prognosis 156–7
types 156, 157
renal tumours, macroscopic haematuria 62
renal veins 1, 2
renin–angiotensin–aldosterone (RAA) pathway
5–6
polydipsia 45
respiratory acidosis 149
respiratory alkalosis 149
respiratory system examination 11
reticulocytes 87
retinopathy, hypertensive 119
rhabdomyolysis 144, 145–7, 218
causes 145
historical description 147
prognosis 147
rheumatoid factor 19
rifampicin, dark urine 144
Rinne's test 56
rituximab 60
salbutamol 39
salicylate overdose 217
schistosomiasis, macroscopic haematuria 63
serum amyloid P (SAP) 102, 103, 104
shigatoxin 88, 91, 92
shortness of breath 169–75
simian virus (SV) 40 204, 205
skin rash see rash
small vessel vasculitis 58–61, 60
syndrome of inappropriate antidiuretic hormone secretion (SIADH) 159–62
social history 9–10
sodium channels 4, 5
sodium ions 2, 4
in acute tubular necrosis 34
tubular resorption 5
sodium levels
hypernatraemia 143, 144
see also hyponatraemia
Staphylococcus aureus 188, 189, 192
ANCA-associated vasculitis
steal syndrome 175
streptococcal infections
horses 54
see also post-streptococcal glomerulonephritis
Streptococcus equi 188
syndrome of inappropriate antiuretic hormone secretion (SIADH) 159–62
causes 161
management 161–2
systemic lupus erythematosus (SLE) 10, 80–2, 83, 84, 216
actiopathogenesis 82, 83, 84
autoantibodies 81, 82, 83, 84
diagnostic criteria 80
environmental factors 84
geneic factors 82, 84
systemic lupus erythematosus (SLE) (cont.)
- investigations 81
- management 81–2
- prognosis 82
- renal biopsy 81
- systems review 9

T cell activation 207
- tacrolimus 197, 198–9, 200, 202, 203
- Takayasu’s arteritis 60
- Tammin Horsfall protein 145
- temperature, body 10
- thrombocytopaenia 87
- haemolytic uremic syndrome 88, 92
- thrombotic thrombocytopenic purpura (TTP) 91, 92
- Toll-like receptors (TLRs) 84
- tolvaptan, in treatment of adult polycystic kidney disease 141
- toxic megacolon 32

ultrasound 22–3
- ureter 1, 2
- ureteral malignancy, macroscopic haematuria 63
- ureteral stones, macroscopic haematuria 63
- ureteric stents 203, 205
- urethra 1, 2
- urethral outflow obstruction 40–1
- uric acid 2, 3
- urinary catheterisation
  - macroscopic haematuria 63
  - outflow obstruction 41, 43
- urinary frequency 8
- urinary tract infection
  - causes 128, 129
  - Escherichia coli 128, 132
  - investigations 130
  - management 132
  - nitrite presence 128
  - organisms 218
  - post-transplant infection 210, 211
  - recurrent 129–30, 132
  - urine tests 21–2

urea 2, 4
- accumulation 28
- elevated levels 17, 19
- urea reduction ratio (URR) 175
- ureter 1, 2
- ureteral malignancy, macroscopic haematuria 63
- urine
  - abnormalities 8
  - alkalisation 147
  - appearance 221
  - casts 22
  - colour 8
  - dark colouration 51–5, 143–7
  - causes 144
  - electrolyte abnormal concentration 22
  - frothy with facial swelling 113–16
  - leucocytes 128, 129
  - microscopy 21–2
  - myoglobin 144
  - nitrite 128, 129
  - normal volume 2
  - osmolality 22
  - output chart 30, 31
  - protein quantification 22
- reduced output 30–6
- specific gravity 22
- tests 21–2, 221
- urine dipstick abnormalities 13–14
- dysuria 128–32
- nitrite 128
- protein and blood 133–7
- urine dipstick test 21–2
- urolithiasis 131
- valganciclovir 212, 214
- vancomycin, peritoneal dialysis peritonitis 189
- vasculitis 58–9
  - with anti-GBM antibodies 76
  - classification 60
  - see also ANCA-associated vasculitis
- vasopressin see antidiuretic hormone (ADH)
- vein stenosis/occlusion, line insertion 172
- venous thromboembolism,
  - risk with diabetic ketoacidosis 151
  - risk with membranous GN 96
- verocytotoxin 88
- vitamin D
  - chronic kidney disease 164, 167
  - deficiency
    - dialysis 175
    - treatment 28
  - metabolism 6, 7
  - renal bone disease 163
  - 25,OH-vitamin D 6, 7
  - voiding, double 130

von Hippel–Lindau syndrome 142
- von Willebrand factor 91

warfarin, lupus nephritis 82
- warm ischaemia time 202
- water, glomerular filtration 2, 4
- Wegener’s granulomatosis 58, 59, 60
- prognosis 60–1
  - see also ANCA-associated vasculitis
- weight loss, hypertension reduction 120
- wheeze 228
- white blood cells in urine 21
