Discovery Principles 81
Discovery and Open Innovation 83
Discovery Progression: Capturing Innovation Opportunities 85
Opportunity Recognition 85
Application Generation and the Business Vision 89
The Discovery Toolkit in Brief 92
Standard Tools 93
Idea Uncertainty Assessment Tool 93
Genesis Pad Opportunity Description 93
Opportunity Screening Criteria 96
Opportunity Potential Questions 97
Uncertainty Identification Checklist for Discovery 99
Opportunity Stakeholder Positioning Steps 99
Plant or Discovery Value Pitch 99
Advanced Tools 104
Words of Caution 107
Plant Your Value Pitch: Making the Transition to Incubation with Your Opportunity Concept 107
Notes 109

CHAPTER 7: Opportunity and the Entrepreneur

Opportunity Recognition 112
Technology to Market Opportunity 114
The Challenge for Universities to Commercialize Technologies 116
The Big XYZ 118
The Value Proposition 119
The Positioning Statement 121
Notes 122

CHAPTER 8: Entrepreneur and Corporate Entrepreneur Perspectives: Pursuit of Opportunities

Getting from Idea to Opportunity 123
Attracting Attention 125
Note 127
PART III  PIVOT = INCUBATION—THE MISSING LINK

CHAPTER 9: Incubation—Discipline Together with Chaos

Incubation Principles 133
   Incubation Objectives 136
   Incubation Activities and Processes 137
Incubation and Living With Chaos: The Learning Plan 142
   Short, Quick, Inexpensive Learning Loops 143
   The Learning Plan Methodology 144
   Dimensions of Uncertainty 148
   Learning Loop Development Process 152
      Initiating a Learning Loop 152
      Evaluating Learning Outcomes 153
      General Guidelines 153
   Notes 155

CHAPTER 10: Early Market Engagement: Business Concept Options

Incubation Progression: Market Learning and Business Model 158
   Market Learning 160
   Business Model 164
Market Development Considerations 166
   Learning versus Product Prototype 166
   Market Entry Approach 167
      Forget about Finding the Killer Application 167
   Be Out There 168
      Move from Office to Market 168
   Market Development = Market Learning 169
      Follow the Long and Winding Road 169
Innovation Roles 169
   Building the Team 169
   Success Depends on People 171
The Incubation Toolkit in Brief 173
Standard Tools 173
   Learning Plan Design Template 173
   Uncertainty Identification Checklist for Incubation 174
Contents

Technical and Market Concept Testing Approaches 174
Technical and Market Concept Testing Outcomes 176
Genesis Pad Solution Description 176
Transition Readiness Questions 177
Pivot or Incubation Value Pitch 179
Advanced Tools 180
Learning Approach Value and Coaching Requirements 182
Accelerated Learning to Achieve Faster Results 182
Consistent and Timely Coaching Required 184
Pivot to Your Evolved Value Pitch: Making the Transition to Acceleration with Your Concept Proposal 185
Notes 187

CHAPTER 11: Business Experiments 189
Knowledge Construction 190
Define Assumptions 194
Define Markets 196
Define CTA and Analytics 198
Define Product 200
Note 201

CHAPTER 12: Validated Learning = Knowledge 203
Business Model 204
Start Executing Experiment 206
Execute: Product, Market Group, and Call to Action (CTA) 207
Execute: Assumptions and Analytics 208
Execute: Confidence, Results, and Knowledge Loop 209
Business Plan 212
Notes 216

CHAPTER 13: Entrepreneur and Corporate Entrepreneur Perspectives: Incubation and Hypothesis-Driven Learning 217
Learning Is the Antidote to Uncertainties 218
Learning How to Learn 219
Pivot Startup Methodology and Learning Plan 220
Making the Case for Investment 221
