trace elements
analytical methods 294–296
dolomite and dolostone 380–381
geochemistry 298–301
meteoric diagenesis 337
transition zone see mixing zone
trevetone deposits 113, 118–121
trepostomes 89
Triassic carbonate rocks 5
Tridacna spp. 194
trilobites 78
triple junctions 280
TST see transgressive systems tract
Tubiphytes spp. 204–205
ufoteaean 62
Udotea spp. 62, 64
underfilled lake basins 108
upper slope biostrates 219, 220–222
upwelling 45
vadose zone 283, 330, 333–335, 349, 352
valerite 17
Victoria, Australia 61
volcanic pedestals 13
vuggy porosity 419, 422–423
wackestone 49, 361
Waikite Springs, New Zealand 119
warm springs 112–113
warm-temperate carbonates 136–137, 141–144
warm-water neritic realm 123–134
aeolidiater 128–129, 131
beach facies 128, 130
bionrom 124
biota 124
carbonate dissolution 125
carbonate factory 124–125
carbonate precipitation 124
carbonate sequence
stratigraphy 252–257
controls on sedimentation 124
depositional systems 97, 123–134
lagoonal facies 126–127, 129
muddy peritidal facies 128
open unrimmed platforms 125, 130–132, 255–257
Precambrian carbonates 235–236
ramps 125, 132–134
rim facies 126–127
rimmed platforms and banks 11–12, 125–130, 235–236, 252–255
slope facies 130
synsedimentary marine diagenetic environment 312, 313, 315
water circulation 43–46
water column precipitation 25–26
water-controlled diagenesis 341–356
burial diagenesis 264
calcft facies 342, 346–349, 411
concepts and definitions 284
confined and unconfined water flow 348
geochemistry 355
meteoric diagenesis 327, 342
phreatic zone 352–355
subsurface karst facies 341, 348–355
surface karst facies 342–346, 355
surficial processes and products 342, 343–346
vadose zone 349, 352
water table 349–352
water temperature
geochemistry 302
marine carbonate factory 42–43, 47
modern reefs 183
Waulsortian reefs 204
western boundary currents 44
white card technique 290
whitings 29
whole-core analysis 415, 416
widespread sand sheets 174–175
Wilson Cycle 262, 266–268
winds
carbonate factory 30, 31–36
marine carbonate factory 43–46
slopes 222
see also cyclonic storms
worm tubes 76–77
Wright’s holistic classification 207–210
X-ray diffraction (XRD) 287, 291–293
Yorke Peninsula, Australia 61
Yucatan Peninsula, Mexico 354
zoned dolomite crystals 372
zone of active dissolution 21
zone of dissolution and precipitation 21
zone of no carbonate 21
zone of precipitation 21
Zooxyls spp. 232
zooplankton 46–47, 71
