Index

Page numbers in italic refer to figures.
Page numbers in bold refer to tables.
Page numbers followed by “p” refer to plates.

abdomen
  bite wounds, 181
  projectile injuries, 216, 219, 220, 221, 225
abrasions, 35
abscesses, 21, 59, 156, 157–158, 159, 160
hygromas, 234–236
seromas vs, 166
absorptive dressings, 99–102
acceleration (term), 73
accessory carpal pad, 632–634
  avoiding necrosis, 126p–127p, 229–230
access windows, 112, 115
Accuzyne Ointment, 71
Acell Vet (dressing), 110
acemannan, 74–75
Achilles tendon, 270
acid burns, 196–197, 199
acidosis, 189
acid phosphatase, honey, 77
acrylic plates, oral mucosa closure, 600, 610p
actin, myofibroblasts, 27
actinic radiation injury, 202
actinomycosis, 160
Actisorb silver dressing, 109
active drains, 57–60
Adaptic (low adherent dressing), 99, 467, 469
adherent dressings, 97–98
adhesives, see also cyanoacrylate formulations
  tape, 113
  adipose tissue, subcutaneous, 8
  adnexa, 5–8
  re-epithelialization, 43
  adriamycin, extravasation, 149
  advancement flaps, 353–356, see also advancement under labia
  bipedicle, 356, 372p–373p
  palatoplasty, 608p–611p
  extremities, 267, 269
to eyelids, cutaneous surfaces, 356, 660p–661p
  lower lip, 524p–525p
  mucosal, 606p
to nasal septum, 692p–693p
  palatal defects, 603, 605, 608p–611p
  from scrotum, 823
  single-pedicle, 353–356, 370p–371p
  tension and, 352
  tissue expanders and, 350p
  upper lip, 499, 502, 505, 522p–523p, 603, 605
to vulva, 833
  advancement of skin, 306p–307p
  pinna, 780
  caudal base, 798p–799p
  minor defects, 802p–803p
  rostral base, 796p–797p
  for pressure ulcers, 231–232
undermining with, 275–277
  V-Y plasty, 292p–293p
  aerosols, 70
  aggressive debridement see excision
  air, in vacuum drains, 58
  air-powered projectiles, 209–210, 211, 220
  airways, inhalation injuries, 195
  alar cartilages see rolled alar cartilages
  alginate dressings, 100–101
  alkalis, 196, 199
  alkyl mercury salts, injuries from, 199
  Allis forceps, management of Penrose drains, 55, 56
Alloderm, 195
aloe vera, 78
  silver sulfadiazine and, 84
  alpha particles, 202
  aluminum rods
  body braces, 116–119, 138p–139p
  spica bandages, 130p–131p
  amino acids, nutrition, 144
  amoxicillin, 183
  ampicillin, 183
amputation
  forelimb, 56, 632
  penis, 740, 742, 762p, 768p–769p
  pinna see pinna under resections
tail, avoidance, 460p
bone
exposed, 49–50, 51, 167–169
metacarpals, 633, 648p–649p
projectile injuries, 216, 218–219
bone cutters, caudectomy, 842p
borate glass nanofibers, 79
Boston terriers, screw tail, 824, 842p–843p
bows (weapons), 221–222
braces (body braces), 116–119, 120, 138p–139p
braces (liniments), 70
brachycephaly
facial fold surgery, 512, 513, 548p–549p
temporalis muscle, 584p
brain, gunshot wounds, 219
brachycephaly
bridgeminations
flexor carpi ulnaris muscle flap, 590p
interpolation flaps, 388p
labial flap, 658p
lattisimus dorsi myocutaneous flap, 568p, 570p
pinna, 786, 800p
tubed flaps, 416p
broaderheads, arrows, 222, 223–224, 225
Brown Electric dermatome, 467
brown recluse spider bite, 149–150, 240
bruises, 35, 46
buccal rotation technique, 503, 526p–527p
bulldogs, screw tail, 824, 842p–843p
burn formulas, fluid therapy, 188
burns, 183–195, see also radiation injuries
assessment, 190–191
from chemicals, 196–197, 198, 199
classification, 183–185
electrical, 198, 200
frostbite, 204–205, 206
initial management, 191
from munitions, 227
pathophysiology, 186–187
skin stretching, 330, 331
Burow’s triangles, 370p–371p
bursal portion, greater omentum, 822
butterfly catheters, seroma drainage, 166
cables, skin stretching, 274, 324, 328, 330, 340p–341p
cadexomer iodine, 109
cage confinement, graft patients, 473
calcaneus, skin loss, 357
caliber
air-powered projectiles, 210
bullets, 207
shotguns, 210, 212
candling, pinna, 777
canine teeth, 174
osteomyelitis, 606p
cannelures, bullets, 208–209
cantilever suture technique, nasal
elevation, 687, 689–690, 714p–717p
capillary loops
skin, 10
wound healing, 22
carbon monoxide poisoning, 195–196
carboxyhemoglobin, 195–196
carboxymethylcellulose, 111
carcinoma, see also squamous cell carcinoma
nasal septum, 679
phimosis, 735
pinna, 790
Cardinal Hemaduct Drains, 58–60, 63, 235, 793, 818p–819p
carpal tunnel syndrome, 207
caudal superficial epigastric vessels, 590p
caudal sartorius muscle, 565, 566
caudal interosseous arteries, 590p
caudal deep temporal artery, 584p
caudal auricular axial pattern flaps, 369, 425, 456p–457p, 782
caudal deep temporal artery, 584p
caudal interosseous arteries, 590p
caudal sartorius muscle, 565, 566
circulatory pattern, 556
caudal sartorius muscle flap, 580p–581p
caudal superficial epigastric axial pattern flaps, 424, 430p–431p, 442p–443p
to flank, 419
to perineum, 420
preputial reconstruction, 749
to rear limb, 421
caudal superficial epigastric vessels, 12
caudectomy, 824, 842p–843p
cautic agents, burns, 196–197, 198, 199
cavitation, bullet wounds, 214–215, 216
cefazolin, 845
ceftriaxone, 465
cellulitis
bacterial, 155, 156
complicating aural hematoma drainage, 818p
cellulose dressings, 111
central pedicles, tubed flaps, 414p
central planum (nose), 672
central zone resolution, pinna, 783–784, 789, 812p–813p
centrifuge, Magellan PRP™
Autospin, 85
cephalosporins, 183
cervical collars, 121
cervical pharyngeal abscesses, 157, 159
carotenemia, 503
cervical–pharyngeal abscesses, 157, 159
chain mastectomy, positioning of patient, 286p–287p
dalone, 25
change frequency, dressings, 112
cheeks, 495
facial axial pattern flap for, 536–539p
inverse tubed flap for, 532p–533p
rotation technique, 503, 526p–527p
cheliosis (left lip), 498–508, 511, 540p–541p
chemical burns, 196–197, 198, 199
chemomata, 20–21
chemotherapy, on wound healing, 146
chest see thorax
chewing, prevention, 112–113, 114, 120
chilled fluid, to burns, 191
Chinese finger-trap knot, 57, 64
chitosan, 75–77, 110
Chito-Seed Topical Hemostasis Pads, 110
chlorhexidine, 45, 81, 83
in dressing products, 109
ointment, 84
chlorophyllin copper complex, 71
choke, shotguns, 210
choke anastomoses, 555–557
chronic granulation tissue, 22, 23, 29, 147, 154
chronic pododermatitis, 634
chronic wounds, 29–30, 50–52, 146–147
exudates, 54
relaxing/releasing incisions for, 300p
circular wounds, 27
circulation, see also arteries
cutaneous, 8–10
delay phenomenon, 400
Donations from omentum, 822, 838p–839p
face, 495, 672
flaps, 352, 353
tubed, 416p
muscle flaps, 555–557
nose, 672
oral mucosa, 664p
pinna, 777–779
prepuce, 732
scrotum, 823, 840p
skin expanders on, 335
tubed flaps, 416p
circumoral glands, 7
classifications
burns, 183–185
grafts, 259p, 465
muscle flaps, 555–557
pressure ulcers, 232
shotgun wounds, 213
wounds, 35–37
clavulanate potassium, 183
clean-contaminated wounds, 35, 36, 37
cleansing agents, 70
clean wounds, 35, 36
cleft lip, 498–508, 511, 540p–541p
cleft palate, 601–602
mucoperiosteal flaps, 612p–613p
mucosal flaps, 616p–617p
palatoplasty, bipedicle advancement technique, 608p–611p
clipping, 7, 45
bite wounds, 177
for punch grafts, 476p
using K-Y jelly, 45
closure see wound closure
coccygeal muscles, perineal hernia clotting of blood, 20
compression bandages, aural compression, tubed flaps, 400
compression bandages, aural hematomas, 787
compression injuries, 35
concealment, scars, 724p–725p
collagen, 2, 4
chronic granulation tissue, 147
collagenous tissue dysplasia, 14 cutting fibers, 271–272
dressings including, 109–110
enzymatic debridement agents on, 70
mechanical creep, 324
stress relaxation, 324
tissue expansion, 335
topical wound care products, 75, 76
wound healing, 23–24, 27
remodeling, 29
collagenases
suture cut-out, 170
topical wound care products, 71
wound healing, 20, 22, 24, 25
remodeling, 29
collagenous tissue dysplasia, 10–14
Collamend, 75
collars (cervical), 121
Elizabethan, 62, 119–121
Collasate, 75
collodion, 70
coloids, 73
colon, contaminated wounds, 37
colony-stimulating factor (CSF), 19
colostomy paste, negative pressure wound therapy, 62, 67, 92p–93p
common nasal meatus, 672
community jars, ointments, 84
complement, 21
complications, wound healing, 143–172
compound bow, 221–222
compound hair follicles, 5, 6
compound labial flap variation, lip-to-lid procedure, 682, 685, 708p–709p
compression, tubed flaps, 400
compression bandages, aural hematomas, 787
compression injuries, 35
concealment, scars, 724p–725p
conflation, graft patients, 473
congenital disorders, see also cleft palate skin, 10–14
vulval defects, 828, 834
conical papillae, epidermis, 626
conjunctiva, 657–658
connective tissue growth factor (CTGF), 19
conservative debridement, burns, 192
Constant Clens, 83
costs
contracture, wound contracture repair, 594p–595p
correia, wound healing, 19
contracture see retraction; wound contraction
corneal epithelial defect, 603–604
contracture, see also wound contracture
coronary artery bypass grafting, 278
cranial superficial epigastric vessels, 566
cranial sartorius muscle, 565, 566
cranial sartorius muscle flap, 582p–583p
cranial superficial epigastric axial pattern flaps, 424, 426, 444p–445p
cranial superficial epigastric vessels, 12
cranial tibial muscle flap, 592p–593p
creations, 70
creep, 324, 325
cremasteric artery, 823
cremaster muscle, 823
crenking, aural hemATOMA drainage, 793
critical-care patients, bite wounds, 176–177
crossbows, 221, 222
cultures (bacterial), 158
bite wounds, 183
drainaging tracts, 160
quantitative, 154
Curasalt, 102
cutaneous asthenia, 10–14
cutaneous plexus, 9–10
cutaneous trunci muscle, 8, 557
as temporary recipient site, 635–637
cutaneous trunci myocutaneous flap, 570p–571p
latissimus dorsi myocutaneous flap vs, 568p
cuterebra spp., 80
cut-out, sutures, 169, 170
cutting needles, 170
reverse, 170, 312p
cyanocrylate formulations, 110, 273, 278, 722
aural hematomas and, 788
skin stretchers, 326–328, 340p–341p
cysteine, 144
cystostomy, 737
cysts, paws, 630
cytokines
acemannan on, 74–75
wound healing, 18–20
cytotoxic agents, on wound healing, 146
dartos, 822
debridement, 21, 37, 44, 89, 97–98
autolytic, products promoting, 71–73
biofilms, 157
bite wounds, 177
burns, 28, 192–193
enzymatic agents, 70–71
infected wound, 39
low-frequency ultrasound, 89
by maggots, 79
pinna, 779
selective, 45–47, 70, 72
debri, wounds, 47
Debrisan, 79
decubitus ulcers, 229
depth circumflex artery, 557
depth circumflex iliac axial pattern flaps, 424, 430p–431p
dorsal branch, 446p–447p
island arterial flap variation, 427
position of skin, 432p–433p
ventral branch, 428, 448p–449p
depth circumflex iliac vessels, 11
deep pectoral muscle flap, 566
landmark for thoracic axial pattern flaps, 438p–439p
depth temporal arteries, 584p
defatting, grafts, 484p–485p
deforation, bullets, 208
degloving injury, 66, 398, 472
dehiscence, 24, 169–171
hygroma resection, 239
labial wound, 501
in patients on corticosteroids, 145–146
perineal wounds, 844p
suture patterns reducing risk, 273
tumor resection, 357
delayed flaps, 400, 414p–416p
axial pattern flaps, 427–429
delayed primary closure, 40, 41, 43
delay phenomenon, 400
denervation, delay phenomenon, 400
dermal release incisions, 302p–303p
dermal sinuses, 164–165
dermatitis
radiation, 202
skin folds see intertrigo vulva, 825
dermatomes, 467, 471, 486p–487p
dermatosparaxis, 10–14
dermis, 2–4, see also neodermis
tissue expansion, 335
dermonecrotic arachnidism, 240
desiccation, penis, 734, 736, 738
, 736
dermopores, 79
desoxyribonuclease, 71
dehumidification, penis, 750
, 751
, 751
diversion of stream, urination, 749, 750
, 751, 770p–771p
DL-methionine, 144
dog ears, 722
correction, 728p–729p
prevention, 370p–371p
dolichocephaly, temporalis muscle, 584p
donor sites
grafts, 43, 256–257
local flaps, 352
pinna, 774, 775
skin tension, 354
donor skin
development with tissue expanders, 350p
neck to pinna, 798p–799p
dorsal nasal splitting, 698p–699p
dorsal rhinotomy, 686
doughnut rings, for pressure ulcers, 234
doxorubicin, 149

drainage, 48–49, 54–66, 89, see also
vacuum drains
aural hematomas, 787–788, 792–793,
, 794, 814p–815p, 818p–819p
bite wounds, 178–179
fusion podoplasty, 654p–655p
hygromas, 236–238, 252p–253p
pleura, 181
pressure ulcers, 235
seromas, 166–167
thoracostomy, 438p–439p

drains, 108
negative pressure wound therapy, 62,
65, 92p–93p
draw weight, bows, 221
dressings, 96–115, see also bandages;
topical wound care products;
-wet-to-wet dressings
changing, 473
frequency, 112
debridement, 21
grafts, 465, 469
ideal, 96
initial, 45
low adherent, 98–99, 467, 469, 472
with maggots, 80
pinna, 816p–817p
pressure points, 112, 124p–125p,
126p–127p
for pressure ulcers, 234
primary layer, 96–111
secondary layer, 111–112
tertiary layer, 112–113
tie-over, 114–115, 119, 159
trauma from, 150
wet-to-dry, 45, 97–98, 99, 159, 332
drooling
cheiloplasty for, 512, 550p–551p
oral commissure advancement for, 508
drum-skin effect, grafts, 464
dry-to-dry dressings, 98, 99
duct tape, Elizabethan collars, 120
Duoderm CGF, 106
dyes, for draining tracts, 160
ear, see also pinna
bite wounds, 179
lateral ear canal, graft from,
620p–621p
echelon sutures see retention sutures
echinocytosis, 240
edema, 42, 43, 50, 257
bandaging and, 124p–125p
burns, 187, 188
inhalation injuries, 195
penis, paraphimosis, 742
transposition flaps to pinna, 806p
Ehlers-Danlos Syndrome, 10, 11, 13
elapids, 239
Elase, 71
elastic cables, skin stretching, 274, 324,
328, 330, 340p–341p
elastic fibers, skin, 2
elasticity of skin, 4, 324
transposition flaps, 376p
Elasticon (wrap), 113, 114, 236
for grafts, 469, 473, 474, 475
platforms and saddles, 128p–129p
elastic wraps, 113
as tourniquets, 166
elbow, see also antecubital wounds
hygromas, 237, 238, 252p–253p
lateral thoracic axial pattern flaps,
438p–439p
latissimus dorsi muscle replacing
triceps, 576p
pipe insulation (PIPE), 62,
248p–249p
pressure ulcers, 234, 235
electrical injuries, 197–201
electrical stimulation, 87–89
electrocardiography, potassium
monitoring, 189
electrocautery units, burns, 185
electroporation, 200
elevations of skin, 722
Elizabethan collars, 62, 119–121
eelliptical excision, 284p–285p
dog ears, 728p–729p
eavailability
paraphimosis, 742, 756p–757p
wound management, 34
endarteritis, oblitative, 203
endothelium, wound healing, 20, 22, 23
English bulldog, screw tail, 824,
842p–843p
enhancement (term), 73
entry wounds, projectiles, 215,
220, 227
enzymatic debridement agents, 70–71
enzymes, see also specific enzymes
enzymes, see also specific enzymes
holome, 77
from leeches, 81
Epicel, 195
epidermal growth factor (EGF), 19
