Accumulation of risk model, 117
Acts of omission, 86–87; defined, 86
Admired person/lifestyle, emulation of, 192–193
Adolescents, parental incarceration, effect on, 89–91
Adulthood socioeconomic position (adult SEP), 116–118, 127–129; measurement of, 120
African-American homebuyers, 251
African American Male Empowerment Network (AMEN), 320–321, 325, 331; and community empowerment, 324–325; results, 326–327
African-American women: breast cancer in, 23; exposure to racial discrimination, 136; infant mortality/low birth weight, 252; life expectancy, 320, 336; and medical mistrust, 137; Office of Women’s Health, 284, 295; Perceptions of Racism Scale, 142; prenatal care, 252; and prison-centered trajectory, 303; socioeconomic difference between African-American men and, 336; Agency for Healthcare Research and Quality (AHRQ), 284
Aid to Families with Dependent Children (AFDC), 303
AIDS (acquired immune deficiency syndrome), 3, 104, 161, 335, See also HIV (human immunodeficiency virus): epidemic, toll on black communities, 162; health care inequities, 210; medications, 162
Alcohol abuse, 27–28, 276, 277
Ambient air toxics, cancer risk associated with, 29–39
Ambiguous loss, and parental incarceration, 89–90
AMEN, See African American Male Empowerment Network (AMEN)
American Dilemma, An: The Negro Problem and Modern Democracy (Myrdal), 283–284
Antidepressant medications, 210–211
Antiretroviral therapy (ART), 210
Architecture, Construction, and Engineering (ACE) Academy (Locke High School, Los Angeles, CA), 257
Assertive Community Treatment (ACT), 310
Aversive racism, 215
Barriers to work, removing, 312–313
Behavioral Risk Factor Surveillance System (BRFSS), 266–268
Bias, 208–209, 211–212; interventions to reduce, 216–217;
Biological chains of risk model, 117
Bivariate analyses, and medical mistrust, 144–147
Black sexually marginalized men (BSMM), 64–65, 89–90; psychosexual health of, 63–81
INDEX

Black Studies Movement, 324
Body mass index (BMI), 30
Breast cancer, in African-American women, 23
BRFSS, See Behavioral Risk Factor Surveillance System (BRFSS)
Bronchus cancer, 23, 32

C
CABG, See Coronary artery bypass grafting (CABG)
Cancer, 335; and African-American men, 2–3, 23–24; and ambient air toxics, 30–31; breast, in African-American women, 23; bronchus, 23, 32; colon, 23, 30; definitive therapy for, 209; health care inequities, 209; lung, 2, 23; medical monitoring visits/procedures, 209; mortality rates, disparities in, 23; oral, 2–3; prostate, 23, 30; rectal, 23; treatment with “curative intent” (TCI), 209
Cardiovascular disease (CVD), 2, 209–210, 335; coronary artery bypass grafting (CABG), 209–210, 215; health-care inequities, 209–210; and life-course socioeconomic position, 116; reperfusion therapy, 210
“Cardiovascular Risk Reduction for African American Men through Health Empowerment and Anger Management,” 327
Center for Medicare and Medicaid Services (CMS), 307
Cerebrovascular disease, 210
Childhood sexual abuse (CSA), 170, 172–176
Childhood socioeconomic position (childhood SEP), 117; measurement of, 119–120
CHWs, See Community health workers (CHWs)
Cigarette smoking, 30–31
City Project of Los Angeles, 255–256
Civil rights laws, and fair employment, 256–257
Clinical and epidemiologic assessment, 49–51
Clinton race initiative, 325
Closing the Gap in a Generation, 320, 335
Cocaine, 102–103, 185–186, 189, 191–192, 194, 232; statutes, 308
Colon cancer, 23, 30
Coming-out, 69, 72–73
Commercial drug activity, 193–197
Commission on the Social Determinants of Health (CSDH), 135, 285, 296
Committed state, Troiden’s sexual identity development model, 71–72
Communities of opportunity, See also Pathways to health: building, 247–263; defined, 248
Community-based corrections, 311
Community-based prospective study, 115
Community capacity, and empowerment, 324
Community empowerment, 324–325; need for, 331
Community health workers (CHWs), 108, 313–314
Community interventions, and policy, 255
Community networks, and health, 253
Community transformation, cornerstones of, 254
Composite International Diagnostic Interview Short Form (CIDI), 90
Comprehensive community-based treatment, 310
Concentrated poverty, and health, 252
Constitutional right to adequate medical care, 236
Continuity of care, 235, 238
“Convict” label, 228
“Cool Pose” conceptual framework, 167–168
Coronary artery bypass grafting (CABG), 209–210, 215
Correctional health care system: compromised health status, 227; constitutional right to adequate medical care, 236; continuity of care, 235, 238; “convict” label, 228; cultural sensitivity in health care delivery/HIV and AIDS education, 229; disenfranchised felons, 228; education of inmates/staff/health care providers, 236; HIV/AIDS in correctional institutions, 230–233; impact on HIV/AIDS, 225–243; intravenous drug use, 233; mandatory HIV testing, adoption of, 237–238; prison health, 227; prison officials, 236; public health approach to, 229–230; recommendations, 237–239; “revolving door” phenomenon, 228; risk reduction policy action, 237; sexually transmitted infection risk, research on, 238–239; social conditions, 227; volume of prisoners, 227–228
Crack, 102–103, 232, 308
Crime rates, and community, 84–85
Criminal history, as barrier to employment, 313
Criminal justice: and health, 301–317; and social policy, 11
Criminal justice system, 302, 311. See also Leveling the playing field: community-based corrections, 311; community support/treatment, 309–310; comprehensive community-based treatment, 310; health care, 305–306; leveling the playing field, 311–314; mandatory minimum sentence, 308; poverty, 306–307; ready pathway toward prison, 304–305; recidivism, 302; Second Chance Act, 284, 309–310; Sentence Reform Act, 309–310; sentencing laws, 308; sentencing reform, 308; social and economic determinants of health, 302; structural violence, 311–314; treatment vs. incarceration, 310; uneven representation, 308; urban prisoners moved to rural areas, 308; War on Drugs, 304, 307–308
Criminalization of being black, 302–303
