CONTENTS

1. Reactions of Aldehydes and Ketones and their Derivatives
   by B. A. Murray .......................................................... 1

2. Reactions of Carboxylic, Phosphoric, and Sulfonic Acids and their Derivatives
   by C. T. Bedford ....................................................... 55

3. Oxidation and Reduction by K. K. Banerji .......................... 79

4. Carbenes and Nitrenes by E. Gras .................................. 155

5. Nucleophilic Aromatic Substitution by M. R. Crampton .......... 175

6. Electrophilic Aromatic Substitution by M. R. Crampton .......... 191

7. Carbocations by R. A. McClelland .................................. 213

9. Carbanions and Electrophilic Aliphatic Substitution by M. L. Birsa 265

10. Elimination Reactions by M. L. Birsa ................................. 285

11. Addition Reactions: Polar Addition by P. Kočovský .............. 299

12. Addition Reactions: Cycloaddition by N. Dennis ................. 363

    by J. M. Coxon ............................................................ 393

14. Molecular Rearrangements: Part 2. Other Reactions by A. Brandi
    and M. Gensini .......................................................... 419

Author Index ........................................................................ 457
