***Introduction*..... 1**

How to Read This Book.....	1
Assumptions About You.....	2
A Word about Operating Systems and Service Pack 2.....	2
How This Book Is Organized.....	3
Part I: The Basics of Cleaning Your System.....	3
Part II: Programs and Data.....	4
Part III: E-Mail and the Internet.....	4
Part IV: The Operating System.....	4
Part V: Advanced Cleaning for the Truly Brave.....	4
Part VI: The Part of Tens.....	5
Customs and Practices.....	5
Icons Used in This Book.....	5
Where to Go from Here.....	6

***Part 1: The Basics of Cleaning Your System* 7**

Chapter 1: First Things First: Why You Should Clean 9

Telltale Signs of an Unclean Computer.....	10
The view from the desktop isn't pretty.....	10
Traversing the Start menu jungle is an adventure.....	11
Your PC is slower than molasses.....	12
You have files older than your dog.....	13
Your system tray looks like a parking lot.....	14
Cleaning Up: The Pros and Cons.....	14
The pros.....	15
The cons.....	16
Balancing pros and cons.....	16
Keeping Your House Tidy.....	17

Chapter 2: Determining What to Clean and When 19

How to Eat an Elephant.....	19
Precautions for Safety's Sake.....	21
Finding the Right Tools.....	23
Finding Windows tools.....	23
Finding third-party tools.....	25
Creating a Cleaning Schedule.....	26
Now. Do it now — right now.....	26
Once a week should do it.....	27

It's the end of the month already!	28
Time for the annual clean-a-fest	29
Time for an Overhaul?	30
Is New Hardware the Answer?	31

***Part II: Programs and Data*33**

Chapter 3: Identifying What You Have35

Creating a Program Inventory	35
The think-tank approach	36
The laid-back approach	37
Finding Out What Programs Are Installed	38
Inspecting your desktop	38
Scrutinizing the Start menu	40
Checking the Control Panel.....	40
Peering in program folders	41
Discovering What Programs Run When	43
Starting up for all users	43
Starting up for just you.....	44
Figuring Out What Is Running Right Now.....	45
Making a Game Plan.....	48

Chapter 4: Making Your Programs Run Faster49

Common Sense for Programs	49
Turn off whiz-bang features	50
Watch out for networking "gotchas".....	50
Never upgrade unless you have to.....	51
Speeding up specific software	52
Speeding Up Access to Large Data Files.....	56
Change your hardware	56
Reconfigure your data	57
Reconfigure your program	57
Are We Compatible?.....	58
Playing Games	60
Pushing the Envelope: Multimedia Editing Programs	62

Chapter 5: Getting Rid of Old Programs63

Identifying Candidates for Removal.....	63
Unused programs you installed.....	64
Preinstalled software	64
Stuff you find in the Program Files folder.....	65
Four Ways to Remove Unwanted Programs	66
An application's uninstall command	66
The Add or Remove Programs applet in the Control Panel.....	67
Third-party software	69
The brute-force method	69
Eliminating Remnants of Failed Programs	74

Chapter 6: Data, Data Everywhere	77
Finding Temporary Files	78
Locating and deleting files from temporary folders	79
Finding and eliminating specific files	81
Tracking Down Orphan Data	82
Doing a Disk Cleanup	83
Finding and Eliminating Duplicate Data	86
What to Do with Multimedia Files	88
Empty the Recycle Bin Often	89
Chapter 7: Organizing and Archiving Data	91
Organizing Your Data	91
Adding and partitioning hard drives	92
Creating a folder structure	93
Watching your depth	94
Moving, renaming, and deleting folders	94
Clearing Out Your Root Directory	96
What About the Default Folders?	97
Archiving and Backing Up Data	99
Archiving what you don't need	99
Backing up what you still need	101
Storing backups and archives	102

Part III: E-Mail and the Internet..... **103**

Chapter 8: Tackling E-Mail Overload	105
Using Different Accounts to Manage and Reduce E-Mail	106
Managing incoming mail	106
Reducing unwanted mail	107
Psychology 101: Don't Answer That Phone . . . er, E-Mail	108
Why You Get Spam	109
Harvesting addresses	110
Guessing addresses	110
Purchasing addresses	112
Tactics for Limiting Spam	113
Implementing Spam Filters	114
Types of filters	114
Types of filter technology	116
Combating Spam with a Challenge/Response System	117
Chapter 9: Organizing Your E-Mail	119
Using Folders Effectively	120
Smart Move: Using Mail Rules	121
Creating a rule	121
Rearranging the rules	125
Deleting a rule	126

Deleting E-Mail Regularly	126
Determine a cutoff point for e-mails	127
Empty the Deleted Items folder	127
Empty the junk mail folder	127
Watching Out for Attachments	129
Archiving Valuable E-Mail	130
Enabling built-in archives	130
Using the Mailbox Cleanup tool in Outlook	132
Rolling your own archive process	132
Chapter 10: Banishing Internet Villains	135
Uh-Oh! Do I Have a Virus?	136
Finding viruses on your computer	136
Blocking viruses	137
Sizing Up Spyware	138
Identifying spyware	139
Getting to know spyware	140
Eliminating spyware	142
Blocking Pop-Ups	145
Employing pop-up blockers	145
Blocking Flash ads	146
Non-Pop-Up Pop-Ups	148
Resisting the Lure of Trinkets	150
Chapter 11: Managing Internet Information	151
Are Cookies a Reason for Worry?	151
Blocking cookies	152
Managing your cookies	154
Deleting all cookies	154
Negotiating Newsgroups	156
Organizing Web Favorites	157
Taming Web Cache Files	158
Cleaning the cache	159
Finding the cache	160
Changing the cache size	162
Part IV: The Operating System	165
Chapter 12: Cleaning Up the User Interface	167
Master of the Desktop	167
Displaying the traditional desktop icons	168
Renaming and deleting icons	170
Running the Desktop Cleanup Wizard	171
A word on themes and screensavers	173

Ordering the Menu System173
 Picking a Start menu layout174
 Customizing the Start menu.....174
 Moving items in the All Programs list.....176
 Creating your own program groups176
 Effectively Using the Taskbar177
 Birds of a feather177
 Cleaning the notification area.....179
 Cleaning Up the Control Panel181

Chapter 13: Streamlining Windows183

Installing Just What You Need183
 Setting Performance Options185
 Understanding visual effects186
 Advanced performance options187
 Using the Microsoft System Configuration Utility188
 Modifying the startup process190
 Modifying startup files191
 Modifying what is started.....192
 Working with the Latest Drivers.....193
 Checking a driver’s signature193
 Checking for updated device drivers.....196
 Removing device drivers.....196
 Going on a .DLL Diet197
 Shut Down Unused Services198
 Services in the Computer Manager199
 Services in msconfig201
 Putting System Restore to Work.....201
 Configuring System Restore.....202
 Setting a restore point203
 Reverting to history204

Chapter 14: Speeding Up the File System207

Which File System to Use?208
 The FAT file system208
 The NTFS file system208
 Making your choice.....209
 Changing File Systems209
 Seeing what file system you use.....210
 Converting to NTFS210
 Converting to FAT211
 Defragmenting Your Drive.....212
 Checking for Errors.....215
 Using Windows’ disk tools215
 Using chkdsk216
 To Compress or Not?217

Chapter 15: Managing Windows Updates	219
Getting Updates the Way You Want	220
Manual updates	220
Automatic updates	222
Picking an update method	224
Which Updates Do You Really Need?	225
Getting Rid of Update Files	227
Chapter 16: Getting a New System	231
When Is Getting a New System Justified?	232
What Should You Get?	233
High-end systems	233
Mid-range systems	234
Low-end systems	235
Portable systems	235
Preparing for the New System	236
Collecting pieces and parts	237
Collecting information	237
Reinstalling Programs	240
Transferring Data	241
Part V: Advanced Cleaning for the Truly Brave	243
Chapter 17: Memory and Storage	245
How Windows Uses Memory	245
Determining Whether You Need More Memory	246
Will Another Hard Drive Help?	249
Faster speed	249
Better performance	250
Choosing Between Internal or External Hard Drives	252
Easy backups	252
Easy data transfer	253
Alternative Storage Solutions	253
Chapter 18: Becoming Security Conscious	255
Battening Down the Hatches	256
Physical security	256
Data loss	257
Data recovery	257
Malicious programs	258
Insecure passwords	258
Staying Secure on the Internet	259
Using Internet zones	259
Harnessing SSL	261
Closing down security problems	262

Adding Firewalls.....	263
The Windows firewall.....	263
ZoneAlarm.....	266
Hardware firewalls.....	267
Checking Your Security with Service Pack 2	267
Chapter 19: Cleaning House in a Networked Environment	269
Getting Rid of Old User Accounts	270
Deleting network user accounts.....	270
Deleting local system user accounts	270
Moving Frequently Accessed Data.....	272
Removing Shared Printers	273
Limiting shared printer hours	273
Turning off shared printing.....	274
Removing Shared Folders	276
Cutting Your System off the Network	277
Chapter 20: Jumping Into the Registry	279
Groking the Registry Behemoth.....	280
Seeing the trees in the Registry forest.....	281
Buzzing through the Registry hives	281
Unlocking Registry keys	282
Appreciating Registry values.....	283
Editing the Registry	283
Backing up the Registry.....	285
Finding information.....	286
Editing values.....	288
Adding keys or values.....	289
Deleting Registry items.....	290
Using Registry Cleaning Software	290
Registry analyzers.....	291
Registry cleaners.....	291
Registry compactors.....	292
Restoring the Registry.....	292
Chapter 21: Wiping the Slate Clean	295
Doing a Windows XP Reinstall.....	295
Fixing from a fresh boot.....	296
Starting from within Windows	297
Using an OEM System Restore Disc.....	300
Wiping Out Your System	302
Preparing for the wipeout	302
Doing the deed.....	303
Picking up the pieces	304

Part VI: The Part of Tens	307
Chapter 22: Ten Troubleshooting Ideas	309
Check Your Startup Files	309
Install Windows Updates	309
Run a Spyware Removal Program	310
Remove Unused Programs	310
See What Processes Are Running	310
Run the Disk Cleanup Utility	311
Defragment Your Disk Drives	311
Check File Sizes	311
Check the Size of Your Registry	311
Start Your System in Safe Mode	312
Chapter 23: Ten Software Cleaning Tools	313
Chapter 24: Ten Online Resources	315
Chapter 25: Ten Cool Things in XP Service Pack 2	317
Windows Firewall	317
Memory Protection	318
Network Administration	318
Windows Media Player	318
Automatic Updates	318
Outlook Express	319
Add or Remove Programs Filter	319
Security Center	319
Pop-Up Blocker	319
Internet Explorer Improvements	320
Index	321
