Introduction	xiii
Chapter 1 ■ The Revit Architecture User Interface	1
The Home Screen	2
The Main Screen	3
Chapter 2 ■ Views	15
Zoom and Pan Tools	16
View Properties	21
Other View Controls	32
Adding New Views	35
Chapter 3 ■ Modeling	43
Levels	44
Basic Editing Tools	50
Creating and Modifying Column Grids	61
Walls	65
Modifying Wall Parameters	69
Defining Wall Structure	73
Creating Doors and Windows	84
Creating Curtain Walls	87
Creating Floors	96
Creating Ceilings	98
Creating Stairs	104
Creating Roofs	109
Chapter 4 ■ Constraints and Dimensions	115
Temporary Dimensions	116
Permanent Dimensions	121
Equality Constraint and Lock	127

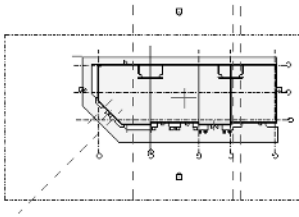

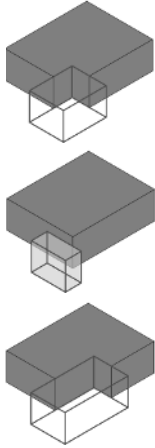

Spot Dimensions	130
Units	132
Chapter 5 ■ Visibility Controls	135
Essential Concepts of Visibility	136
Object Styles	137
Properties Palette for Views	138
Visibility/Graphics Overrides	149
View Range	152
Filters	157
View Templates	160
Linked Files	161
Worksets	164
Chapter 6 ■ Introduction to Families	167
Understanding Family Organization	168
Working with Families	173
Chapter 7 ■ Massing	183
Mass Objects	184
References and Work Planes	187
Preparing to Create Mass Forms	191
Editing Forms	206
Loadable Mass Families	218
Face-Based Modeling	225
Creating Mass Families from Imported Geometry	232
Chapter 8 ■ Groups	235
Group Organization	236
Creating and Editing a Group	236
Placing a Group	238
Special Changes to a Group	239
Saving, Loading, and Reloading Groups	242
Practical Considerations	244

Chapter 9 ■ Rendering	249
Rendering Workflow	250
Setting the Background	261
Adding and Adjusting Material	263
Real-Time Rendering	268
Chapter 10 ■ Working with Other Files	269
Linking Revit Models	270
Controlling Display	273
Working with CAD Files	283
Exporting DWF Files	294
Using Raster Files	297
Chapter 11 ■ Rooms and Areas	299
Rooms	300
Areas	308
Chapter 12 ■ Tags, Schedules, and Keynotes	315
Tags	316
Schedules	320
Keynotes	327
Chapter 13 ■ Detailing	335
Detail and Drafting Views	336
Component Symbol Fundamentals	337
Detailing Tools	345
Creating and Managing Detail Libraries	355
Chapter 14 ■ Sheets	359
About Titleblocks and Sheets	360
Setting Up Sheets	373
Organizing Sheets	380
Exporting Sheets and DWF	383
Chapter 15 ■ Design Options	389
Design Options Terminology	390
Setting Up Design Options	392

Editing Design Options	393
Applying Design Options to Views and Accepting the Primary	395
Tags and Annotation in Design Options	398
Chapter 16 ■ Phases	401
Phasing Tools	402
Phases	405
Infill Elements	409
Demolishing Elements	411
Rendering and Existing Phases	412
Chapter 17 ■ Creating Families	415
Preparing to Create a Family	416
Examining the Tool Chest	424
The Bigger Picture and Advanced Concepts	446
Dissecting Some Practical Examples	452
Chapter 18 ■ Revisions	465
Numbering Revisions	466
Drawing Revision Clouds	468
Issuing a Revision	470
Chapter 19 ■ Collaboration	473
Coordinating Work Across Disciplines	474
Exporting to Non-Revit Formats	481
Index	497
