Volume 1  Language Processing in the Brain: Basic Science

Contributors                                      xii
Preface                                           xxvi
Acknowledgments (personal)                       xxxiv

Part I  Language and Hemispheres: From Single-Word Recognition to Discourse

1 Individual Differences in Brain Organization for Language  3
   Christine Chiarello, Suzanne E. Welcome, and Christiana M. Leonard
2 The Perceptual Representation of Speech in the Cerebral Hemispheres  20
   Henri Cohen
3 Mechanisms of Hemispheric Specialization: Insights from Transcranial Magnetic Stimulation (TMS) Studies  41
   Michal Lavidor
4 Understanding Written Words: Phonological, Lexical, and Contextual Effects in the Cerebral Hemispheres  59
   Orna Peleg and Zohar Eviatar
5 The Organization of Discourse in the Brain: Results from the Item-Priming-in-Recognition Paradigm  77
   Debra L. Long, Clinton L. Johns, Eunike Jonathan, and Kathleen Baynes

Part II  Computational Modeling of Language

6 Connectionist Modeling of Neuropsychological Deficits in Semantics, Language, and Reading  103
   Christine E. Watson, Blair C. Armstrong, and David C. Plaut
Contents

7 Neural Network Models of Speech Production
Matthew Goldrick 125

8 Word Learning as the Confluence of Memory Mechanisms:
Computational and Neural Evidence
Prahlad Gupta 146

Part III Neural Correlates of Language Production and Comprehension 165

9 Neural Correlates of Semantic Processing in Reading Aloud
William W. Graves, Jeffrey R. Binder, Mark S. Seidenberg,
and Rutvik H. Desai 167

10 In a Word: ERPs Reveal Important Lexical Variables for Visual Word
Processing
Chia-lin Lee and Kara D. Federmeier 184

11 Hemodynamic Studies of Syntactic Processing
Peter Indefrey 209

12 The Neurobiology of Structure-Dependency in Natural
Language Grammar
Marco Tettamanti and Daniela Perani 229

13 How Does the Brain Establish Novel Meanings in Language?
Abstract Symbol Theories Versus Embodied Theories of Meaning
Dorothee Chwilla 252

14 Motor and Nonmotor Language Representations in the Brain
Nira Mashal, Michael Andric, and Steven Small 276

15 What Role Does the Cerebellum Play in Language Processing?
Kristina A. Kellett, Jennifer L. Stevenson, and Morton Ann Gernsbacher 294

Part IV Coping with Higher-Level Processing: The Brain Behind
Figurative and Creative Language 317

16 Bilateral Processing and Affect in Creative
Language Comprehension
Heather J. Mirous and Mark Beeman 319

17 Two-Track Mind: Formulaic and Novel Language Support
a Dual-Process Model
Diana Van Lancker Sidtis 342

18 Neuropsychological and Neurophysiological Correlates of Idiom
Understanding: How Many Hemispheres are Involved?
Cristina Cacciari and Costanza Papagno 368

</tbody>
</table>
Part II  Neuropsychology of Language: Language Loss 635
31 The Acquisition, Retention, and Loss of Vocabulary in Aphasia, Dementia, and Other Neuropsychological Conditions 637
Andrew W. Ellis
32 Computational Neuropsychology of Language: Language Processing and its Breakdown in Aphasia 661
Stephen R. Welbourne
33 Transcranial Magnetic Stimulation and Aphasia Research 679
Margaret A. Naeser, Paula I. Martin, Michael Ho, Ethan Treglia, Elina Kaplan, Errol H. Baker, and Alvaro Pascual-Leone
34 Longitudinal Study of Recovery from Aphasia: The Case of Lexical Retrieval 700
Patricia Marinaro Fitzpatrick, Loraine K. Obler, Avron Spiro III, and Lisa Tabor Connor
35 Multiple Languages in the Adult Brain 720
Mira Goral
36 Clinical Neurolinguistics of Bilingualism 738
Andrea Marini, Cosimo Urgesi, and Franco Fabbro
37 Sentence Comprehension in Healthy and Brain-Damaged Populations 760
Sonja A. Kotz, Kathrin Rothermich, and Maren Schmidt-Kassow
38 The Neural Basis for Aging Effects on Language 778
Deborah M. Burke and Elizabeth R. Graham

Part III  Neuropsychology of Language: Developmental Language Disorders 801
39 Neuropsychological and Neuroimaging Aspects of Developmental Language Disorders 803
Margaret Semrud-Clikeman and Jesse Bledsoe
40 Specific Language Impairment: Processing Deficits in Linguistic, Cognitive, and Sensory Domains 826
Laurence B. Leonard and Christine Weber-Fox
41 The Neurobiology of Specific Language Impairment 847
Richard G. Schwartz and Valerie L. Shafer
42 Dyslexia: The Brain Bases of Reading Impairments 868
Ioulia Kovelman, Joanna A. Christodoulou, and John D. E. Gabrieli
43 Acquired and Developmental Disorders of Reading and Spelling 892
Max Coltheart and Saskia Kohnen
Contents

44 The Role of Anchoring in Auditory and Speech Perception in the General and Dyslexic Populations 921
Karen Banai and Merav Ahissar

45 The Neurobiological Basis of Dyslexia: The Magnocellular Theory 938
John Stein

46 Word Retrieval in Developmental Language Impairments: Application of the Tip-of-the-Tongue Paradigm 963
Katy Borodkin and Miriam Faust

Acknowledgments 983
