A
Abbreviated text: audio and, 194, 200; definition of, 193; example of, 194f
Abstract ideas, using examples to show, 11
Acronyms: definition of, 174; example of, 174–175f
Activation phase, 409
Activation principle: definition of, 20, 398; description of, 21, 27–28, 44; implementation of, 172; peer-sharing and, 185, 186; research related to, 397–398; sample lessons demonstrating, 31–34; structural framework in, 188; structuring new knowledge and, 28; theories related to, 411, 413
Advance organizers: definition of, 173; research related to, 398–399; structural frameworks and, 346–347
After-class instructional events, 168
Allen, M. W., 270, 368
Allred, S., 397
Alternative representations: for kind-of instructional strategy, 101; research related to, 401
Analogies: definition of, 173; description of, 175–176; example of, 177–180; identification of structural frameworks and, 341
Analysis, design, development, implementation, and evaluation (ADDIE) model, 250
Andre, T., 27, 397, 398, 399, 400, 401, 402, 404, 405, 409–410
Animations: description of, 192; effective use of, 199; example of, 199f; finalizing, 355; to focus attention, 200–201; in functional prototypes, 276–280; media control of, 206; misuse of, in multimedia, 213; in multimedia coaching and guidance, 200; research related to, 401, 402; in slide masters, 281–282, 289, 290, 293; in what-happens demonstration, 114
Anxiety, 438–439
Appeal, of courses, 362
Appearance, of slides, 362
Application principle: adjustment of mental models and, 25; challenges of, 25; in combination with coaching, 26; in course critique checklists, 220; definition of, 11–12, 20, 24; description of, 21, 44, 312, 337; importance of, 24; versus questions, 11–12; theories related to, 411, 412, 413
Applications: definition of, 88; design of, for conditions and steps, 326–334; elements of, 70, 77–86; in functional prototypes, 277, 279f; for how-to instructional strategy, 106, 107; for kind-of instructional strategy, 96; matching guidance in, 80; for part-of instructional strategy, 93, 94–95; in Pebble-in-the-Pond model, 255, 257, 258–259f; in problem-centered instructional strategies, 152; research related to, 403–405; structural framework in, 173; summary of, 89t; versus traditional instructional objectives, 336; use of instructional event tables to design, 326–334; in what-happens instructional strategy, 112.

Information-only presentation. See Level-0 instructional strategy
Instances, of problems, 254
Instruction: common mistakes involving, 8; components of, 48; definition of, 6; versus information, 8–9, 70; for problem-solving events, 123; purpose of, 17; versus textbooks, 193
Instructional architecture, 21
Instructional design class, interaction in, 187–188
Instructional design theories, 407–416
Instructional Design Theories and Models series, 20
Instructional design tools, 446–447
Instructional development, 252
Instructional episodes, 409–410
Instructional event tables: definition of, 325, 326; demonstration and application design with, 326–334; example of, 326
Instructional events: in checklist example, 180–181, 181–183f; course format and, 202–203; definition of, 48, 53, 87, 88; example of, 165–168; finalizing, 355; learner control of, 210–211; in metaphor example, 176; in multimedia example, 215, 216; navigation among, 204–205; navigation within, 205; in prototype problem applications, 307–308; in prototype problem demonstration, 305, 306t; sequence of, 151f, 152; in traditional instruction, 152; in whole problem analysis, 237–238; for whole problems, 129t
Instructional interactions: definition of, 48, 69; design of, 184, 264–266, 276–280; examples of, 187–188; forms of, 71–77; in functional prototypes, 276–280; goal of, 71; illustration of, 187f; instructor’s role in, 184; in learning cycle, 186; media control and, 207; motivation and, 184; multimedia and, 193, 205–211, 216; promoting mental processing with, 77–78; rationale for, 183–184; summary of, 85t; technical vocabulary for, 71; use of multiple examples in, 82–83. See also specific types; specific types of interactions
Instructional modes: definition of, 69, 71; types of, 71, 88. See also specific modes
Instructional objectives: abstract type of, 396; in Pebble-in-the-Pond design, 253–254; research supporting, 396–397; in traditional instructional design, 253, 336
Instructional phase, 409
Instructional principles: criteria of, 20–21; definition of, xix; requirements of, 7
Instructional professionals, 17
Instructional strategies: versus component skill instruction, 336–337; definition of, xix, 87, 88; for how-to component skill, 106–111; importance of, 88; for information-about component skill, 89–92; for kind-of component skill, 95–106; levels of, 22–29; for part-of component skill, 92–95; for problem-solving events, 123–125, 127–145; requirements of, 7; selection of, 88; summary of, 89t; technology’s effect on, 7; for what-happens component skill, 111–118; for whole problems, 127–145
Instructional strategy templates: definition of, 273; description of, 280; for how-to component skill, 288–290, 291f; for information-about component skill, 282, 283–284f; for kind-of component skill, 284–288; for what-happens component skill, 292–294, 295f
Instructional systems design (ISD): content sequences in, 269; criticism of, 250, 253, 270; description of, 250; early steps in, 268; illustration of, 251f; peer-interactions in, 350; traditional versus Pebble-in-the-Pond model, 300, 322, 336–337
Integration principle: collaborative methods of, 29; definition of, 20; description of, 21, 29, 44; implementation of, 172; peer-collaboration in, 188; peer-critique in, 186; research supporting, 405–406; structural framework in, 173; theories related to, 413, 414
Interactions. See Instructional interactions
Interactive scenario, 31–33
Interface: example of, 156, 157f; finalizing, 362–363
Internet instruction, 8
Internet links, 367
Interview questions, 375, 376f
Intrinsic feedback: definition of, 20, 25, 70; description of, 84; examples of, 39, 42, 84–85f; for how-to demonstrations, 107; in summary critiques, 228; in what-happens applications, 112
Introductions: example of, 157, 158f; finalizing, 355, 359f
Irrelevant color: alternatives to, 213; definition of, 192; to focus attention, 200. See also Color
Irrelevant media, 212
ISD. See Instructional systems design
Isolated illustrations, 309
Italics, 203
Jacobson, M. J., 401
Jehng, J. C., 401
Job counseling demonstration, 96–101
Johnson, E., 415t
Jonassen, D., 396, 403, 411–412, 415t
K
Keller, J. M., 88, 120, 380, 429
Keogh, R., 406
Kind-of component skill: content elements of, 57; coordinate classes and, 59; definition of, 48; description of, 49t, 51; Do interaction for, 76; example of, 52f, 57–59; goal of, 60, 95; incomplete examples and, 60; instructional strategies for, 89t, 95–106, 118–119; instructional strategy templates for, 284–288; matching guidance in, 79–80; in problem-solving events, 123, 125f, 126; pseudo examples and, 61–62f; research related to, 400; summary critique for, 223–225; unencountered examples and, 59–60
Kind-of problems: application and, 24; demonstration and, 23; feedback for, 206–207
Kind-of responses, 206–207
Kind-of strategy checklist, 220
King, A., 184
Kirschner, P. A., 184, 185, 313, 337, 396, 412
Knowledge: definition of, 22; versus skills, 22; structured acquisition of, 28
Kovalik, S. J., 415t
Kulhavy, R. W., 404
L
Labels, in part-of practice, 92, 93
Lacy, M. J., 7, 8, 88
Land, S., 415t
Landa, L. N., 415t
Large groups, 347
Larson, S., 415t
Last button, 205, 216
Laurillard, D., 406
Layout, screen, 276
Learner control: definition of, 192, 193; individual differences and, 210; of instructional events, 210–211; multimedia and, 205–211; text and, 195; use of, 192
Learner interface. See Interface
Learner population, 300
Learners: frustration of, 363; individual differences among, 210; interaction among, 183–188; unchanging nature of, 7–8
Learning by doing theory, 413–414
Learning communities: considerations regarding, 15; definition of, 350; versus peer-interaction, 350
Learning cycle theories, 407–409
Learning phases: description of, 21; peer-interactions in, 186; in problem-centered instruction, 21, 22f
Lee, M., 415t
Level-1 instructional strategy: definition of, 20; description of, 23–24
Level-3 instructional strategy: definition of, 20; description of, 26–29
Level-2 instructional strategy: definition of, 20; description of, 24–26
Level-0 instructional strategy: definition of, 20; description of, 22–23
Lin, X., 401, 403, 405, 407, 415t
Lindsey, L., 415t
Linear representations, 275
Literature courses, 311
Live presentations, 253
Location indicators: definition of, 353, 362; description of, 57; finalizing, 362–363; in part-of demonstrations, 93
Location practice, 93
Look Ahead activity, 408
Lyons, C., 218
Macpherson, K. A., 396, 403, 413–414, 415t
Macros: definition of, 369; description of, 451; examples of, 451–459; for learner names, 374; to record performance data, 374
A Man for All Seasons (More), 311
Marcovitz, D. M., 380
Margaryan, A., 433
Marriage relationship course, 434
Marzano, R. J., 172, 180, 189, 351, 396, 397, 398, 401, 402, 405, 406
Mastery: in information-about practice example, 90–92; practice and, 90
Matched examples, 105
Matching guidance: in applications, 80; definition of, 70; description of, 79–80; examples of, 80f; non-examples in, 79–80
Mathematics, 438–439
Mayer, R. E., 6, 15, 24, 28, 150, 173, 194, 212, 218, 351, 389, 396, 397, 398, 399, 401, 402, 403, 404, 405, 406
Mayer, R. H., 415t
Mazur, E., 184, 185
McCarthy, B., 405, 406, 408, 409
McGeehan, J. R., 415t
Media control, 205–211
Media objects, 281
Mediated instruction, 206–208
Memories, 413
Mendenhall, A., 153, 165, 169, 433
Mental models: activation of, 27–28, 342; adaptation of, 173; adjustments to, 25; appropriate use of, 184; benefits of interaction for, 184; decontextualized instruction and, 26; definition of, 20, 24; formation of, 24; ineffective use of, 173; research related to, 397–399; versus structural framework, 173; structure of new knowledge and, 28; themes and, 13–14
Mental processing, 77–78
Menu button, 366
Menus. See Content menus
Merrill, M. D., xviii, xvii, 6, 7, 8, 20, 45, 86, 88, 153, 165, 169, 187, 202, 246, 271, 351, 399, 403, 404, 433, 440, 446
Metaphors: definition of, 173, 340; demonstration of structural frameworks and, 342; description of, 175–176; example of, 176–177f; identification of structural frameworks and, 341–342
Microworlds: definition of, 34, 209; multimedia for, 209
Mills, G., 153, 169, 433
Minus sign, 221
Missing components, 355
Mistakes, instructional, 8
Mnemonic: definition of, 88, 89, 173; description of, 173; example of, 174–175; in presentations, 89; types of, 173
Mock-ups. See Functional prototypes
Momentum demonstration, 112–118
Monetti, D., 415t
More, T., 311
Motivation: common mistakes involving, 8, 14; decontextualized instruction and, 26; demonstration of skills and, 43; description of, 29; peer interaction and, 184; through games, 16
Multimedia: checklist for, 214t; for coaching and guidance, 199–201; common instructional mistakes involving, 8, 24; course format and, 201–203; definition of, 192; description of, 192; effective use of, 191–192; example of, 214–216; for instructional interactions, 205–211; misuse of, 211–213, 402–403; for navigation, 203–205; portrayal properties and, 197–201; principles for, 217–218; purpose of, 24; research related to, 401–402, 403; shortcomings of, 82; for Show interaction, 82
Multiple perspectives, 408
Multiple representations, 410
Music: instruction in, 310–311; misuse of, 212

N
Names, 56, 57, 62; example of, 62–63; in how-to component skill, 62; ordering of, 207; in what-happens component skill, 63
Names, of learners, 374
Naming practice, 93
Namy, L., 401
Narration, 402
Navigation: among slides, 276, 363, 365;
   definition of, 193, 203, 353, 363; finalizing,
   363–366; levels of, 363; in multimedia example,
   216; multimedia for, 203–205; in Pebble-in-the-
   Pond model, 266; in presentation software,
   276; within slides, 363, 364
New mathematics, 438
Newman, S. E., 404
Next button, 204, 205; finalizing, 364, 365; in multimedia example, 216; in presentation software, 276
Nice-to-know information: in information-about instructional strategy, 89; in part-of instructional strategy, 93
Non-examples, 60, 61–62f; in kind-of demonstrations, 96, 98; in matching guidance, 79–80; in range-of-difficulty guidance, 81; slide masters with, 284, 285f, 286, 287f; for whole problems, 134
Number theory, 438

O
Objective measures, 371
Objects, 286, 288, 294
Observations, 205, 377, 442
Ohm’s Law demonstration, 209f
Oliver, K., 415
Olsen, J. B., 397
One-on-one trials, 376–377
Online instruction, 8–9
Open-ended learning, 6
Opening scenarios, 30–33
Ordering items, 207
Organization, of content: course format and,
   201, 202f; finalizing designs and, 354–362; in multimedia example, 216; research related to, 402
Outcomes, learning versus instructional, 442
Outlines, 354, 356f

P
Page-turner instruction, 204
Park, O., 404
Part-of component skill: content elements in,
   57; definition of, 48; description of, 49t, 50;
   example of, 51f; goal of, 50; instructional
   strategies for, 89t, 92–95, 118; summary
   critique for, 222–223
Part-of problems, 23
Passive demonstrations, 111
Passive interactions, 205
Paulus, T., 415t
Pause symbol, 206
Pebble-in-the-Pond model: description of,
   252–253; design checklist for, 381–391;
   illustration of, 247f, 252f; initial design steps
   in, 300; phases of, 249, 253–267; properties
   of, 249–250, 268–270; versus traditional
   instructional design, 300, 322, 336–337
Peer-collaboration: benefits of, 184; definition
   of, 172, 340, 349; description of, 44, 186;
   design of, 264–265; example of, 349t; in flow
   of learning cycle, 186; illustration of, 187f;
   importance of, 29; in Pebble-in-the-Pond
   model, 264–265; rationale for, 350; research
   supporting, 406; theories related to, 410–411
Peer-critique: definition of, 172, 340, 350;
   description of, 44, 186; example of, 350t; in flow of learning cycle, 186; illustration of, 187f;
   importance of, 29; rationale for, 350
Peer-discussion: definition of, 172, 340, 348;
   description of, 185; in flow of learning cycle,
   186; questions for, 185; rubric for, 349t
Peer-interactions: characteristics of, 347; creation
   of, 347–348; definition of, 339, 347; design of,
   265–266, 271; effectiveness of, 347; finalizing,
   361–362; in Pebble-in-the-Pond model, 263–266;
   versus traditional instructional design, 350
Peer-sharing: definition of, 172, 339, 348; description of, 185; directions for, 348; in flow of learning cycle, 186
Peer-telling: definition of, 172; description of, 184–185; shortcomings of, 184–185
Perfection, 275
Perkins, D. N., 397, 403, 405
Persuasive Essay checklist example, 180–181, 181–183f
Persuasive Essay text example, 197f
Photographs, usefulness of, 36
Pickering, D. J., 172, 180, 189, 351, 396, 397, 398, 401, 402, 405, 406
Pig Farm entrepreneur course, 153–159
Placeholders: creation of, 280–296; definition of, 280; in how-to slide masters, 289; in kind-of slide masters, 284, 288; in what-happens slide masters, 292, 294
Play symbol, 206
Plus sign, 221
Poetic Meter demonstration, 101–106
Pogrow, S., 415t
Pollock, J. E., 172, 180, 189, 351, 396, 397, 398, 401, 402, 405, 406
Pop-up messages: course format and, 203; finalizing navigation and, 364
Portrayals: audio in, 194; collecting samples of, 301–302; component skill complexity analysis and, 317–318; course format and, 203; definition of, 54; effective multimedia use for, 194, 196, 197–201; example of, 55–56; versus graphics, 56, 196; identifying component skills for, 302–305; versus information, 55–56, 399; modification of, 321; in multimedia example, 215; in problem progressions, 316–317, 320; research related to, 399; sequencing of, 319–320; as supplemental materials, 367
Posey, L. O., 404
Post-assessments, 372
PowerPoint software: assessment prototypes and, 373–374; finalizing design in, 354–355; for functional prototypes, 275–280; for instructional strategy templates, 280; macros for, 451
Practice: definition of, 87, 88, 89; description of, 90; example of, 90–92; for part-of instructional strategy, 92, 93; research supporting, 403; summary of, 89t. See also Ask interactions
Practice case studies, 39–43
Practicum experiences, 42–43
Pratt, J., 7, 8, 88
Pre-assessments, 372
Pre-class instructional events, 165–166
Prescriptions, xix
Prescriptive principles, 396
Presentations: definition of, 87, 88, 89; example of, 90–92; experimentation with, 296; for how-to instructional strategy, 106–107; for information-about instructional strategy, 89–90; for kind-of instructional strategy, 95; for part-of instructional strategy, 92–93; parts of, 193; research related to, 399; software for, 275, 276, 277, 280, 446; summary of, 89t; in topic-centered instruction, 150f; in what-happens instructional strategy, 111
Previous button, 204, 205; finalizing, 365; in presentation software, 276
Principle-oriented design: definition of, 249, 250; in Pebble-in-the-Pond model, 268
Principles: definition of, xix, 19, 20; versus prescriptions, xix
Prior knowledge: activation of, 27–28; research related to, 397–399
Problem classes: definition of, 315; identification of, 300–301, 308–312; research related to, 399–400
Problem progression: adjusting sequence in, 319–320; challenges in identifying, 309–310; definition of, 150, 315, 316; description of, 151; designing of, 256–259, 270–271; example
of, 165; identifying component skills in, 317–319; instructional event distribution in, 152–153; in Pebble-in-the-Pond model, 252; portrayals in, 316–317, 321; qualities of, 316; research related to, 397; theories related to, 411; versus traditional instructional design, 322

Problem-based learning: component skills in, 122; versus problem-centered instruction, 26

Problem-centered component skill instruction: component skill checklist in, 334–336; definition of, 325; demonstration and application design in, 326–334; description of, 326; instructional event tables and, 326; versus traditional instruction, 336–337

Problem-centered design: challenge of, 308; definition of, 249, 250; in Pebble-in-the-Pond model, 269–270; principles of, 322; problem progression in, 256

Problem-centered instruction: versus case-based learning, 26; description of, 26–29, 146; learning phases in, 21, 22f; versus problem-based learning, 26; research supporting, 396–415; sequences for, 153; single versus multiple problems in, 27; versus traditional instruction, 153

Problem-centered instructional strategies: definition of, 149; description of, 151–152; distribution of, 152–153; examples of, 153–168; illustration of, 151f; steps in, 168–169

Problem-centered principle: definition of, 19; description of, 21, 44, 168

Problem-centered tutorials, 420–423

Problems: component skills in, 122, 126; definition of, 63, 396; description of, 26; designing, 253–255, 270; example of, 64; good types of, 301; in instructional interactions, 185; in Pebble-in-the-Pond model, 252; versus tasks, 22. See also specific types

Problem-solving event analysis: definition of, 299, 302; versus goal analysis, 304; problem portrayals in, 302–305

Problem-solving events: content elements for, 122–123, 126–127; definition of, 121, 123; examples of, 154–156; 124f; instructional strategies for, 123–125, 127–145; prescribed instructional events in, 154, 155t; sample diagram for, 154, 155f

Procedures, 49, 51; media control and, 207; in Pebble-in-the-Pond model, 252, 268; results of, 253

Processes, 49, 53; definition of, 63

Product reviews, 444–445

Professional reviews, 376

Promoting learning: definition of, 6; versus facilitating learning, 193

Prompted examples, 257

Properties: coordinate concepts and, 59; definition of, 57, 123; example of, 57, 58f; incomplete examples and, 60; in problem-solving events, 124, 125, 127f; pseudo examples and, 61

Propositions, 442–443

Prototype problem application: definition of, 299; design of, 307–308; versus traditional instructional objectives, 336

Prototype problem demonstration: definition of, 299, 305; design of, 305–307; example of, 302f; versus traditional instructional objectives, 336

Prototypes, assessment, 371–374

Prototyping: definition of, 249, 250, 368; description of, 270; evaluation of, 267; in Pebble-in-the-Pond model, 266, 267, 270; revisions in, 267

Pseudo examples: description of, 61; example of, 61–62f; in kind-of demonstrations, 97

Public performance, 408, 410

Q

Questions: versus application, 11–12; to collect attitude data, 375, 376f; in design evaluation, 267; for Do interactions, 76; in functional prototypes, 277; for peer-discussions, 185; for practice, 90

Quizzes, 150

R

Randi, J., 414t

Range-of-difficulty guidance: definition of, 70; description of, 80–81; examples of, 81–82f
491

INDEX

Readability, 213
Reading assignments, 165–166
Reading on-screen text, 15, 213
Real-world activities, 301
Real-world problems: in after-class instructional events, 168; benefits of, 150; component skills in, 122; example of, 153, 154, 168; research supporting, 403
Recall: versus activation, 398; in information-only presentations, 23
Reflect Back activity, 408
Reflection: definition of, 346; structural framework basis of, 346; use of structural framework and, 173; in what-happens demonstration, 117f

Remember-what-I-told-you questions, 13f
Repetition, 90
Research, 440, 444–446. See also specific topics
Research and revise activities, 408
Responses, 206–208
Restaurant Business course, 162–163f
Reviewing products and research, 444–445
Revising courses, 267, 372, 373f, 379
Rhetorical questions, 71
Robertson, J., 397
Roles, 413
Rosenberg-Kima, R., 425, 443
Rosenshine, B., 172, 398, 399, 402, 403, 404, 405
Rubric: to increase objectivity of measures, 371; for peer-discussion, 349t
Rutherford, F., 415t

S
Sampling with replacement: definition of, 93; for part-of practice, 93
Savery, J. R., 396, 403, 415t
Scaffolding, 404, 413
Scenarios, 413, 414
Schank, R. C., 396, 403, 413–414, 415t
Schema, 398
Schwartz, D., 401, 403, 405, 407, 415t
Science, of instructional design, 440–441
Scope, course, 165
Scoring modules, 241–242
Screen layouts, 276
Scripts, 451
Self-contained courses, 253
Self-directed learning, 6
Self-explanations, 402
Selling Furniture demonstration, 131–134f, 135–136f, 198
Sequence cues: definition of, 88, 90; repetition and, 90
Shell EP, 433
Short-term memory, 193–194
Shoveware, 8
Show button, 211
Show interactions: definition of, 69; description of, 72; distribution of, 152–153; examples of, 73f, 74f, 154–155, 156t, 168; in how-to presentations, 106; in kind-of demonstrations, 96–98, 101; multimedia for, 82; multiple versus single use of, 82–83; in problem-centered instructional strategy, 151f, 152; in what-happens presentation, 112; in whole problems, 134, 136, 144–145. See also Demonstrations
Show-portrayal, 194
Silber, K. H., 67
Simon-Says demonstration, 34; definition of, 70; description of, 74–75, 201; examples of, 75f, 255; in how-to presentations, 107
Simple Circuit simulation, 209f
Simulations: benefits of, 74; examples of, 74f; guided case study examples of, 34–36; for how-to presentations, 107; multimedia for, 209; practice case study examples of, 39–43; versus real-world activities, 301; slide masters for, 293–294, 295f
Skill acquisition: consistent application and, 25; demonstration of, 43; rationale for, 6
Skills: definition of, 49; versus knowledge, 22; relevance of, 151
Skills complexity analysis, 315, 319–320
Skinner, B. F., 439
Slavin, R. E., 184
Slide masters: definition of, 280; for instructional strategy templates, 280–296
Small groups, 347, 377, 406
Snyder, M. M., 415t
Social networking, 8
Sound. See Audio
Sources, 175
Speaker symbol, 206
Specific content elements, 54–56
Specifying instances, 254–255
Spiro, R. J., 401
Sportsmanship mnemonic, 174–175f
Spreadsheet courses, 254–267
Spreadsheet demonstration, 107–111, 225–226
Staffieri, A., 184
Star Legacy, 405, 407–408
Stelnicki, M. B., 67
Steps: definition of, 62, 123; designing demonstrations and applications for, 326–334; example of, 62; media control and, 207, 208; in Pebble-in-the-Pond model, 252, 268, 269; in problem-solving events, 123, 124f, 125, 126, 127f; in slide masters, 289–290
Stock, W. A., 404
Stop symbol, 206
Stories, 413
Storyboards, 130, 131–134f
Strategy templates. See Instructional strategy templates
Structure for knowledge, 28
Structure-Guidance-Coaching-Reflection cycle, 172
Study skills, 201
Subject-matter content: definition of, 47; general versus specific representation of, 54–56; vocabulary for, 48–49
Subject-matter experts: common instructional mistakes involving, 8; for professional reviews, 376
Submit button, 364, 365
Successive disclosure, 192
Suhaka, M., 153, 169, 433
Summary critiques: of component skills, 220–230; definition of, 220; description of, 221; example of, 221, 222t; of whole problems, 231–242, 244–245
Summary frames. See Checklists
Superordinate class, 95
Supplemental materials: finalizing, 366–367; in Pebble-in-the-Pond model, 266
Survey courses, 308–309
Sweller, J., 185
Synchronized graphic devices, 200

T
Table of contents, 355
Tabs: for course format, 201; for navigation, 204
Takeaway materials, 367
TALQ. See Teaching and Learning Quality scales
Target content: definition of, 340; demonstration of structural frameworks and, 342; identification of structural frameworks and, 341
Targets, 175–176
Task-centered conditions, 426
Tasks: definition of, 62; example of, 62; versus problems, 22
Teaching and Learning Quality (TALQ) scales, 430–432
Technical vocabulary. See Vocabulary, technical
Technological changes: instructional strategies and, 7; interactive instruction and, 205–206; learning mechanisms and, 7–8
Technology: common instructional mistakes involving, 8; of instructional design, 440–441.
See also specific technology
Tell interactions: definition of, 69; description of, 71; distribution of, 152–153; examples
of, 73–74f, 154–155, 156t, 157; in how-to presentations, 106, 110, 111; in kind-of demonstrations, 96–98, 101; in part-of presentations, 92, 93–95; in problem-centered instructional strategy, 151f, 152; in what-happens presentation, 112; in whole problems, 136, 144–145. See also Presentations
Tell-and-ask interactions: description of, 72; examples of, 12f, 72f, 73f, 74f
Tell-information, 193–194
Telling analogies, 410
Tennyson, R. D., 202, 404
Test Your Mettle activity, 408
Text: in complex animations, 279; for defining and ordering portrayals, 197; definition of, 192; effective use of, in multimedia, 193–194; evaluating, 378–379; example of, 194f; fundamental role of, 193; graphics as alternative to, 196; learner control over, 195; learners’ limitations and, 194; media control of, 206; misuse of, in multimedia, 213; in multimedia coaching and guidance, 200
Text boxes, 277
Textbooks: versus instruction, 193; versus online courses, 213
Themes, 13–14
Theories: detailed explanations of, 414–416, 440, 441–444; proliferation of, 20. See also specific learning theories
Thompson Learning, 418
Time data, 374–375
Title pages, 355, 358f
Tools, teaching of, 309, 310
Topic outlines, 309
Topic-centered conditions, 426
Topic-centered instructional strategies: definition of, 149; description of, 150; illustration of, 150f; limitations of, 151; sequences for, 153
Topic-centered tutorials, 418–420
Training: developing courses in, 312; versus education, 6; money spent on, 70
Transistor metaphor/analogy, 176–180
Trials, 376–377
Tutorials: complexity analysis and, 320; direct research of, 418–423; examples of, 31, 36–39
Typeface, 202–203
U
Unencountered examples: definition of, 59; description of, 59–60; in kind-of demonstrations, 96–98
Unger, C., 397, 403, 405
University of Illinois, 438
Unprompted applications, 257, 258f
Utah Counties demonstration, 93–95, 222–223
V
Valid measures, 371
van der Meij, H., 405
van Merriënboer, J.J.G., 147, 184, 185, 271, 313, 337, 396, 397, 399, 400, 403, 404, 412–413, 415
Vanderbilt Learning Technology Center, 405, 407–408
Verbal information, 49
Video demonstrations, 130, 131–134f, 137–144f; for dynamic visualizations, 198–199; media control of, 208; slide masters for, 288–290, 291f, 292; summary critique of, 226–227
Vincenti, W. G., 440
Visual Basic program, 364, 374, 451
Vocabulary, technical: for different skill types, 49; of learning theories, 415; rationale for, 48–49, 71; variances in, 444
