

# Contents

*Introduction* ..... xvii

**Part 1 • Setup, Startup, and Installing** ..... **1**

**Chapter 1 • The Power of Permissions: Understanding Users and Unix Organization.** ..... **3**

The Basics: Permissions, Accounts, and File Organization ..... 3  
    Permissions Explained ..... 4  
    Understanding User Accounts ..... 6  
    Why Are There So Many Copies of So Many Folders? (OS X File/Folder Organization) ... 12  
    The Man behind the Curtain: NetInfo ..... 15  
Mastering Permissions and Accounts ..... 23  
    Creating, Editing, and Deleting User Accounts ..... 23  
    Switching Between Accounts Quickly: Fast User Switching ..... 31  
    Getting to the Root of It: The Root Account ..... 35  
    What Do You Mean I Don't Have Permission? Working with Permissions ..... 44  
    How to Give Permission to More Than One Person (but Not Everyone): Groups ..... 48  
    Why Did I Ever Pick That Name? (Changing Your Short Username) ..... 54  
    Creating a No-Password Account ..... 59  
Moving On... ..... 60

**Chapter 2 • Sensational Setup.** ..... **61**

System Preferences: Beyond the Basics ..... 61  
    The System Preferences Application ..... 62  
    The Personal Category in System Preferences ..... 67  
    The Hardware Category in System Preferences ..... 81  
    The Internet & Network Category in System Preferences ..... 93  
    The System Category in System Preferences ..... 95  
    The Other Category in System Preferences ..... 100  
    Finder Preferences ..... 103  
Application Preferences ..... 103  
    How Do I Access Application Preferences? ..... 103  
    Customizing Application Toolbars ..... 104  
Working with Preference Files ..... 105  
    Where Are My Preferences? ..... 106  
    Edit Preference Files Directly ..... 106  
    Edit Preference Files via Terminal ..... 108  
    How Can a Preference Be Wrong? Troubleshooting Preference Files ..... 108  
Moving On... ..... 109

**Chapter 3 • Subjugating Startup and Leveraging Login** ..... **111**

The Boot Process ..... 111  
Choosing a Startup Volume or System ..... 113

The Startup Disk System Preferences .....	113
Choosing a Boot Volume at Startup via the Keyboard .....	114
Customizing the Boot Panel .....	117
Changing the Boot Panel Image .....	117
The Login Process .....	119
Login Options in Accounts Preferences .....	120
Other Login Window Options .....	122
The Startup Items Tab of Accounts Preferences (Which Should Still Be Called <i>Login Items</i> ) .....	126
Customizing the Login Screen .....	128
Logging Out .....	130
Managing Startup/Login Services .....	131
Managing Startup/Login Services Manually .....	131
Managing Startup/Login Services Using Diablotin .....	132
For Advanced Users: Disabling Services .....	134
Stopping and Restarting Startup Processes .....	135
Stopping and Restarting User-Level Login/Startup Processes .....	136
Stopping and Restarting System-Level Startup Processes .....	137
Special Startup and Login Options .....	138
Single-User Mode: Command+S .....	138
Verbose Mode: Command+V .....	139
“Safe” Startup and/or Login: Shift .....	139
Accessing “Terminal” at Login: Console Login .....	140
Open Firmware: Command+Option+O+F .....	141
Moving On... .....	142
<b>Chapter 4 • Installations, Inc. ....</b>	<b>143</b>
Installation Basics .....	143
Where Are Things Installed? .....	143
Packages .....	145
Moving Installed Applications .....	147
Installing Third-Party Software .....	148
How Software Is Distributed .....	148
Installer Applications and Packages .....	150
Drag-and-Drop Installing .....	152
Adding Add-Ons .....	152
Installing Mac OS and Apple Software .....	156
Bending Software Update to Your Will .....	156
Installing Apple Software Updates Manually .....	161
Restoring Selected Software and Installing <i>Parts</i> of Updates .....	163
Updating/Reinstalling the Entire OS: Archive and Install .....	166
Reinstalling Mac OS 9 for the Classic Environment .....	173
Uninstalling Software .....	173
Uninstalling Mac OS Software .....	174
Uninstalling Third-Party Software .....	175
Transferring Mac OS X between Computers or Hard Drives .....	178
Transferring Mac OS X between Hard Drives .....	179

Transferring Mac OS X between Computers #1: When Both Computers Are Running the Same Version of OS X .....	180
Transferring Mac OS X between Computers #2: When the “Target” Computer Requires a Newer Version of OS X .....	181
Supporting “Unsupported” Stuff .....	183
Moving On... ..	185

## Part 2 • Files, Finders, Docks, and Apps (Including Classic) ..... 187

### Chapter 5 • Finagle Files and Foil Finder Frustration ..... 189

File Basics .....	189
File Types, Creator Types, and File Extensions .....	190
The Get Info Window .....	192
Other File Attributes .....	195
Finder Preferences and View Options .....	197
Finder Preferences .....	198
View Options .....	201
The Desktop and the Desktop Folder .....	201
Where/What Is the Desktop <i>Really</i> ? .....	201
View Options for the Desktop .....	202
Accessing the Desktop (Especially When It’s Hidden) .....	203
Working with Windows (Finder Windows, Not Microsoft Windows) .....	206
The Toolbar .....	206
The Sidebar .....	212
Recommended Toolbar/Sidebar Items .....	215
Window Views and View Options .....	216
Useful Window Tidbits .....	223
File and Folder Finesse .....	227
Contextual Menus .....	228
Copying and Moving Files .....	230
Open (Files) With .....	233
Go Directly to a Folder .....	234
Alias Action .....	235
Favorite Files and Folders .....	237
Finding Files, Folders, and Information .....	238
Undo .....	244
Super Saving (and Opening) .....	245
Navigating Open and Save Dialogs .....	245
Open/Save Dialog Delight: Default Folder .....	249
Moving On... ..	250

### Chapter 6 • Developing a Dynamite Dock ..... 251

Dock Settings and Customization .....	251
The Dock Preferences Pane .....	252
Hidden and Special Dock Preferences .....	254

Using and Abusing the Dock .....	257
Accessing and Using Dock Items .....	257
Customizing the Dock's Contents .....	259
Dock Storage: Minimizing Windows .....	261
Dock/Keyboard Shortcuts and Commands .....	263
Accessorizing Your Dock .....	265
Not-So-Ugly Docklings .....	265
(Dock) Menus to the Max .....	267
Double (and Triple) Docks .....	267
Alternatives to the Stock Dock .....	267
Un-Dock-Like Alternatives .....	268
Dock-Like Alternatives .....	271
Moving On... .....	272
<b>Chapter 7 • Application Aptitude .....</b>	<b>273</b>
Applications 101 .....	273
Hiding and Minimizing Applications and Windows .....	273
Expose: Accessing Windows (and the Desktop) Easily .....	274
Windowing Wiles .....	281
Customizing the Toolbar .....	282
Using the Title Bar ( <i>Proxy</i> ) Icon .....	282
Getting and Using Help .....	283
Exploring Menus and Preferences .....	284
Getting the Most from Mac OS X's Applications and Utilities .....	284
Mac OS X's Applications .....	285
Mac OS X's Utilities .....	302
Basic Application Troubleshooting .....	320
Dealing with Application Freezes .....	320
Dealing with Bad Preference Files .....	322
Text Testimonials: Working with Text in OS X .....	323
Cocoa/Carbon Text Tips .....	323
Other Text Tips .....	328
Moving On... .....	331
<b>Chapter 8 • Clobbering Classic .....</b>	<b>333</b>
A Quick Primer on the Classic Environment .....	333
Classic Technical Details .....	334
Classic Caveats .....	336
Updating Classic System Software .....	337
The Classic System Preferences .....	337
The Start/Stop Tab (and How to Start Classic) .....	338
The Advanced Tab .....	341
The Memory/Versions Tab .....	343
Optimizing Classic .....	344
Customize Your System Folder for Classic .....	344
Partitions and Multiple System Folders .....	345
Buy More RAM .....	345

- Using Classic .....347
  - Classic Peculiarities .....347
  - Using the Classic Apple Menu .....351
  - Starting and Stopping Classic from the Dock .....352
  - Printing in Classic .....352
- Classic Trouble .....353
  - Startup File Conflicts .....353
  - Classic and Classic Application Crashes .....353
  - Inability to Select a System Folder in Classic Preferences .....354
  - Permissions Prevent Classic from Launching .....354
- Moving On... .....355

**Part 3 • The Internet, Networking, Sharing, and Printing ..... 357**

**Chapter 9 • Networking Notables and Internet Illuminations ..... 359**

- Network Basics .....359
- Network and Internet: Setup Subtleties .....360
  - The Network System Preferences .....360
  - The .Mac System Preferences .....367
  - The Bluetooth System Preferences .....370
  - The Internet Connect Application .....371
  - Sharing Your Surfing Signal .....373
- Better Browsing Basics .....377
  - Surfing with ICeCoffEE .....378
  - Simple (and Slick) Searching .....378
  - Browsing the Browsers .....379
  - Location Files, Part I .....381
  - Better Bookmarks (a.k.a. Finer Favorites) .....381
  - Preventing Pop-Ups (Pop-Up Ads, That Is) .....385
  - Setting Up Servers .....386
- Moving On... .....387

**Chapter 10 • Stellar Sharing Strategies ..... 389**

- Sharing Locally: The Public and Shared Folders, and Local Volumes .....390
  - What Does It Share? .....390
  - Who Can Access Files? .....391
  - How Do I Configure It? .....391
  - How Do Others Access Files? .....391
  - Sharing Files Locally Using Multiple Volumes/Drives .....391
- Sharing Files Locally: Bluetooth .....392
  - What Does It Share? .....392
  - Who Can Access Files? .....392
  - How Do I Configure It? .....393
  - How Do Others Access Files? .....393
- Sharing Remotely: iDisk .....394
  - What Does It Share? .....395
  - Who Can Access Files? .....395

How Do I Configure It? . . . . .	395
How Do Others Access Files? . . . . .	396
Sharing iDisk Files Using a Web Page . . . . .	397
Sharing Remotely: Personal File Sharing . . . . .	397
What Does It Share? . . . . .	397
Who Can Access Files? . . . . .	399
How Do You Configure It? . . . . .	399
How Do Others Access Files? . . . . .	404
Sharing Remotely: FTP . . . . .	405
What Does It Share? . . . . .	408
Who Can Access Files? . . . . .	409
How Do I Configure It? . . . . .	409
How Do Others Access Files? . . . . .	410
Sharing Remotely: Secure FTP (SFTP) . . . . .	410
What Does It Share? . . . . .	411
Who Can Access Files? . . . . .	411
How Do I Configure It? . . . . .	411
How Do Others Access Files? . . . . .	412
Sharing Remotely: Windows File Sharing (SMB) . . . . .	413
What Does It Share? . . . . .	413
Who Can Access Files? . . . . .	413
How Do I Configure It? . . . . .	413
Alternatives to Windows File Sharing . . . . .	418
How Do Others Access Files? . . . . .	418
Sharing Remotely: Personal Web Sharing . . . . .	419
What Does It Share? . . . . .	419
Who Can Access Files? . . . . .	420
How Do I Configure It? . . . . .	421
How Do Others Access Files? . . . . .	421
Quick Access to Sharing Services . . . . .	422
Moving On... . . . .	422
<b>Chapter 11 • Connection Convenience and Remote Control . . . . .</b>	<b>423</b>
IP Addresses, URLs, and Ports . . . . .	423
What's the Address? . . . . .	423
URLs: Not Just HTTP . . . . .	424
Servers and Alternate Ports . . . . .	425
Servers Simplified . . . . .	426
Connecting to Shares on Other Computers/Servers . . . . .	426
Mounting and Unmounting Shares/Volumes . . . . .	426
Connecting to iDisks . . . . .	428
Connecting to Personal File Sharing . . . . .	432
Connecting to Windows Shares . . . . .	435
Connecting to FTP/SFTP Servers . . . . .	437
Connecting to NFS Servers/Shares . . . . .	441
Connecting to Frequently Accessed Servers and Shares . . . . .	441
Using Aliases (iDisk/AFP/SMB/NFS) . . . . .	441

- Using Internet Location Files (i.e., Location Files, Part II) ..... 442
- Automatically Connect to Shares/Servers at Login ..... 445
- Connecting to Virtual Private Networks (VPN) ..... 446
- Remote Access and Control ..... 447
  - Remote Login ..... 448
  - Desktop Control: VNC, Timbuktu, Apple Remote Desktop ..... 454
- Moving On... ..... 458

**Chapter 12 • Printing Practicalities (and Fax Features) ..... 459**

- Printing Basics ..... 459
  - Printer Types ..... 459
  - Printer Connections ..... 460
  - Installing “Supported” Printer Drivers and PPDs ..... 460
  - CUPS: OS X’s Printing System ..... 461
- Printer Prep: Setting Up and Managing Printers in OS X ..... 462
  - Using Printer Setup Utility ..... 462
  - Using the CUPS Web Interface ..... 471
  - Setting Up Printers in Classic ..... 477
  - Cleaning House: Removing Unnecessary Printer Drivers ..... 478
- Supporting Unsupported Printers ..... 479
  - Installing and Using Gimp-Print Drivers ..... 480
- Sharing Your Printer ..... 482
  - Sharing Printers with Windows Computers ..... 484
  - Sharing Printers over the Internet ..... 484
  - Sharing Printers with Macs Running OS 9 ..... 484
- Printing Pointers ..... 485
  - Using Desktop Printers ..... 485
  - Using Quartz Filters ..... 487
  - Saving Custom Print Job Settings ..... 487
  - “Printing” to a PDF File ..... 488
  - Creating a “Virtual” PostScript Printer (a.k.a. Printing to a PostScript File) ..... 492
  - Printing Selectively ..... 493
- Fax Functionality ..... 493
- Problematic Printing ..... 499
- Moving On... ..... 500

**Part 4 • Mastering Your Mac—Security, Maintenance, and Unix ..... 501**

**Chapter 13 • Strengthening System Security and Fine-Tuning Firewalls ..... 503**

- Security Basics ..... 503
- Keeping Your Mac Safe: Networks and the Internet ..... 506
  - What Is a Firewall? ..... 507
  - Hardware Routers as Firewalls ..... 508
  - Mac OS X’s Built-in Firewall ..... 511
  - Third-Party Firewalls for OS X ..... 516
  - Monitoring Outgoing Network Connections: Little Snitch ..... 517

Keeping Your Mac Safe: Local Access .....	517
Securing Startup: Open Firmware Password Protection .....	518
Securing Single-User Mode .....	520
Auto-Logout: Log Users Out Automatically .....	521
Locking the Screen .....	522
Keeping Sensitive Data Safe .....	523
The Mac OS X Keychain .....	524
Encrypting Data .....	533
Securely Deleting Files and Erasing Free Space .....	537
Protecting Yourself (and Your Friends) from Viruses .....	539
Moving On... .....	539
<b>Chapter 14 • Mac Maintenance and Administrative Actions .....</b>	<b>541</b>
Disk Drive Diligence .....	541
Doctoring Disk Directories .....	542
Recovering Files .....	547
Undeleting Deleted Data .....	547
Defragmenting Drives .....	548
Disk Drive Diagnosis .....	551
Data Despair? .....	552
Maintenance Magic .....	553
Periodic Permissions Patching .....	553
Running Routines (Unix Routines, That Is) .....	553
Cache Cleaning .....	555
Saving Space .....	557
Admin Artistry .....	557
Automating Admin Actions .....	557
Adjusting Application Priorities .....	561
Looking Over Log Files .....	563
Backup Basics .....	564
Backups 101 .....	564
Backup Utilities .....	569
Moving On... .....	571
<b>Chapter 15 • Utilizing Unix .....</b>	<b>573</b>
Unix Doing in Mac OS X? .....	573
Types of Unix Programs .....	574
The Mac Approach vs. the Unix Approach .....	578
Shell Games: Using the Shell .....	580
Shell Commands, Options, and Arguments .....	581
Quoting Special Characters .....	582
Auto-Completion .....	583
Globbing .....	584
The <i>find</i> Command .....	585
Be Aware of Your Environment: Variables .....	586
Choosing Your Path .....	591
An Alias, by Any Other Name... .....	592

Customizing Your Environment Across Shells .....	592
Putting Tools Together: The Beauty of Unix .....	593
Everything's a File .....	596
Shell Scripts .....	597
Using Fink to Access Other Unix Applications .....	598
Beyond the Basics: Other Unix Tips .....	604
Everybody Needs a Little Help Sometimes, <i>man</i> .....	604
Unix Tools to Explore .....	606
Editors .....	606
The <i>cron</i> Command .....	606
Mac OS X Tools .....	606
Commands for Working with Files .....	607
Disk Utilities .....	608
Network and Internet Tools .....	608
Printing Tools .....	609
Compiling and Installing Unix Programs .....	609
Alternatives to Compiling: Ports .....	610
X11 .....	611
Moving On...? .....	612
<b>Appendix A • Multiple Mounts, Various Volumes, and Divided Disks .....</b>	<b>613</b>
Working with Multiple Volumes in OS X .....	613
Accessing Non-Boot Volumes .....	614
Copying versus Moving with Multiple Volumes .....	616
Permissions on Non-Boot Volumes .....	616
Permissions on Removable Volumes .....	618
Sharing a Non-Boot Volume .....	618
Changing the Startup Volume .....	618
Installing OS X on FireWire Volumes .....	618
Unmounting/Ejecting Removable Volumes .....	619
FireWire Drives and OS X 10.3 (Panther) .....	619
Using Drive Partitions .....	620
Benefits of Partitioning .....	621
Drawbacks of Partitioning .....	622
Partitioning a Drive in OS X .....	623
Customizing OS X When Using Multiple Volumes .....	625
Moving a User Folder—or All User Folders—to a Non-Boot Volume .....	625
Using a Non-Boot Volume for System Swap Files .....	627
<i>Index</i> .....	629
