Section 1 The principles of palliative care 1

Chapter 1 The development of palliative care 3
Introduction 3
What is palliative care? 4
Where is palliative care provided? 8
Widening access 9
Influential documents and strategies 11
Conclusion 14

Chapter 2 Holistic care in palliative care 16
Introduction 16
Total pain 17
Holism 17
Holistic care 18
Spirituality 21
Quality of life 26
Conclusion 27

Chapter 3 Team working 31
Introduction 31
What is a team? 32
Why is interprofessional team work important in palliative care? 33
What makes a team work well? 41
What stops a team from working well? 44
Conclusion 46
Contents

Chapter 4  Legal principles in palliative care  48
Introduction  48
Identification of legal issues surrounding the provision of palliative care  49
Consent  50
Best interests  55
Withholding and withdrawing treatment  56
Do not resuscitate orders (DNR)  57
Euthanasia and assisted suicide  57
Verification of death  60
Conclusion  61

Chapter 5  Ethical principles in palliative care  63
Introduction  63
The meaning of ethics  64
Ethical theories  70
Euthanasia  75
Conclusion  76

Section II  The practice of palliative care  79
Chapter 6  Communication in palliative care  81
Introduction  81
The importance of communication in palliative care  83
Communication theory  84
The importance of self-awareness in good communication  86
Key communication skills  87
Enablers of and barriers to good communication  91
Influencing factors  92
Communicating with groups who have particular needs  94
Conclusion  95

Chapter 7  Pain management and nursing care  98
Introduction  98
Pain  99
Pain assessment  101
Principles of pain management  106
Non-pharmacological approaches to pain relief  110
Conclusion  111

Chapter 8  Management and nursing care of gastro-intestinal symptoms  116
Introduction  116
Nausea and vomiting  117
Assessment  118
Management of nausea and vomiting  120
Nursing care  122
Malignant bowel obstruction 123
Constipation 124
Cachexia 126
Other gastrointestinal symptoms 127
Conclusion 128

Chapter 13  Nursing care at end of life  195
  Introduction  195
  Recognising that a patient is dying  196
  End of life care  196
  Physical nursing care for the dying patient  198
  Bronchial secretions (‘death rattle’)  201
  Terminal restlessness  201
  The syringe driver  203
  Being with a dying patient  204
  Nurse’s role after death  205
  Conclusion  207

Chapter 14  Loss grief and bereavement  212
  Introduction  212
  Coping With Loss  213
  Common emotional responses to loss  215
  Bereavement theories  216
  Helping the bereaved  219
  Conclusion  223

Section III  Personal and professional development in palliative care  229

Chapter 15  Looking after yourself  231
  Introduction  231
  What is stress and why do we need to know about it?  232
  Some of the reasons nursing is stressful  236
  Effects of stress  237
  Coping strategies  237
  Managing your stress  241
  Conclusion  244

Chapter 16  Professional support  247
  Introduction  247
  Key people  248
  Clinical supervision  250
  Conclusion  258

Chapter 17  Learning from your practice through reflection  261
  Introduction  261
  Types of reflection  263
  Why use reflective practice?  265
  Starting your reflective practice  266
  Conclusion  272
