1 Acute Coronary Syndrome in Perspective 1
Melanie Humphreys

Introduction 1
The challenge of saving lives 1
The scope of this book 3

2 Reducing the Risk: Primary Care Initiatives 6
Melanie Humphreys and Brenda Cottam

Introduction 6
Primary care initiatives in perspective 7
Identification of those “at risk” 8
Rapid access chest pain clinics 10
Sudden cardiac death 12
Early recognition and access to emergency services 12
Early CPR 13
Early defibrillation 14
First responders 15
Summary 16

3 Assessment of the Cardiovascular System 19
Jackie Younker

Introduction 19
Cardiovascular assessment in perspective 20
Chest pain assessment 28
Electrocardiography 31
Laboratory tests 31
Diagnostic procedures 32
Summary 33
# Contents

4 **Diagnosing Acute Coronary Syndrome** 36  
*John McGowan*

- Introduction 36  
- Acute coronary syndromes in perspective 37  
- Interpreting the 12-lead ECG 40  
- Biochemical markers 43  
- Risk stratification 46  
- Imaging techniques 48  
- Summary 49

5 **Unstable Angina** 52  
*John McGowan*

- Introduction 52  
- Unstable angina in perspective 53  
- Treatment strategies 56  
- Summary 60

6 **Non-ST Segment Elevation Myocardial Infarction** 62  
*Melanie Humphreys*

- Introduction 62  
- Non-ST segment elevation myocardial infarction in perspective 63  
- Causes 63  
- Diagnosis 66  
- Treatment of NSTEMI 68  
- Summary 70

7 **ST Segment Elevation Myocardial Infarction** 73  
*Claire Rushton*

- Introduction 73  
- ST segment elevation myocardial infarction in perspective 74  
- Care priorities 78  
- Treatment priorities 79  
- Complications of STEMI 81  
- Territories of STEMI: special considerations 82  
- Special patient groups 91  
- Continuing care 93  
- Rehabilitation and secondary prevention 93  
- Summary 93

8 **Therapeutic Intervention in Acute Coronary Syndromes** 97  
*Jan Keenan*

- Introduction 97  
- Pathophysiology of ACS 98  
- Early identification of ACS 98
Contents

13 Cardiac Rehabilitation 198
Tim Grove

Introduction 198
Cardiac rehabilitation in perspective 199
Provision of cardiac rehabilitation 199
Summary 203

14 Secondary Prevention Within the Community 205
Tim Grove

Introduction 205
Ongoing risk factor modification 206
Psychological wellbeing 211
Psychosocial wellbeing 218
Cardioprotective medication 219
Summary 221

15 Ethical Issues in Cardiac Care 226
Pauline Walsh and Fiona Foxall

Introduction 226
Ethical theory and principles in perspective 226
Ethical decision-making frameworks 228
Informed consent 230
DNAR 231
The ethics of withdrawal of active treatment 232
Patients’ rights and responsibilities 233
Summary 235

Appendix A: Patient Transfer to Theatre/Specialist Centre 237
Sarah Dickie

Introduction 237
Transfer in perspective 237
Preparation of the patient for intrahospital or interhospital transfer 238
Summary 243

Appendix B: Cardiac Rehabilitation Circuit Class 245
Tim Grove

Class management 245
Staffing ratios 245
Other considerations 246
Appendix C: Cardiac Pacemakers
Ian Jones and Anne Dormer

Indications and usage 248
Pacemaker function 248
NASPE/BPEG code 249

Index 251
