Online Resources

The Web Gallery of Art (www.wga.hu) includes the work for most famous artists from about 1100 to 1850. The site offers high-resolution images, and you have the option of blowing them up to 200 percent, which enables you to see detail quite well.

You can find images of many artists from Giotto onwards at Olga’s Gallery (www.abcgallery.com). One of the things I like about this site is that it features lots of works by each artist and presents the works chronologically. However, not every artist discussed in this book is included in the gallery.

A site that has every artist you can think of (though not all their work) is Artcyclopedia (www.artcyclopedia.com). At this site, you can search by artist or artwork.
