Index

Access panel 142
Administrative data 56–8, 100
Anthropometric measurement 46–7
Attitude questions 113, 382
Attrition, see Sample attrition
Auxiliary data 141–54, 320

Between-wave intervals, see Intervals between waves
Birth cohort studies 3, 211, 290
Births 22, 29–30, 267
Bootstrap weights 341, 352
Bounding 7
British Cohort Study (BCS70) 290
British Election Panel Survey (BEPS) 206, 221
British Household Panel Survey (BHPS) 44, 100–7, 117–22, 158, 161, 163, 184, 189, 206, 213, 215, 222–9, 267, 385

Calibration 144–9, 274–85
Call attempts 161, 177, 194, 197
Canadian National Longitudinal Survey of Children and Youth (NLSCY) 97–8, 213, 217
Canadian National Population Health Survey (NPHS) 341–4, 361–4
Causality 6, 306, 333, 348, 383
Changes in question structure 130
Check-all-that-apply questions 130
Child poverty 57
Clustering, see Sample clustering
Codes of practice 35

Coding 99, 105
Coding variation 99, 107
Concurrent interviewing 49
Consent bias 64
Constant wave response 95, 99, 107, 373
Consumer panel 235–48
Contacting sample members 160–1, 171, 172, 183–201
Correlated classification errors 367–79
Coverage error 15

Data collection modes 14–15, 127–37, 164, 188, 236, 245–6
Data linkage 41–2, 55–69
Data Protection Act (DPA) 68
Date questions 7, 108
Deaths 29–30
Dependent interviewing 17, 49–50, 73–4, 75–8, 89–90, 93–109
Design effects 27
Deterministic matching 59
Differential incentives 210, 230
Disclosure risk 50
Discontinuous panel 236
Double robustness 317, 322–3
Drop-down menus 131
Duration of spells 5, 335
Duration of the survey 14

Earnings questions 104
Edit checks 96, 97
Employment transitions 85, 105–6
England and Wales Youth Cohort Study (EWYCS) 206, 221–2
English Longitudinal Study of Ageing (ELSA) 41, 44, 64, 68, 189, 213, 215–16
Epidemiological studies 3
ESRC Research Ethics Framework 36
Establishment surveys 2, 14
Estimates of change 5, 73–74, 127, 149–50, 377
Ethics 35–53
Ethics committees 36, 39, 52
European Community Household Panel (ECHP) 158, 161, 162, 164, 189, 267
European Union Statistics on Income and Living Conditions (EU-SILC) 2, 109
Evaluation of interventions 303–15
Event history analysis 333
Expectation-maximization (EM) estimation 150–1, 338
Expectation questions 8
Experimental design 99–100, 218–22, 244–6, 306
Families and Children Study (FACS) 44, 56
Fixed panel 21–2
Follow-up rules 266
Forced choice questions 130
Forgetting 7, 373
see also Recall
Freedom of Information Act 68
French Labour Force Survey 371–8
Frequency of events 5, 107–8
Gallup Poll Panel 235, 237–48
Generalized estimating equations (GEE) 252, 352, 354–6
Generalized linear models 252
German Socio-Economic Panel (GSOEP) 158, 161, 163, 164, 184, 189, 213, 216, 267
Graphical models 381–91
Gross flows 5, 367–79
Growth function 287–8
Hazard function 335, 347
Hazard modelling 5
History data 6, 94, 105–6, 373
Household, Income and Labour Dynamics in Australia (HILDA) Survey 167–78, 213, 217
Household panel surveys 3, 265
Imputation 99, 144, 150–3, 317–29
Incentives 16, 44, 162, 205–30, 236
Income questions 78, 79, 100, 104
Income transitions 79, 87–9
Inconsistencies 97
Independent classification errors (ICE) 367
Informative sampling 251–63
Informed consent 35, 38–43
Intention questions 8
Interactive voice response surveys 128, 131
Interest in politics 122
Intervals between waves 7, 13
Interview duration 95, 97, 163, 211
Interviewer continuity 50, 161, 162, 171, 177
Interviewer presence 135
Interviewer-respondent relationship 48, 97, 162, 244
Interviewer workloads 161, 171, 177
Item nonresponse 87, 95, 96, 97, 163, 208, 279, 317–18
Iterative proportional fitting 145
Kernel density estimation 336
Keying error 97, 107
Latent class analysis 368
Locating sample members 159–60, 184–201
see also Tracking
Log-linear models 369
Longitudinal Study of Young People in England (LSYPE) 1
Marginal mean models 351–65
Maximum likelihood (ML) estimation 318, 322
Measurement error 16–17, 73, 94–109, 310, 367, 373, 384–5, 390
Medical Expenditure Panel Survey (MEPS) 61, 67
Medical research 35, 37
Medicare coverage 85
Medicare Current Beneficiary Survey (MCBS) 61
Millenium Cohort Study (MCS) 1, 61, 64, 65, 67, 211
Misclassification 7, 99, 107
Misdating 99, 373
Misplacement in time 7
Missing completely at random (MCAR) 154, 318, 257
Missing by design 143
INDEX 395

Missing at random (MAR) 154, 257, 318, 326
Mixed mode surveys 127–3
Mobility of sample members 172, 184
Model identification 370
Model mis-specification 320, 323
Mode-specific question construction 132
Multiple imputation 151–3, 317–29

National Child Development Study (NCDS) 290
New Beneficiary Survey 61
Non-contact 16, 207, 317
Nonignorable dropout 251–63
Non-response adjustment 141–54, 253–5
Non-response follow-up 97
Not missing at random (NMAR) 154, 257, 318, 329

Odds ratio 354–6
Omissions 97, 99, 100
Open-ended questions 95, 99, 131
Opinionation 121–2
Overlapping survey 22, 30–1
Oxford Record Linkage Study (ORLS) 61

Panel attrition, see Sample attrition
Panel conditioning 9, 113–24, 136, 236, 308
Panel management 143
Panel recruitment 142, 143, 236, 237
Panel Study of Income Dynamics (PSID) 157, 164, 189, 190–6, 212, 214, 267, 271
Paralanguages 132
Path analysis 381
Population definition 11, 23–4, 266–8
Proactive dependent interviewing 95, 97–8, 100, 104
Probabilistic matching 59
Programme participation 79, 303–5
Propensity score 306–7, 321
Public assistance programmes 84

Qualifications questions 106
Question wording 77–8, 99, 128, 130–1

Random digit dial (RDD) surveys 235, 237
Rare populations 8
Reactive dependent interviewing 87, 96–7, 100, 104

Recall 6, 75, 95, 97, 368, 373
Recognition 95
Record linkage methods 58–61
see also Data linkage
Redundancy of questions 97
Reference period 6, 85, 86, 90, 94, 99, 100, 106–8, 371
Refusals 16, 159–60, 165–7, 207, 222, 244, 317
Reliability 119–20
Repeated measures 3, 287–301, 307, 318–20, 351, 385
Repeated panel 22, 309
Representativeness 62
Respondent burden 28, 41, 49, 76, 95, 96, 97, 134, 207, 238, 242, 246
Respondent co-operation 129, 162–4, 171, 177–8, 235, 279
Respondent feedback 47–8, 238
Respondent motivation 99, 162
Response rate 9, 10, 13, 25, 129, 205, 229, 235
Responsive design 201
Restricted maximum likelihood (REML) estimation 318, 322
Retrospective questions 99, 371
Rotating panel 22, 28–9, 371
Rotation period 28–9
Routing 99, 133–4

Sample clustering 26, 352, 388
Sample design 11, 21–32, 252, 253–5, 256–7, 268, 334, 352, 390
Sample maintenance 61–2, 183–4
Sample size 25–6
Sampling error 16
Sampling strata 27, 388
School leaver surveys 2
Scottish Longitudinal Study 58
Seam bias, see Seam effects
Seam effects 17, 73–90, 94–5, 106
Selection probabilities 28
Self-completion questionnaire 128, 130–1, 177, 206–7
Semiparametric efficiency 323
Sensitive questions 47
Sensitivity analysis 329
Sliding scales 131
INDEX

Social desirability effect 135, 136, 137
Split panel 22, 115
Spurious change between waves 94–5, 99, 105–6, 107
Stability 5, 95, 99
Stability of attitudes 120–1
Statistical modelling 287–301
Stratification, see Sampling strata
Structural equation modelling (SEM) 253, 381–91
Survey costs 10, 105
Survey of Health, Ageing and Retirement in Europe (SHARE) 2
Survey of Income and Program Participation (SIPP) 61, 74, 158, 164, 212, 216, 218, 220
Survey of Labour and Income Dynamics (SLID) 63, 211, 344–7
Survey-weighted estimating equations (SEEI) 354
Survival analysis 5, 347
Survivor function 335
Swiss Household Panel (SHP) 211, 218
Tailored incentive strategies 209, 219–20
Tailored questioning strategies 7, 74, 95
Telephone Number Portability Act 187
Telescoping 7, 98, 373, 375
Temporal association 333–48
Time-in-sample bias, see Panel conditioning
Timing 5
Total survey error 15
Tracking 14, 39, 61–2, 157, 160, 188–202
Trimming weights 146
UK Labour Force Survey 251, 260–2
UK Offending, Crime and Justice Survey (OCJS) 1
UK Office for National Statistics Longitudinal Study (ONS-LS) 57–8
UK Wealth and Assets Survey 1
Under-reporting of change 94, 104
Under-reporting of events 104, 107
Understanding Society: the UK Household Longitudinal Study 1
Unified mode question construction 132
US Current Population Survey (CPS) 63
US Health and Retirement Study (HRS) 44, 64, 65, 189, 196–200, 212, 215–16, 220
US National Change of Address Register (NCOA) 187
US National Longitudinal Survey of Youth 1979 (NLSY79) 106–7, 158, 163, 164, 212, 214, 220
US National Survey of Parents and Youth 311
Validity 114
Voting behaviour 114–15
Weighting 12, 261–2, 265–85, 306–7, 312, 334, 340–1, 385, 388, 391
Willingness to respond 129
Written consent 64, 68
