### Part I Wearable Computing: Introduction and Background 1

#### 1 Wearables: Introduction 3

1.1 Wearable Computing 3
1.2 Wearable Computers and Technology 3
1.3 “Wearables” 4
1.4 The word: “Wearables” 4
1.5 Wearables and Smartphones 5
1.6 Wearable Light, Glanceable Interactions 5
1.7 Smartphone Dependency, Inconveniences 5
1.8 Wearable Interaction 6
1.9 User’s Real-world Context 6
1.10 Variety of Wearable Devices 6
   1.10.1 Smart Watches 6
   1.10.2 Fitness Sensors 7
   1.10.3 Smart Jewelry 7
2 Wearable Computing Background and Theory

2.1 Wearable Computing History
  2.1.1 Wearable Computing Pioneers
  2.1.2 Academic Research at Various Universities

2.2 Internet of Things (IoT) and Wearables
  2.2.1 Machine to Machine (M2M)

2.3 Wearables’ Mass Market Enablers
  2.3.1 “ARM-ed” revolution
    2.3.1.1 ARM alternatives
  2.3.2 System on Chip (SoC)
  2.3.3 Human Dependence on Computing
  2.3.4 Smartphone extensions
  2.3.5 Sensors
    2.3.5.1 Micro-Electro-Mechanical Systems (MEMS) Sensors

2.4 Human–Computer Interface and Human–Computer Relationship
  2.4.1 Human–Computer Interface: over the years
  2.4.2 Human Computer Interaction (HCI): Demand and Suggest
    2.4.2.1 Demand Paradigm
    2.4.2.2 Suggest Paradigm
    2.4.2.3 Demand or Suggest?
    2.4.2.4 Demand and Suggest: A Healthy Balance
  2.4.3 Evolution of the Human–Computer Relationship

2.5 A Multi-Device World
  2.5.1 Spatial Scope of Computing: Devices near and Devices far
  2.5.2 Body Area Network (BAN)
  2.5.3 Personal Area Network (PAN)
  2.5.4 Home Area Network (HAN)
  2.5.5 Automobile Network
    2.5.5.1 Controller Area Network (CAN)
  2.5.6 Near-Me Area Network (NAN)
  2.5.7 Campus Area Network
  2.5.8 Metro Area Network
  2.5.9 Wide Area Network
  2.5.10 Internet
  2.5.11 Interplanetary Network

2.6 Ubiquitous Computing

2.7 Collective, Synergistic Computing Value
  2.7.1 Importance of the User Centricity and the User Context
  2.7.2 Distributed Intelligent Personal Assistant

2.8 Bright and Cloudy: Cloud-based Intelligent Personal Agent
  2.8.1 Google / Cloud-Based Intelligent Personal Agent
2.9 Leveraging Computer Vision
   2.9.1 Enhanced Computer Vision / Subtle Change Amplification 25
2.10 IoT and Wearables: Unnatural and over the top?
   2.10.1 Human History of Tool Use and Computation 27
   2.10.2 Communication Networks in Nature 27
   2.10.3 Consumption of Power: by computational systems,
          biological and artificial 28
2.11 Security and Privacy Issues
   2.11.1 Use Awareness and complete end-to-end Transparency 29
   2.11.2 User Control and Choice 30
   2.11.3 User Access to Collected Data and Erasure capability 30
   2.11.4 Device side, transit, and cloud side protection:
          Data Anonymization 30
   2.11.5 Practical Considerations: User Centricity 30
          2.11.5.1 OpenID 31
2.12 Miscellaneous
   2.12.1 PhoneBloks: Waste Reduction 31
      2.12.1.1 Project “Ara” 31
   2.12.2 Google Cardboard: inexpensive Virtual Reality 32
References and Further Reading 32

Part II Foundation Android 35

3 Android Fundamentals / Hello Lollipop 37

3.1 Android: Introduction 37
3.2 Linux: “*nix” or Unix-like OS 38
   3.2.1 Unix 38
   3.2.2 Open Source 39
   3.2.3 GNU / Free Software Foundation 39
      3.2.3.1 Free as in Freedom: GNU Public License 40
   3.2.4 Apache Software Foundation: Apache Software License 41
3.3 Linux: yesterday and today 41
3.4 Unix System Architecture 41
   3.4.1 Unix Processes 42
      3.4.1.1 Linux Processes 42
      3.4.1.2 Android Processes 42
      3.4.1.3 Process Tree 42
      3.4.1.4 Unix Interprocess Communication (IPC) 43
      3.4.1.5 Remote Procedure Calls (RPC) 44
   3.4.2 Unix Kernel 44
      3.4.2.1 Linux Kernel 44
3.5 Java 44
   3.5.1 Java Origins 45
   3.5.2 Java Platform: Language, JVM 45
3.5.3 Java memory: Heap, Stack, and native 45
3.5.4 Security Policy: Permissions 46
3.6 Apache Harmony 46
3.7 Android OS and platform 47
  3.7.1 Android Kernel 47
  3.7.2 Android Open Source Project (AOSP) 50
    3.7.2.1 Android Framework 50
  3.7.3 Android Development 50
    3.7.3.1 Android SDK 51
    3.7.3.2 Android NDK 51
  3.7.4 Android Runtime Environment 51
    3.7.4.1 Dalvik Virtual Machine 52
    3.7.4.2 ART (Android Runtime) 52
    3.7.4.3 Zygote 52
    3.7.4.4 System Server: Android System Services 53
  3.7.5 Android Interface Definition Language (AIDL) 53
3.8 Setting up your Android Development Environment 54
  3.8.1 Installing Java SDK version 7 (JDK 1.7) from Sun Microsystems / Oracle 54
  3.8.2 Installing Android SDK from Google 56
  3.8.3 Installing Build Tools (gradle and ant) 63
  3.8.4 Setting up environment variables (Java, Android SDK, gradle and ant) 63
  3.8.5 Android (Lollipop) Development Device setup 64
    3.8.5.1 Creating a new Android project (classic / ant) 65
    3.8.5.2 Creating a new Android project (new / gradle) 71
  3.8.6 Installing Android Studio “IDE” 72
  3.8.7 Android Studio: Hello World App 76
  3.8.8 Configuring Android Studio 81
3.9 Android “Classic” project tree and build system 82
3.10 Android “New” Build System 82
3.11 Managing Java Installations 83
  3.11.1 Avoid sudo apt-get / rpm style installation 83
  3.11.2 Maintain discrete Java JDK versions 83
  3.11.3 Set JAVA_HOME in your .profile 84
  3.11.4 Project-wise JAVA_HOME 84
  3.11.5 IDE independent build 84
3.12 Managing Android SDK installation and updates 84
  3.12.1 Update your Android SDK often 84
  3.12.2 Target your App to the latest SDK / API level 85
  3.12.3 Be sure to specify a minimum SDK / API level for your App 85
3.13 Code Samples: Android Lollipop 85
References and Further Reading 85
5.4 Wi-Fi Peer-to-Peer (Wi-Fi Direct) 113
  5.4.1 Android Wi-Fi Direct / P2P API 114
5.5 Zero Configuration Networking (zeroconf) 114
  5.5.1 Android Network Service Discovery (NSD) 115
5.6 Near Field Communication (NFC) 115
5.7 Universal Serial Bus (USB) 116
  5.7.1 USB On-The-Go (USB OTG) 116
References and Further Reading 116

Part III Android Wear Platform and SDK 119

6 Android Wear Platform 121
6.1 Android Wear 121
6.2 Android Wear Platform: Android Wear OS,
  Wear Devices, and Wear API 122
  6.2.1 Android Wear OS 122
  6.2.2 Android Wear Devices 122
  6.2.3 Android Wear API and Wear Apps 123
6.3 Android Notifications and Android Wear 123
  6.3.1 Android 5.0 (Lollipop) Notifications 124
6.4 Notification Settings and Control 126
  6.4.1 Sound and Notification and Priority Notification 126
  6.4.2 Notification Configuration and Control 129
  6.4.3 Locked Screen and Notifications 131
    6.4.3.1 Notification Access 134
  6.4.4 Interruptions 135
6.5 App Notification Strategy 136
6.6 Google Now and Android Wear 137
6.7 Android Wear Devices: Getting Started 138
  6.7.1 Android SDK Wear Platform updates 138
  6.7.2 Procuring an Android Wear device 139
    6.7.2.1 Using Android Emulator with Wear AVD 140
  6.7.3 Pairing and Enabling Developer Mode 145
    6.7.3.1 Unboxing your Wear device 145
    6.7.3.2 Pairing your Handheld device with your Wear device 145
    6.7.3.3 Enabling Developer Mode and Debugging Settings on your Wear device 150
    6.7.3.4 Enabling Wear ADB Debugging and Debug over Bluetooth 153
6.8 Wear Debugging and Android SDK 155
  6.8.1 Wear Debugging via USB 155
  6.8.2 Wear Debugging via Bluetooth 158
6.9 Peeking under the hood of your Wear Device 161
6.10 Engaging your Android Wear device via Notifications 163
   6.10.1 Engaging Android Wear via Notification Sync 163
   6.10.2 Wear Extended Notifications 163
6.11 Android Wear Targeted Apps 165
6.12 Hello Wear World: Writing our first Wear App 165
References and Further Reading 168

7 Android Wear API 169
   7.1 Google Services and Google Play Services 169
      7.1.1 GoogleApiClient class 171
   7.2 Android Wear Network 173
   7.3 Android Wear API, in depth 173
      7.3.1 Wear API: wearable package 174
         7.3.1.1 Node interface 174
         7.3.1.2 WearableListenerService 174
         7.3.1.3 DataEvent 175
         7.3.1.4 MessageEvent 175
      7.3.2 Wearable class 176
      7.3.3 NodeApi 177
      7.3.4 DataApi 177
   7.4 DataItem, DataMapItem, and DataMap 178
      7.4.1 DataItem 178
      7.4.2 DataMapItem 180
      7.4.3 DataMap 180
   7.5 PutDataRequest and PutDataMapRequest 180
      7.5.1 PutDataRequest 180
      7.5.2 PutDataMapRequest 180
   7.6 Asset and DataItemAsset 182
      7.6.1 Asset class 182
      7.6.2 DataItemAsset interface 182
   7.7 MessageApi 183
   7.8 Wearable UI Library 184
   7.9 Wear Interaction Design 185
   7.10 Accessing Sensors 186
   7.11 Production Wear Apps 187
References and Further Reading 187

Part IV Google Fit Platform and SDK 189

8 Google Fit Platform 191
   8.1 Google Fit Platform Overview 191
   8.2 Google Fit Core Concepts 192
8.3 Fit Data Types 192
8.4 Fit Data Store (Storage) 193
8.5 Sensors 193
8.6 Permissions, User Consent 194
  8.6.1 Permission Groups, Fitness Scopes 194
    8.6.1.1 Activity Scope 194
    8.6.1.2 Body Scope 194
    8.6.1.3 Location Scope 194
8.7 Google Fit: Developer Responsibilities 195
  8.7.1 Developer Terms and Conditions 195
  8.7.2 Developer Branding Guidelines 195
8.8 Procuring Sensor Peripherals 195
8.9 Hello Fit: hands-on example 195
  8.9.1 Google Play Services library project, dependency 196
  8.9.2 Using the SHA1 fingerprint of the keystore 198
  8.9.3 Google Developer’s Console Activating Fit API 200
  8.9.4 Creating the Android App 202
8.10 Google’s Fit App 211
8.11 Google Settings App 211
References and Further Reading 212

9 Google Fit API 213

9.1 Google Fit API 213
9.2 Google fit main package (com.google.android.gms.fitness) 213
  9.2.1 Fitness class 214
  9.2.2 FitnessActivities class 216
  9.2.3 FitnessStatusCodes class 216
  9.2.4 BleApi interface 217
  9.2.5 SensorsApi 218
  9.2.6 RecordingApi 219
  9.2.7 SessionsApi 220
  9.2.8 HistoryApi 221
  9.2.9 ConfigApi 222
9.3 data sub-package 223
  9.3.1 Device 223
  9.3.2 BleDevice 223
  9.3.3 DataSource 224
  9.3.4 DataType 225
  9.3.5 DataPoint 225
  9.3.6 Field 227
  9.3.7 Value 228
  9.3.8 Subscription 228
  9.3.9 DataSet 229
  9.3.10 Session 230
  9.3.11 Bucket 230
9.4 request sub-package
  9.4.1 StartBleScanRequest 232
  9.4.2 BleScanCallback 233
  9.4.3 SensorRequest 233
  9.4.4 DataSourcesRequest 233
  9.4.5 OnDataPointListener 234
  9.4.6aDataReadRequest 234
  9.4.7 DataDeleteRequest 235
  9.4.8 SessionInsertRequest 236
  9.4.9 SessionReadRequest 236
  9.4.10 DataTypeCreateRequest 236
9.5 result sub-package
  9.5.1 BleDevicesResult 237
  9.5.2 DataSourcesResult 238
  9.5.3 ListSubscriptionsResult 238
  9.5.4 DataReadResult 238
  9.5.5 SessionReadResult 239
  9.5.6 SessionStopResult 239
  9.5.7 DataTypeResult 239
9.6 service sub-package
  9.6.1 FitnessSensorService 242
  9.6.2 FitnessSensorServiceRequest 242
  9.6.3 SensorEventDispatcher interface 243
References and Further Reading 243

Part V Real-World Applications 245

10 Real-World Applications 247
10.1 Real-World Applications 247
10.2 Handheld Application Extension 247
10.3 Home Automation
  10.3.1 Home Entertainment 248
  10.3.2 Gaming 248
10.4 Wearables at the Workplace 248
10.5 Fitness, Health, and Medical
  10.5.1 Predictive and Proactive Consumer Health 249
  10.5.2 Wearables for Medical Professionals 249
  10.5.3 Wearables and Remote Medical Diagnostics 249
10.6 Industrial Manufacturing 250
10.7 Civic, Government, and Democracy 250
References and Further Reading 250
