Foreword  xxxi

Part I  Overview of Marine Ornamental Species Aquaculture  1

1  The Marine Ornamental Species Trade  3
   Matthew R. Palmtag
   1.1 Introduction  3
   1.2 History  4
   1.3 Economics of Trade  5
   1.4 Species of Trade  5
   1.5 Organization of Trade  6
   1.6 Environmental Impact  7
   1.7 Marine Ornamentals Aquaculture  9
   1.8 Conclusions  12
       Acknowledgements  12
       References  12

2  The Need for Cultured Specimens  15
   Ricardo Calado
   2.1 Introduction  15
   2.2 Should All Marine Ornamental Species be Cultured?  16
   2.3 Highly Demanded Marine Ornamental Species Cultured in Captivity  18
   2.4 Conclusions  20
       References  21

3  Life Cycles in Marine Ornamental Species – Fishes as a Case Study  23
   Ike Olivatto, Ming-Yih Leu and Mercedes Blázquez
   3.1 Introduction  23
   3.2 Patterns of Sexuality in Fish  24
   3.2.1 Gonochoristic Fish  24
   3.2.1.1 Differentiated Gonochoristics  24
3.2.1.2 Undifferentiated Gonochoristics 24
3.2.1.3 Secondary Gonochoristics 24
3.2.2 Hermaphrodite Fish 24
3.2.2.1 Synchronous Hermaphrodites 25
3.2.2.2 Sequential Hermaphrodites 25
3.2.3 Unisexual Fish 27
3.3 Sex Determination and Sex Differentiation in Fish 28
3.4 Molecular Markers of Sex Differentiation 29
3.5 Transcriptomic Studies on Fish Sex Differentiation 29
3.6 Demersal Spawners 30
3.7 Pelagic Spawners 34
3.8 Conclusions 38
Acknowledgements 39
References 39

4 Early Culture Trials and an Overview on U.S. Marine Ornamental Species Trade 51
Andrew L. Rhyne, Michael F. Tlusty and Joseph T. Szczebak
4.1 Introduction 51
4.2 Import Data and the Marine Aquarium Trade 52
4.2.1 Reducing the Data Deficiency 54
4.2.2 General Trends in the Trade of Marine Aquarium Species 54
4.3 Aquaculture for the Marine Aquarium Trade: Bottlenecks and Opportunities 58
Brief History 58
4.4 Constraints and Opportunities for the Commercial Production of Marine Aquarium Species 59
4.4.1 Life History Characteristics as Constraints to Commercial Production 59
4.4.2 Economic and Regulatory Constraints to Commercial Production 61
The Banggai Cardinalfish 61
Mandarin Dragonets 62
CITES and ESA as Constraints and Opportunities in Aquaculture Production 63
4.5 Risks and Benefits of Aquaculture Production 63
4.5.1 Ecological Risk and Aquaculture Production as a Source of Nonindigenous and Invasive Marine Species 64
4.5.2 Economic Benefits of Aquaculture in Reef Side Communities 65
4.5.3 Reducing Bottlenecks and Opportunities for Growth 65
Species Selection 65
Live Feed Bottlenecks 65
4.6 Conclusions 66
Acknowledgements 66
References 66

### 13 Mouthbrooders – The Banggai Cardinalfish 201

**Alejandro A. Vagelli**

13.1 Introduction 201
13.2 The Reproductive Biology of *Pterapogon kauderni* 203
   13.2.1 General Characteristics and Ontogenetic Terminology 203
   13.2.2 Courtship Behaviours and Pair Formation 205
   13.2.3 Mating, and Egg-Clutch Transfer 206
   13.2.4 Post-Mating Behaviours 206
13.3 General Ecological Characteristics of *Pterapogon kauderni* 207
   13.3.1 Habitat, Microhabitat and Community Associations 208
13.4 Captive Breeding of *Pterapogon kauderni* 209
   13.4.1 Broodstock 210
      13.4.1.1 Gender Determination 210
      13.4.1.2 Feeding 212
   13.4.2 Reproduction and Incubation 213
      13.4.2.1 Environmental Requirements 213
      13.4.2.2 Tank Choices 213
   13.4.3 Juvenile Rearing 215
13.5 Nutritional Aspects and Diseases 216
   13.5.1 Shock Syndrome 216
   13.5.2 A New Viral Disease 218
13.6 Conclusions 219
   Acknowledgements 219
   References 219

### 14 Other Demersal Spawners and Mouthbrooders 223

**Marcelo Shei, Miguel Mies and Ike Olivotto**

14.1 Introduction 223
14.2 Gobies (Gobiidae) 224
   14.2.1 Reproduction 225
   14.2.2 Spawning 226
   14.2.3 Larval Rearing 227
14.3 Blennies (Blenniidae) 228
   14.3.1 Reproduction 229
   14.3.2 Spawning 230
   14.3.3 Larval Rearing 230
14.4 Dottybacks (Pseudochromidae) 231
   14.4.1 Reproduction and Behaviour 231
   14.4.2 Broodstock and Spawning 232
   14.4.3 Larval Rearing 234
14.5 Damselfishes (Pomacentridae) 236
   14.5.1 Reproduction and Behaviour 236
14.5.2 Broodstock and Spawning 237
14.5.3 Larval Rearing 239
14.6 Other Demersal Spawning Families 240
14.6.1 Grammatidae 240
14.6.2 Plesiopidae 241
14.6.3 Microdesmidae 241
14.7 Other Mouthbrooders 242
14.7.1 Apogonidae 242
14.7.2 Plesiopidae 242
14.7.3 Opistognathidae 243
14.8 Conclusions 243
Acknowledgements 243
References 243

15 Large Angelfish and Other Pelagic Spawners 251
G. Joan Holt, Ming-Yih Leu, Chatham K. Callan and Brad Erisman
15.1 Introduction 251
15.1.1 Sexual Patterns 252
15.1.2 Size Matters 252
15.1.3 Conformity 253
15.1.4 Exceptions 253
15.1.5 What can go Wrong? 254
15.2 Serranidae 254
15.2.1 Reef Basslets (Liopropoma spp.) 254
15.2.1.1 Broodstock and Spawning 254
15.2.1.2 Larval Rearing 255
15.2.1.3 Additional Information 255
15.2.2 Hamlets (Hypoplectrus spp.) 255
15.2.3 Harlequin Bass (Serranus tigrinus) 255
15.2.3.1 Broodstock and Spawning 255
15.2.3.2 Larval Rearing 256
15.2.4 Yellow Anthias (Odontanthias fuscipinnis) 256
15.3 Lutjanidae 257
15.3.1 Bluestripe Snapper (Lutjanus kasmira) 257
15.3.2 Five-Lined Snapper (Lutjanus quinquelineatus) 257
15.3.2.1 Broodstock and Spawning 257
15.3.2.2 Larval Rearing 257
15.3.3 Yellowtail Snapper (Ocyurus chrysurus) 258
15.3.3.1 Broodstock and Spawning 258
15.3.3.2 Larval Rearing 258
15.4 Haemulidae 258
15.4.1 French Grunt (Haemulon flavolineatum) 259
15.4.1.1 Broodstock and Spawning 259
15.4.1.2 Larval Rearing 259
15.4.2 Indian Ocean Oriental Sweetlips (Plectorhinchus vittatus) 259
15.4.2.1 Broodstock and Spawning 259
15.4.2.2 Larval Rearing 259
15.5 Sciaenidae 260
15.5.1 Jackknife Fish (*Equatus lanceolatus*) 260
15.5.1.1 Broodstock and Spawning 260
15.5.1.2 Larval Rearing 260
15.5.1.3 Additional Information 260
15.5.2 High-Hat (*Pareques acuminatus*) 260
15.5.3 Cubbyu (*Pareques umbrosus*) 261
15.5.3.1 Broodstock and Spawning 261
15.5.3.2 Larval Rearing 261
15.6 Chaetodontidae 262
15.6.1 Millet (Milletseed) Butterflyfish (*Chaetodon miliaris*) 262
15.6.1.1 Broodstock and Spawning 262
15.6.1.2 Larval Rearing 262
15.6.2 Schooling Bannerfish (*Heniochus diphreutes*) 262
15.7 Pomacanthidae 263
15.7.1 Bandit Angel (*Apolemichthys arcuatus*) 263
15.7.2 Bluestriped Angelfish (*Chaetodontoplus septentrionalis*) 263
15.7.2.1 Broodstock and Spawning 263
15.7.2.2 Larval Rearing 263
15.7.2.3 Additional Information 264
15.7.3 Semicircle Angelfish (*Pomacanthus semicirculatus*) 264
15.7.3.1 Broodstock and Spawning 264
15.7.3.2 Larval Rearing 264
15.8 Labridae 265
15.8.1 Spotfin (Cuban) Hogfish (*Bodianus pulchellus*) 265
15.8.1.1 Broodstock and Spawning 265
15.8.1.2 Larval Rearing 266
15.8.2 Clown Wrasse (*Halichores maculipinna*) 266
15.8.2.1 Broodstock and Spawning 266
15.8.2.2 Larval Rearing 266
15.8.3 Bluestreak Cleaner Wrasse (*Labroides dimidiatus*) 266
15.8.3.1 Broodstock and Spawning 267
15.8.3.2 Larval Rearing 267
15.8.4 Bluehead Wrasse (*Thalassoma bifasciatum*) 267
15.8.4.1 Broodstock and Spawning 267
15.8.4.2 Larval Rearing 267
15.8.4.3 Additional Information 267
15.9 Callionymidae 268
15.9.1 Lancer Dragonet (*Callionymus bairdi*) 268
15.9.1.1 Larval Rearing 268
15.9.1.2 Additional Information 268
15.9.2 Mandarin Fish (*Synchiropus splendidus*) 268
15.9.2.1 Broodstock and Spawning 268
15.9.2.2 Larval Rearing 268
18.5 PCC Experiences 339
18.6 Conclusions 342
