Preface vii  
Dedication to Robert N. Ginsburg xi  

Depth-related and species-related patterns of Holocene reef accretion in the Caribbean and western Atlantic: a critical assessment of existing models  
*Dennis K. Hubbard* 1  

The mystique of beachrock  
*Eugene A. Shinn* 19  

A re-evaluation of facies on Great Bahama Bank I: new facies maps of western Great Bahama Bank  
*John J.G. Reijmer, Peter K. Swart, Thorsten Bauch, Robert Otto, Lars Reuning, Sven Roth and Susanne Zechel* 29  

A re-evaluation of facies on Great Bahama Bank II: variations in the $\delta^{13}C$, $\delta^{18}O$ and mineralogy of surface sediments  
*Peter K. Swart, John J.G. Reijmer and Robert Otto* 47  

Stable isotopes of carbon and oxygen in modern sediments of carbonate platforms, barrier reefs, atolls and ramps: patterns and implications  
*Eberhard Gischler, Peter K. Swart and Anthony J. Lomando* 61  

A tale of two storms: an integrated field, remote sensing and modelling study examining the impact of hurricanes Frances and Jeanne on carbonate systems, Bahamas  
*Stacy L. Reeder and Eugene C. Rankey* 75  

Rapid recycling of organic-rich carbonates during transgression: a complex coastal system in southwest Florida  
*Brigitte M. Vlaswinkel and Harold R. Wanless* 91  

The paradoxical occurrence of oolitic limestone on the eastern islands of Great Bahama Bank: where do the ooids come from?  
*Pascal Kindler and Albert C. Hine* 113  

Calcareous epiphyte production in cool-water carbonate seagrass depositional environments – southern Australia  
*Noel P. James, Yvonne Bone, Kirsty M. Brown and Anthony Cheshire* 123  

Microbes versus metazoans as dominant reef builders: insights from modern marine environments in the Exuma Cays, Bahamas  
*Miriam S. Andres, R. Pamela Reid, Emily Bowlin, A. Patricia Gaspar and Anton Eisenhauer* 149  

Microbial dolomite precipitation under aerobic conditions: results from Brejo do Espinho Lagoon (Brazil) and culture experiments  
*Mónica Sánchez-Román, Crisógono Vasconcelos, Rolf Warthmann, Marian Rivadeneyra and Judith A. McKenzie* 167  

Karst sub-basins and their relationship to the transport of Tertiary siliciclastic sediments on the Florida Platform  
*Albert C. Hine, Beau C. Suthard, Stanley D. Locker, Kevin J. Cunningham, David S. Duncan, Mark Evans and Robert A. Morton* 179  

Controls on facies mosaics of carbonate platforms: a case study from the Oxfordian of the Swiss Jura  
*André Strasser and Stéphanie Védrine* 199  

The allocyclic interpretation of the ‘Latemar Cycles’ (Middle Triassic, the Dolomites, Italy) and implications for high-frequency cyclostratigraphic forcing  

Phylloid algal mounds in the Paradox Basin, southwestern USA: an alternative to the in situ constructional growth model?  
*G. Michael Grammer and Audrey L. Ritter* 239
The Cincinnati Arch: a stationary peripheral bulge during the Late Ordovician 255
  Michael C. Pope, Steven M. Holland and Mark E. Patzkowsky

Reinterpreting a Proterozoic enigma: Conophyton–Jacutophyton stromatolites of the Mesoproterozoic Atar Group, Mauritania 277
  Linda C. Kah, Julie K. Bartley, and Alice F. Stagner

Layering: what does it mean? 297
  Harold R. Wanless

Falling-stage systems tract in tropical carbonate rocks 305
  Wolfgang Schlager and Georg M.D. Warrlich

Early load-induced fracturing in a prograding carbonate margin 327
  Donald F. McNeill and Gregor P. Eberli

Markov models for linking environments and facies in space and time (recent Arabian Gulf, Miocene Paratethys) 337
  Bernhard M. Riegl and Samuel J. Purkis

Evaluating validity and reliability in high-resolution stratigraphic analysis 361
  Carl N. Drummond and Lailah A. Marlow

Index 373
