Index

A
Academic history, 145–146
Academic learning and knowledge, 3, 28–29
Academic skills, 3
Accommodations for memory problems, 304
Achievement scales, 211–213, 221
Acquired brain injury, 94–99. See also traumatic brain injury
ADHD, 50, 84, 110–111, 120
assessment of children with, 111
interventions for children with, 111
Administration of memory tests, guidelines for, 157–159
Alzheimers, 260
Amnesia, 87–89
anterograde, 88–89
developmental, 113–114
DSM-IV criteria for, 87
post-traumatic, 91, 94–95, 258, 315
retrograde, 88–89
Amygdala, 67
Analysis of memory testing results worksheet, 163–168, 337
procedures for, 165–168
Analysis of test scores. See cross-battery analysis of test scores
Anoxia. See asphyxia
Aphasia, 108
ARROW strategy, 296
Articulatory loop, 17
Asphyxia, 100
Asthma medication, 107
At-risk children:
assessment of, 126–127
findings that apply to all, 123–126
intervention implications, 127–128
Attention, 36, 84
Auditory processing, 85
Autism, 111–112
Autobiographical memory, 28, 30–31. See also episodic memory
Axons, 60

B
Baddeley’s working memory model, 17–20, 23–24
Behaviors indicative of long-term memory problems, 150–151
Bilirubin, 100
Binding, 28
Bipolar disorder, 118

Vanishing cues, 303–304
Verbal abilities, 84–85
Verbal episodic memory, 176, 329–330
assessment of, 133
interpretation of, 168–169
interventions for, 266
Verbal working memory, 22, 177, 329
assessment of, 132–133
Visual-auditory learning, 175
Visual imagery, 22
Visual representations in the classroom, 293–294
Visuospatial episodic memory, 176–177, 330
assessment of, 135
interpretation of, 169
interventions for, 266
Visuospatial processing, 85
Visuospatial short-term memory, 19–20, 68–69, 177, 330
assessment of, 132
neuroanatomy of, 68–69
visual component, 19
spatial component, 19
Visuospatial working memory, 22–23, 177, 330
assessment of, 133

W
Wechsler Adult Intelligence Scale-Fourth Edition (WAIS-IV), 83–85, 327–328
Wechsler Intelligence Scales, 214–217
subtests, 214–217
Wechsler Memory Scale-Fourth Edition (WMS-IV), 83–85, 200–205, 316–318
case study, 204–205
critique of, 203, 205
interpretation of, 203, 328–330, 332
subtests, 202–203
technical properties, 201–202
Wide Range Assessment of Memory and Learning, Second Edition (WRAML2), 196–200
critique of, 200
interpretation of, 199–200
subtests, 198–199
technical properties, 196–197
Williams Syndrome, 112
WISC-IV Integrated, 217–218, 316–318
subtests, 218
Woodcock-Johnson III, 218–221
Diagnostic Supplement, 219–221
Tests of Achievement, 219, 221, 319, 328, 331
Tests of Cognitive Ability, 218–221, 316–317, 319, 328–331
