Contents

Foreword Jay Holcomb xiii

Preface xvii

1 Overview of wildlife rescue 1

2 Characterizing wildlife search and rescue 3

3 Laws and regulations governing wildlife rescue in the USA 7

4 Code of practice 10

5 The components of wildlife search and rescue 11

   Human safety 11
   Environmental hazards 11
   Human factor hazards 12
   Equipment hazards 13
   Health risks 13
   Zoonotic diseases 15
   Bacterial infections 15
   Fungal infections 18
   Viruses 19
   Parasites 19

   Personal protective equipment 22
   Protection from hazardous materials 24
   Basic safety and preparedness guidelines 26
   Operational risk management 27
   Outfitting 32

   The welfare of the animal 34
   Understanding stress 35
   Minimizing stress during rescue operations 38

Potential for success 40

   The mindset of the hunter and the hunted 42
   The importance of natural history 42
   The fundamentals of the search 43
   The fundamentals of the capture 45

### Special circumstances and particular methods

- **Hummingbirds**
- **Loons (Gaviiformes)**
- **Grebes (Podicipediformes)**
- **Rails and coots (Rallidae)**
- **Brown pelican (Pelecanus occidentalis)**
- **Cormorants (Phalacrocoracidae)**
- **Waders**
- **Alcids**
- **Birds trapped in structures**
- **Hummingbirds in skylights**
- **Window strikes**
- **Ducklings in a pool**
- **Birds entangled in fishing tackle**
- **Rodenticide poisoning**
- **Shot through with a projectile**
- **Glue traps**
- **Avian botulism**
- **Lead poisoning**
- **Domoic acid poisoning (DAP)**
- "**Sea slime**"
- **Oil and petroleum products**

### Handling and restraint of wild birds

- Processing from nets and housing
- Short-term and temporary housing for wild birds

### Capture, handling, and confinement of land mammals

- Techniques for capturing wild mammals
  - Chemical immobilization
- Special circumstances and particular methods
  - **Small rodents**
  - **Large rodents, porcupines, beaver**
  - **Lagomorphs, rabbits and hares**
  - **Xenarthrans, anteaters, armadillos**
  - **Skunks**
  - **Canids**
  - **Deer**
- Physical restraint of land mammals
  - **Bats**
Contents

Small rodents 135
Talpids, moles and relatives 136
Squirrels 137
Opossums 137
Porcupines 137
Lagomorphs, rabbits and hares 138
Small and medium-sized carnivores 138
Mustelids, badger, otter, weasels 139
Skunks 139
Coyotes and foxes 139
Felids 140
Processing mammals from nets and cages 140
Temporary confinement of land mammals 142

10 Capture and handling of reptiles and amphibians 145

11 Marine mammal rescue 146
Rescuing seals and sea lions 146
Young seals and sea lions 147
Hoop nets 149
Modified open-ended hoop net 149
Wraps, slings, and stretchers 151
The towel wrap 151
Flat webbing cargo net 152
The floating net 153
Physical restraint of seals and sea lions 153
Confinement and transport of pinnipeds 153
Cetaceans 156

12 Basic wildlife first aid and stabilization 158
Performing a cursory physical examination 159
Bleeding 161
Dehydration 161
Fluid therapy 162
Oral fluid administration (mammals) 164
Oral fluid administration (birds) 165
Subcutaneous injections 168
Treating hypothermia 170
Treating Hyperthermia 171
Basic wound care 172
Stabilizing fractures 173
  Robert Jones bandage 174
  Figure-eight wrap 174
  Bird body wrap 176
  The ball bandage 176

13 Transporting wildlife 177

14 Field euthanasia 179

15 Life, liberty, and euthanasia 182

16 Rescuing baby birds and land mammals 184

17 Reuniting, re-nesting, and wild-fostering 185
  Returning altricial chicks to the wild 187
  Returning precocial chicks to the wild 193
  Returning baby mammals to the wild 195
  Nutritional support 198

18 Offering public service 200
  Public relations and the art of shapeshifting 202
  Contracting with municipalities 203

Appendix 1 Ready packs 204
Appendix 2 Wildlife observation form 206
Appendix 3 Wildlife trauma equipment and supplies 207
Appendix 4 Instructions for tying nooses 209
Appendix 5 Barn owl box plans and instructions 211
Appendix 6 Sample contract 213
