Adolescence	391
<i>Meghan C. VanDeventer and Randy W. Kamphaus</i>	
Adolescent Epidemiologic Studies	392
Diagnosis	393
The Evolution of the <i>Diagnostic and Statistical Manual of Mental Disorders</i>	395
Applying the <i>DSM-IV</i> to Adolescents	399
Current Substance Use-Related Classification Systems	403
Risk Factors	407
Substance Use	408
Genetic-Biological Factors	408
Psychological Factors	409
Child Conduct Problems	410
Peer-Related Factors	410
Family-Related Factors	410
School- and Community-Related Factors	411
Traumatic and Negative Life Events	411
Implications for Assessment	412
Comorbid Psychiatric Disorders	412
Conduct Disorder and Attention-Deficit/Hyperactivity Disorder	413
Depression	414
Anxiety Disorder	414
Eating Disorder	415
Implications for Assessment	415

Diagnostic Assessment	416
Comprehensive Assessment: The Domain Model	416
Process of Assessment	419
Methods of Assessment	421
The Present State of Adolescent Substance Use Assessment	424
General Diagnostic Interviews	425
“Screening” Instruments	429
Specific Comprehensive Instruments	431
Conclusion	434
Chapter 13	
<hr/>	
Clusters of Child Adjustment	437
<i>Erin T. Dowdy, Cheryl N. Hendry, and Randy W. Kamphaus</i>	
Person-Oriented Methods of Classification	438
Advantages of Person-Oriented Methods of Classification	439
Statistical Methods for Person-Oriented Classification	440
Preliminary Support for Person-Oriented Profile Types	442
Disadvantages of Person-Oriented Methods of Classification	443
Typologies Derived from the Behavior Assessment System for Children	449
Conclusion	459
References	463
Author Index	503
Subject Index	515
