Contents

Preface ix

Introduction xi

Inspecting Composite Ceramic Armor Using Advanced Signal Processing Together with Phased Array Ultrasound
J. S. Steckenrider, W. A. Ellingson, E.R. Koehl, and T. J. Meltzler 1

A Comparison of NDE Methods for Inspection of Composite Ceramic Armor
W. A. Ellingson and E.R. Koehl, T. J. Meltzler, L. P. Franks, and J. S. Steckenrider 13

NDT Characterization of Boron Carbide for Ballistic Applications
Dimosthenis Liaptsis, Ian Cooper, Nick Ludford, Alec Gunner, Mike Williams, David Willis, Colin Roberson, Lucian Falticeanu, and Peter Brown 25

Advanced Nondestructive Ultrasound Characterization of Transparent Spinel
A. R. Fortune and R. A. Haber 37

Optimization of a Portable Microwave Interference Scanning System for Nondestructive Testing of Multi-Layered Dielectric Materials
K. F. Schmidt, Jr., J. R. Little, Jr., W. A. Ellingson, L. P. Franks, and W. Green 47

Corrective Techniques for the Ultrasonic Nondestructive Evaluation of Ceramic Materials
S. Bottiglieri and R. A. Haber 57

Quantitative Evaluation of Structural Damage in Lightweight Armor Materials Via XGT
William H. Green, Kyu C. Cho, Jonathan S. Montgomery, and Herbert Miller 69
Static and Dynamic Properties of Mg/Ceramic MMCs
P. K Karandikar

Impact Study of AlN-AlON Composite
Kakoli Das, Monamul Haque Dafadar, Rajesh Kumar Varma, and
Sampad Kumar Biswas

Ballistic Evaluation and Damage Characterization of Metal-Ceramic
Interpenetrating Composites for Light Armor Applications
Hong Chang, Jon Sinner, and Rebecca Higginson

Effect of an Interface on Dynamic Crack Propagation
Hwun Park and Weinong Chen

Dynamic Equation of State and Strength of Boron Carbide
Dennis E. Grady

Multiscale Modeling of Armor Ceramics
Reuben H. Kraft, Iskander Betyrev, Sukbin Lee, A. D. Rollett, and Betsy Rice

Future Transparent Materials Evaluated through Parametric
Analysis
Costas G. Fountzoulas and James M. Sands

Nano-Processing for Larger Fine-Grained Windows of Transparent
Spinel
Andreas Krell, Thomas Hutzler, Jens Klimke, and Annegret Potthoff

Experimental Methods for Characterization and Evaluation of
Transparent Armor Materials
E. Strassburger, M. Hunzinger, J. W. McCauley, and P. Patel

Method for Producing SiC Armor Tiles of Higher Performance at
Lower Cost
Bhanu Chelluri, Edward Knoth, Edward Schumaker, and Lisa P. Franks

Development of Biomorphic SiSiC- and C/SiSiC-Materials for
Lightweight Armor
Bernhard Heldenreich, Matteo Crippa, Heinz Voggenreiter Elmar Straßburger,
Heiner Gedon, and Marco Nordmann

Influence of Impurities on Stacking Fault Dynamics in SiC under
External Loading
Vladislav Dornich and Richard A Haber

Evolution of the AlN Distribution during Sintering of Aluminium
Nitride Doped Silicon Carbide
N. Ur-rehman, P. Brown, and L. J. Vandeperre
Microstructure, Mechanical Properties, and Performance of Magnesium Aluminum Boride (MgAlB₁₄)
  Michael L. Whittaker, Raymond A. Cutler, James Campbell, and Jerry La Salvia

Microstructural Development and Phase Changes in Reaction Bonded Boron Carbide
  P. G. Karandikar, S. Wong, G. Evans, and M. K. Aghajanian
