Foreword by Dame Kate Barker xv
Preface xvii
Notes on Contributors xxi

1 Introduction 1
Tony Crook, John Henneberry and Christine Whitehead

Purpose of the book 1
The development process and the creation of development value 2
The taxation of development value 4
Factors affecting effective development value capture 6
Property rights and ownership 7
The need for finance 8
The ownership of development rights 9
Taxing value or raising charges 9
Rules versus discretion? 9
Fixed taxes, tariffs and negotiated contributions 10
Hypothecation and contract 11

Key factors behind the development of planning gain policy in England 11
Political economy 12
The planning system 12
Central–local relations: Local discretion, innovation and adoption 14
Definitions 15
The structure of the book 16

2 The Economics of Development Value and Planning Gain 20
Christine Whitehead

Introduction 20
Why is land and its value special? 21
The potential to tax increasing land values without generating inefficiency 22
The impact of planning on development values – the creation of planning gain 25
How are these values achieved? 25
Planning affects land supply 26
Planning affects demand 27
Table of Contents

Planning affects density of construction and use 28
Planning affects prices and quantities 29
Bringing together the possibilities 29
Instruments available to capture planning gain 32
Overview 34

3 Capturing Development Value Through *de jure* National Taxation: The English Experience 37
Tony Crook

Introduction 37
Betterment and development value defined 39
Compensation and betterment: the Uthwatt principles 43
Taxing development value: post-war national schemes 46
  1947: The development charge and the central land tribunal 48
  1967: Betterment levy and land commission 51
  1974, 1975 and 1976: Development Gains Tax, the Community Land Scheme and Development Land Tax 54
Lessons learned 59

4 Planning Obligations Policy in England: *de facto* Taxation of Development Value 63
Tony Crook

Introduction 63
Planning obligations: the key principles 65
Using planning obligations to secure land and funding for affordable housing 74
  The overall framework 74
  Detailed requirements 79
Recent policy initiatives 83
  Tariffs 85
  Optional planning charge 86
  Planning gain supplement 88
  Community infrastructure levy 93
  Changes to CIL and new LPA incentives 97
  Viability and S106 99
  CIL policy: concluding comments 100
Conclusions 101

5 Development Viability 115
John Henneberry

Introduction 115
Development viability 117
  Threshold land value 120
Development appraisal 121
  Property development within the wider property market 121
  Development appraisal 123
Estimating the residual value of a residential development site 124
Assessing the impact of planning obligations and developer's contributions on the viability of development proposals 130
Accounting for spatial and temporal variations in the development market 133
Conclusion: addressing the viability dilemma? 136

6 The Incidence and Value of Planning Obligations 140
Steven Rowley and Tony Crook

Introduction 140
The growth of obligations 140
Methods for measuring the incidence and calculating the value of planning obligations in England 145
The number of obligations in England 151
Affordable housing obligations in England 155
The total value of planning obligations agreed in England 160
Planning obligations in Scotland and Wales 162
Rural exceptions schemes 163
Who pays for the obligations? 164
Conclusions 171

7 Spatial Variation in the Incidence and Value of Planning Obligations 175
Richard Dunning, Ed Ferrari, and Craig Watkins

Introduction 175
Defining and disseminating good practice in planning obligations 177
  Review of earlier evidence 177
  Good practice research and advice 178
  Implications of evidence and good practice guides 184
  A note on Scotland and Wales 185
Regional variations in the value of planning obligations 185
Quantitative analysis of the drivers of the incidence and value of planning obligations 187
Qualitative explanations for spatial variations in planning obligations 192
  The changing practice context 192
  Stretching the ‘rational nexus’ 195
  Delivery 196
Conclusions 197
8 Delivering Planning Obligations – Are Agreements Successfully Delivered?  
*Gemma Burgess and Sarah Monk*

## 10 Summary and Conclusions 269

_Tony Crook, John Henneberry, and Christine Whitehead_

- Introduction 269
- Policies for capturing development value 270
  - National approaches 270
  - Locally based approaches 271
  - International experience 274
- Overview 275
- The economics of planning obligations 276
  - The sources and measurement of value 276
  - The complexities in assessing development gain 277
  - Planning constraints 279
  - Approaches to capturing gains 280
- The financial aspects of planning obligations 281
- Conclusions 285
  - Looking forward: England 286
  - Looking forward: international experience 288
