abrasion, and tooth wear 90, 171
abutments
  abutment failure in a 3-unit FDP 45, 46
  for complete maxillary removable prosthesis 253, 254
multi-unit 133, 183–4
prefabricated 56
telescopic 308, 310, 311
temporary 55, 58
wax-up for 129
ACC (all-ceramic crowns)
  complication rates in 104
  implant-supported 133
adaptation to treatment 14
aesthetics (in treatment planning) 23, 25, 26, 29
ALARA principle (in radiation exposure) 63–4
all-ceramic crowns see ACC
altered cast technique 385, 390, 391
amalgam restorations, outcomes 103
amitriptyline (in treatment of orofacial pain) 38
analgesics (for orofacial pain) 38
anatomical landmarks (in treatment planning) 25
angular cheilitis 29, 275, 276
anterior open-bite, and osteoarthritis 347
anterior open-bite, restoration of
  in tooth agenesis case 327, 330
  in tooth wear case 144
anticonvulsants (in treatment of orofacial pain) 38
arthralgia 33
articulated study casts 28, 69, 70
  see also study casts
articulators (in treatment planning) 25
attrition, and tooth wear 25, 28, 90, 171, 401
auscultation, temporomandibular joint examination and 64
autonomy, patient 27
bioethics and patient consent 19
  see also ethics
biological approach to diagnostic planning 45–52
biological basis of case assessment 3, 23, 14–25
biological width 104, 132
bisphosphonates (for osteoporosis) 132, 260
bone alterations and implants 64, 133, 134, 190–1, 205, 390–1, 406, 407, 408
bone quality and implant failure 189, 408
Boolean logic 10, 12, 14
bridge see fixed partial denture
broken down dentition 171–2
bruxism 39, 61, 90, 164, 171
  see also parafunction
CAD-CAM surgical guides 48, 70–1, 260
  see also NobelGuide
cancer, of oral cavity see tumour surgery and oral rehabilitation
cantilever FDP 190, 332, 333
capsaicin, topical (in treatment of orofacial pain) 38
carbon-fibre posts 88
case management, protocol for 69
casts, diagnostic see study casts
Centre for Evidence-Based Medicine 3, 8, 9
ceramic restorative materials 104
ceramo-metal restorations, survival 235
cerebro-metabolic restorations, survival 235
  complication rates 104
clefting
  aetiology 295
  incidence 294–5
  management 295
cleft lip and palate, oral rehabilitation 294–315, 299, 301, 306, 308, 309
  case history 296–315
clefts, classification of 294
clinical reviews (post-treatment) 70, 71
clinician–patient relationship
  consent and 19–21
  normative values and 27
  and patient satisfaction with prostheses 64
CMC see ceramo-metal restorations
co-analgesics (in treatment of orofacial pain) 38
Cochrane Collaboration 3, 6, 14, 15
Cochrane Library 3, 6, 7, 8, 10, 13, 14, 15
combination analgesics (in treatment of orofacial pain) 39
compensatory tooth eruption 25–6, 401
complementary search statements 9
see also search statements (in literature search design)
complete denture use, effects of 262
composite resin restorations 26, 103, 235, 361, 402
crown preparation, segmental technique 46, 48–52
delivery of crown 85, 88
crown, tooth-supported
modes of failure 389
risk factors for 133
Curve of Wilson, reduction of 164
data analysis (in treatment planning) 28–30, 69
definitions see terminology
Dental Education at the Crossroads – Challenges and Change 3
dental extractions, complete 262
dental implants see implants; treatment planning
dental occlusal appliances (and TMDs) 39
dental occlusion see occlusion
dentist–patient relationship see clinician–patient relationship
dentures
bone loss and 407
construction of 272, 273
implant-supported 182, 389
impression techniques for 271
removable partial, outcomes 332–3
see also fixed partial dentures, provisional
developmental complications see cleft lip and palate
diabetes
and implant failure 189
and periodontal disease 64, 189
and surgery 132
diagnostic planning for tooth preparation 45–52
diazepam (in treatment of orofacial pain) 38, 39
DIEM protocol 190
differential wear in prostheses 62, 63, 63
direct composite veneer restoration
in patient with tooth agenesis 330–9, 336, 337, 338
see also composite resin restorations; direct veneers
direct restorative materials, outcomes 103–4, 235
disc displacement 33
dislocation, temporomandibular 33
Durafill (restoration material) 103
early loading, of maxillary complete implant-borne FDPs 291, 407–8
edentulous sites, risk assessment for 28–9, 29
edentulism, complete 262–3
restoration of (case study 1) 264–77
(case study 2) 278–93
edentulous sites, risk assessment for 28–9, 29
endodontally treated teeth see non-vital teeth
erosion, and tooth wear 90, 171
ethics, professional 19, 25–6
evidence base in dentistry 3–4, 6–15, 26, 70
Evidence-Based Dentistry 3
Exact Tooth Wear Index 90
expansion and contraction (in literature search design) 9, 9–10
extraoral examination
(in treatment planning) 28, 70
at recall visit 54
face bow 25
facial form (in treatment planning) 23, 25
ferrule effect, 88, 132, 134
fixed dental prostheses (FDPs)
implant–implant, outcomes 361
implant–tooth, outcomes 361
limitations of 45
materials used for 260
modes of failure 389
risk factors 133
outcomes 205, 260, 332, 333, 333
tooth-supported 235, 332, 333, 389, 403
trial insertion of 29
see also cantilever FDP
fixed full-arch mandibular prosthesis 188, 189
fixed full-arch maxillary prosthesis see maxillary implant-supported three-unit FDP
fixed partial dentures, provisional 57
fluoride, effects of 262
fracture, of FDPs 61, 63, 64, 70, 389, 390, 403, 404, 408
free terminology (in literature search) 11–12
gastro-oesophageal reflux disease (GORD), and tooth wear 90
gingival margins, of maxillary anterior teeth 88
gingival zenith, and implant planning 88
GORD see gastro-oesophageal reflux disease
group function, development after prosthesis fitting 62, 63
health law, consent and 20, 21
healthy teeth, survival in implant patients 332
Helimolar (microfill composite) 103
Herculite (composite restoration material) 103
hybrid composites 103, 235
hypodontia 316
imaging 26, 28, 29, 35, 63–4, 70–1
immediate loading 53, 191, 232, 408
‘immediate restoration’ (definition) 53
implant failure
bone quality and see bone quality and implant failure
diabetes and see diabetes and implant failure
and early loading 407–8
in implant-supported mandibular fixed prostheses 408
in patients with tooth agenesis 316
and periodontitis 189
smoking and see smoking and implant failure
implant loading see delayed loading; early loading; immediate loading
implant success, assessment 134
implant-supported crowns 189, 190, 233
risk factors 133
survival 235, 332
implants, increasing use of 45–6
implants, complications of 205–6
success rate vs. endodontic treatment 332
impression materials, in provisional crowns 56
incisal edge
position assessment 333
in severely worn teeth 120, 176
widening of in severe bruxer 61
infections, post-surgery 133, 189
information sources, selection of 6–9
