- abdominal auscultation 238–239
- donkeys 477
- indications for surgery 286
- abdominal bandages
  - foals 432
  - incisional complications 629, 630
- abdominal circumference, measurement 415
- abdominal closure
  - foals 432
  - incisional infection risk and 630
  - linea alba closure 604–607
  - paramedian approach 607
  - peritoneal suturing 604
  - skin closure 608
  - surgical techniques 604–608
  - two vs three layers 607–608
- abdominal distention 231–232, 233
- anesthesia induction 515
- abdominal drainage
  - peritonitis 365, 633
  - uroperitoneum 456
- abdominal lavage
  - adhesion prevention 158–159, 161
  - peritonitis 365–366
  - postoperative septic
    - peritonitis 633, 634
  - uterine trauma 827
  - via celiotomy 366
- abdominal neoplasia see neoplasia, abdominal
- abdominal pain
  - adhesions 155, 161
  - assessment see pain assessment
  - enteritis and colitis 167–168
  - manifestations 119–122, 227–230
  - pathophysiology 126–128
  - principles and goals of treatment 134–135
  - somatic pain simulating 129–130
  - see also colic; pain
- abdominal paracentesis see abdominocentesis
- abdominal radiography 281–282
  - foals 282, 418–419
  - gastric impaction 669
  - indications for surgery 428
- abdominal surgery see surgery, abdominal
- abdominal trauma 843–847
  - blunt 843, 844, 847
  - diagnostic approach 843–846
  - hemoperitoneum 367
  - laparoscopy 845–846
  - penetrating 843, 844, 845, 846
  - physical examination 843–844
  - treatment 846–847
- abdominal tunic disorders 824–825, 840
- abdominal ultrasonography see ultrasonography
- abdominal wall muscular ruptures 824–825, 840
- abdominocentesis 251–256
- abdominal trauma 844
  - foals 251, 416–417
  - hemoperitoneum 252–253, 254, 369
- malabsorption syndromes 812
- peritonitis 363
- postpartum mares 825–826
- procedure 251–252
- sand impaction 752–753
- uroperitoneum 456
- see also abdominal drainage; peritoneal fluid
- Aβ-fibers 124
- abortion 833
  - after colic treatment 823
  - during colic surgery 822
  - hydropsical pregnancy 824
- abscesses
  - abdominal see abdominal abscesses
  - perirectal 794
  - peristomal 799
  - sole, surgical drainage 656–657
  - splenic 838
  - umbilical 715
- absorption
  - decreased, enteritis and colitis 169
  - large intestine 41, 45–50
  - small intestine 29–36
- acepromazine 319
- analgesic efficacy 314
- anesthesia 513
- hemoperitoneum 370
- laminitis 648
- postoperative ileus 145–146
- acetic acid 43, 44

suture materials 582–583
descending colon 776, 777
stapled 583
jejunocecal 592–593
jejunojejunal 587, 588
large colon 599–600, 601
techniques in foals 429
Andalusians, inguinal hernia 711
anemia
blood transfusion 345
malabsorption syndromes
anesthesia 511–533
airway management after 531
classification of health status
512–513
depth of, monitoring 444, 518
foals 437–449
induction 514–516
anesthetic agents 513–514
foals 442–443
maintenance 443, 516–518
management of abnormalities 522–530
monitoring during 518–522
foals 443–448
preanesthetic assessment 439–440, 511–513
pregnant mares 822–823
preparation 514
records 518, 519
recovery from 448, 530–533
risk factors for death 437, 513
anesthesia machines
foals 438
with ventilators 523–524
anesthetic agents 513–514
donkeys 478–479
foals 440–442
maintenance phase 516
anesthetic gas analyzer 444, 518–519
angiotensin II 50
anion exchangers 31, 32
anion gap 257, 290
Anoplocephala magna 198
Anoplocephala mamillana 197, 198, 200
Anoplocephala perfoliata 198–199
donkeys 480
ileo impaction 199, 717, 718
intussusceptions 428, 743
anorexia
hyperlipemia 681
nutritional support 497
antacids 667–668
anthelminics 197
colic risk and 217–218, 226
hyperlipemia 684
inflammatory bowel disease 814
parasite control 201, 719
resistance 197, 201
therapeutic use 198, 200, 396
antibiotics see antimicrobial agents
anticoagulants see heparin
antidiuretic hormone (ADH) see vasopressin
anti-endotoxin antibodies
enteritis and colitis 386–387
foals with colic 424
laminitis 650–651
anti-inflammatory therapy
clostridial enterocolitis 394
enteritis and colitis 385–386
laminitis 649–650
peritonitis 365
see also corticosteroids; nonsteroidal anti-inflammatory drugs
antimicrobial agents
abdominal abscesses 849
abdominal lavage solutions 365–366
adhesion prevention 156
cholangiohepatitis 695
chronic active hepatitis 697
clostridial enterocolitis 394–395
donkeys 479
duodenitis-proximal jejunitis 393
effects on gut microbiota 61–62
enteritis and colitis 389–391
equine neorickettsiosis 395
incisional infections 629–630
peritonitis 364–365, 633
pleuropneumonia 839
postoperative, foals 432
preanesthesia 512
rectal tears 792, 794
salmonellosis 394
antimicrobial-associated diarrhea (colitis)
diagnosis 379
pathogenesis 61–62, 172
treatment 395
antipsychotic agents 319
antiseptics, skin disinfection 543–545
anti-ulcer medication see acid-suppressive medication
aorta
rectal palpation 241, 243
rupture 839
aortocaval compression 528
aortoiliac thrombosis 840
aortopulmonary fistulation 839
apoferitin 35, 36
apoptosis 105
aquaporins 32, 49, 50
Arabians
colic risk 215
iatrogenic rectal tears 790
arachidonic acid 106, 189, 314
Archaea 61
arginine supplementation 496
arterial catheterization, foals 445–446
arterial pressure monitoring
anesthetized foals 445–446
anesthetized horses 521, 522
postoperative 616
arterial rupture 839
arteritis, Strongylus vulgaris
larval 195, 768–769
ascarid worms (Parascaris spp.)
200, 201
donkeys 480
small intestinal obstruction 718–719
ultrasonography 273, 274, 718
ascending colon see large colon
aspartate aminotransferase (AST) 676, 688
aspirin (acetylsalicylic acid) 315
laminitis 649
postoperative therapy 635
atipamezole 527
ATP, intestinal motility 84, 85, 86
atresia, large intestinal 429, 434, 454–455
atresia ani 454–455
atresia coli 454, 455
atrial fibrillation 529–530
atrial natriuretic peptide (ANP) 50
atrioventricular (AV) heart block 529
atropine 319–322
anesthetized horses 527, 529
effects on borborygmi 238
intestinal motility effects 749
rectal tears 792
rectal tear examination 792
urogenital hemorrhage in mares 828
butyric acid/butyrate absorption 47
mucosal repair after injury and 113
production 43, 44
B vitamins 45
bypass procedures abdominal abscessation 851
cecal impaction 741–742
cecal intussusception 745
duodenitis-proximal jejunitis 393
gastric outflow obstruction in foals 429–431, 452–453
large colon volvulus 601
see also resections and anastomoses; small intestinal resection and anastomosis
Ca2+‐ATPase (calcium pump) 36
calbindin D28K (CaBP) 35–36
calcitonin gene‐related peptide (cGRP) 83–84, 126, 140
calcium (Ca2+) 336–337
absorption 35–36
deficit, calculation 423
plasma 257, 290, 337
corrected 337
monitoring 621
replacement therapy 347
calcium borogluconate 347, 385
anesthetized horses 527, 528
foals 423
preanesthesia 512
caloric requirements 495–496
capillary refill time (CRT) 235, 236
monitoring during anesthesia 445, 447, 521, 522
postoperative monitoring 615
capnography 444, 520, 521
capsaicin 88
carbohydrate absorption tests 812–813
carbohydrates absorption 32–34
digestion 27, 28, 32–34
grain-fed horses 66, 491–492
fermentation 43–45
hepatic metabolism 56
overload models 67, 71, 639–640
parenteral nutrition solutions 502
carbon dioxide (CO2)
end tidal see end‐tidal carbon dioxide
monitoring, anesthetized horses 519, 520
carbon dioxide tension, arterial (PaCO2) 334, 335
maintenance during anesthesia 522–523
monitoring during anesthesia 444, 520, 521
carboxymethylcellulose solutions see sodium carboxymethylcellulose solutions
carboxypeptidase 28
cardiac arrhythmias anesthetized horses 526, 529–530
preanesthetic evaluation 512
cardiac output foals 440, 445
measurement 445
cardiovascular disease, painful 839–840
cardiovascular status, assessment during anesthesia 445–446, 521–522
colic 234–235
postoperative 615–616
preanesthesia 511–512
cardiovascular support anesthetized foals 447–448
anesthetized horses 525–530
Carolina rinse 108, 114
carfopren 316–317, 478
case definitions 218, 219
Caslick procedure 131, 833
caspases 186
castor oil 323, 751
catecholamines
anesthetic doses in foals and 438
ileus pathogenesis 140, 145–146
water balance 50
cathartics 323–324, 751
catheters, intravenous see intravenous catheters
caudal epidural anesthesia, rectal tears 799
caudal mesenteric artery 775–776
causes of colic classification of disease categories 224
foals 224, 414, 452–457
signalment‐specific 224
CD14 184–185
cecal diseases 737–746
donkeys 482
prognosis 293–294, 295
cecal distention excess gas see cecal tympany
impactions 739, 740
rectal palpation 246, 247
cecal dysfunction 738–739, 740
cecal impaction 738–742
chronic recurrent 742
clinical findings 738–739
epidemiology 738
monitoring 618
prognosis 293, 295, 742
rectal palpation 246, 738
treatment 740–742
ultrasonography 275
cecal intussusceptions 742–746
prognosis 294, 295, 745–746
treatment 744, 745
ultrasonography 276, 743
cecal tympany 737–738
intraoperative needle aspiration 565, 567
percutaneous decompression 737, 739
ceccoccal intussusception 742–746
clinical findings 743–745
epidemiology 742–743
prognosis 294, 295, 745–746
Treatment 745
ceccolic fold 14, 554, 555
ceccolic intussusception 742–746
clinical findings 743–745
epidemiology 742–743
prognosis 294, 295, 745–746
Treatment 744, 745
ceccocolostomy 741
cecum
anatomy 13–14
donkeys 471–472
exteriorization 553, 555, 568
indwelling catheters, fluid therapy 349
microbial activity 43–45
motility and transit of contents 42, 83
rectal palpation 241–244, 246, 247
resection see typhlectomy
rupture 739, 740
transit of ingesta into 38, 41
ultrasonography 274–275
viability evaluation 576–578
ceftiofur 62, 390
celiac ganglion 86, 87
celiotomy (laparotomy) 549–553
exploratory 549–568
flank see flank laparotomy
inguinal and parainguinal 552
ventral median, foals 552
ventral midline see ventral midline
celiotomy
ventral paramedian 551

cellophane banding, portosystemic shunts 460, 461

central nervous system (CNS), pain pathways 124
central sensitization 129
central venous pressure (CVP) 351, 615–616
cephalic vein catheterization 348
cephalosporins enteritis and colitis 389–390
salmonellosis 394
cereal grain feeding see grain feeding
cerebral edema 679
cervical examination, pregnant mares 819
cesarean section 567
C-fibers 124
chemoreceptors 88
chemotherapy, malabsorption syndromes 815
chenodeoxycholic acid 55, 695
chief cells 9, 10, 24
chloramphenicol clostridial enterocolitis 394
enteritis and colitis 390–391
peritonitis 364
proliferative enteropathy 396

clinopathologic values 290
coagulopathy 290–291
foals after surgery 433–435
peritoneal fluid 291
predictive models 291–292
signalment and history 289–290
ultrasonography and histology 291
use 296, 435
prokinetic agents
adhesion prevention 157
duodenitis-proximal jejunitis 393
enteritis and colitis 388
ileus 144–148, 325–326, 628
proliferative enteropathy see equine proliferative enteropathy
propantheline bromide 322, 792
propionic acid 43, 44
propofol anesthesia 513
donkeys 479
foals 442, 443
propylene glycol 751
prostacyclin (PGI2) 90–91
prostaglandins 314, 315
control of Cl– secretion 37, 38
ileus pathogenesis 141–142
intestinal motility regulation 90–91
NSAID-associated colitis 175
recovery from ischemic injury and 112–113
SIRS pathogenesis 189–190
protectants, gastrointestinal 392–393
protective tissue coating solutions, adhesion prevention 159–160
protein-losing enteropathy 804, 812
proteins
absorption 34
dietary requirements 496
digestion 27, 28, 34
hepatic metabolism 56
microbial 43, 45
peritoneal fluid (total) 253–254, 291, 363
plasma see plasma proteins
Proteobacteria 59, 60, 61
prothrombin time (PT) 677, 687–688
proton (H+,K+-ATPase) pump 24–25
proton pump inhibitors 668 see also omeprazole
protozoal enterocolitis
diagnosis 381
pathogenesis 174–175
treatment 396
pseudodiverticula, small intestine 720–721
psyllium hydrophilic mucilloid 323–324
sand impaction prevention 493, 754
sand impaction therapy 323–324, 753
ptosis, equine grass sickness 785, 786–787
publication bias 211
pulse 234–235
digital 235, 645
postoperative monitoring 615
quality 234, 236
rectal palpation 241 see also heart rate
pulse oximetry 520, 521
foals 445
viability evaluation 575–576, 577
pulse pressure variation 521–522
pupil 120
P-values 213
pyelonephritis 836
pyloric glands 7, 9, 10
pyloric stenosis 668
endoscopy 666
gastroduodenostomy 429–430
see also gastric outflow obstruction
pylorus 6
pyometra 834
pyranelb embonate 197, 200, 718
pyrrolizidine alkaloid intoxication 690–693
clinical signs 691–692
etiology 691
pathology 692
treatment and prognosis 693
Pythium insidiosum 727–728
q
quiescent stem cells 20, 21
r
racing performance, prognosis for 296, 435
radiography
abdominal see abdominal radiography
laminitis 646–648, 653–654
thoracic 281, 282
ragwort (Senecio jacobaea) 690
random error 207
ranitidine 424, 668
reactive oxygen metabolites 106
recovery from anesthesia 530–533
assisted vs unassisted 532
foals 448
rectal ampulla 15, 790
rectal examination 240–251
cecum 246
donkey 472, 477
foals 415
hemoperitoneum 369
indications for surgery 286
large (ascending) colon 246–248
large colon displacement 761
late gestational mares 250
miscellaneous abnormalities 249–250
other findings 250–251
peritonitis 364
procedure 240–244
rectal tears complicating 790–791
small (descending) colon 248–249
stomach and small intestine 245–246
rectal liners, temporary
indwelling 795
rectal mucosal biopsy
equine grass sickness 787
malabsorption syndromes 812
rectal packing/rectal tampon 792–793
rectal prolapse
donkeys 481, 483
foaling mares 826
descending colon lesions 780
rectal tears 790–802
classification 791
clinical signs and diagnosis 791–792
colostomy 795–799
emergency management 792–793
etiology and prevention 790–791
legal issues 791, 792
location 791
medical management 794
primary repair 799–801
nonvisual direct suturing 799–801
ventral midline exposure 801, 802
visualization techniques 799
prognosis 801–802
referred pain 126, 129–131
described in horses 131
theory 130
visceral pain 130–131
reflux, gastric (nasogastric;
enterogastric)
duodenitis-proximal jejunitis 170, 393
enterally-fed horses 501
enteritis and colitis 382
equine grass sickness 727, 785
fluid losses 332
fluid therapy 353
foals 415
ileus 168
indications for surgery 286
nasogastric intubation 236–238
nephrosplenic entrapment 757
postoperative ileus 143, 626, 628
recovery from anesthesia 531
regular spiking activity 81, 82
regurgitation, at induction of anesthesia 515
reliability 207
remifentanil 518
renal disease 280–281, 835–836
renal function, monitoring 620–621
renin–angiotensin–aldosterone system 50, 72–73, 368
renosplenic see nephrosplenic reperfusion injury
simple obstruction 102–103
strangulating obstruction 106–110
recovery from anesthesia 531
reproductive tract
lesions causing descending colon strangulation 780
painful disorders 831–835
rectal palpation 244
resections and anastomoses
decision making 570–578
foals 429
large colon see large colon resection
long-term dietary modification 504–505
malabsorption syndromes 815
postoperative pain 624
descending colon 776
small intestine see small intestinal resection and anastomosis
see also anastomoses; bypass procedures
resorbable barrier substances, adhesion prevention 160–161
respiratory tract diseases 838–839
respiratory tract infections, postoperative 632
resting energy expenditure 495
resting energy requirement 495–496
restitution, epithelial 111–112
restraint, for rectal examination 240
rhabdomyolysis, exertional 129–130, 840
rhinitis sicca 784, 786
Rhodobacter sphaeroides 186
Rhodococcus equi 464, 674
rib fractures, diaphragmatic hernias 712
rice bran, stabilized 498, 504
Richter hernia 714, 715
rifampin 364, 396
right dorsal colitis (NSAID-associated) 767–768
right dorsal colitis diagnosis 276, 381–382, 767–768
right dorsal colitis pathogenesis 175–176
right dorsal colitis treatment 397, 768
ultrasonography 276, 382, 767, 768
right dorsal colon
anatomy 14–15
enterotomy 598
resection 601
ultrasonography 276
right dorsal displacement of large colon 762–763
right hepatic lobe atrophy 699
right ventral colon
anatomy 14–15
enterotomy 598, 744, 745
right ventral paramedian celiotomy see ventral paramedian celiotomy
risk factors for colic 215–218
donkeys 474–475
hypothesis-generating vs hypothesis-testing studies 211
interpreting study results 211–213
vs classifiers 211–213
rolling on ground 227, 229
rolling procedures (anesthetized horse)
nephrosplenic entrapment 759, 760
uterine torsion 823–824
romifidine 314, 319
anesthesia 513, 518
foals 442
post-anesthesia recovery 448, 532
postoperative pain 625
rotavirus enterocolitis
diagnosis 380
pathogenesis 173–174
treatment 395–396
rotavirus vaccine 396
Rotazyme test 380
roundworms see strongyles
routine, changes in 225–226
ruminants 43
Ruminococcaceae 60, 61
Ruminococcus 492
Saccharomyces boulardii 392, 394
Saccharomyces cerevisiae supplements 493, 494
salbutamol (albuterol) 524
saline solutions
hypertonic see hypertonic saline
hyponatremia 347
normal (isotonic) 339
Salmonella spp.
detection 266, 377–378
phage typing 378
surveillance 305, 306
Salmonella (enterica spp. enterica serovar) typhimurium 377
disease pathogenesis 110, 171
lipopolysaccharide receptors 186
salmonellosis
antimicrobial-associated 379
biosecurity 306
diagnosis 377–378
pathogenesis 170–171
descending colon impaction and 778, 779
treatment 391, 393–394
SAMe (S-adenosylmethionine) 463, 693
sand impaction 752–754
abdominal auscultation 238, 753
abdominal radiography 281, 753
donkeys 484
large colon
displacements 753–754
medical management 323–324, 753
prevention 493, 494, 754
prognosis for survival 294
ultrasonography 275, 276, 753
saphenous vein catheterization 348
sarmazenil 680
scintigraphy 282
malabsorption syndromes 813
NSAID-associated right dorsal colitis 382
portosystemic shunts 460
scopolamine butylbromide see hyoscine
N-butylbromide
scrotal hernias 711
seasonal variations, colic 217
secretin 27
sedation
donkeys 478–479
flank laparotomy 553
hemoperitoneum 370
hepatic encephalopathy 680
intra-operative, foals 440–441
preanesthetic see premedication
recovery from anesthesia 448, 531–532
rectal examination 240
rectal tear examination 792
Theiler disease 688–689
sedative-tranquilizers 318–319
segmental inhibition, nociceptive activity 125–126
selection bias 209
self-mutilation, pain-related 120, 231, 233
Senecio jacobaea 690
sensitization, nociceptive system 128–129
sensory nerves see afferent nerves
sepsis
clinical symptoms 645
definition 188
laminitis related to see laminitis, sepsis-related
severe 188
see also endotoxemia; systemic inflammatory response syndrome
septic peritonitis
abdominal abscessation 849, 850
complications 366
diagnosis 255, 363–364, 633
postoperative 616, 632–633
treatment 364–365, 633, 634
see also peritonitis
septic shock 188
serologic tests
equine neorickettsiosis 379
proliferative enteropathy 381
serosa (tunica serosa)
esophagus 6
injury during obstruction 102–103
intestine 19, 20
ischemia-reperfusion injury 107, 109, 114
reparative responses 113–114
stomach 8
serotonin see 5-hydroxytryptamine
serum amyloid A (SAA) 258, 616, 632
serum biochemistry see biochemistry, serum
serum hepatitis see Theiler disease
sevoflurane anesthesia 516
adjunctive lidocaine 517
foals 443, 444
monitoring 518–519
recovery from 532
sex differences
colic risk 216
see also male horses; mares
SGLT transporter 27, 31
function 34
grain-fed horses 70
shaving, preoperative 542, 543
shock 331–353
abdominal trauma 844
cardiovascular system support 331
fluid therapy 331–353
SIRS 167
see also hypovolemia
shock dose, intravenous 352
shoeing (in chronic laminitis) 653–657
distal displacement of distal phalanx 656–657
distal phalanx rotation 654–656
radiographic guidance 653–654
shoe removal, acute laminitis 652
short bowel syndrome 805
short-chain fatty acids see volatile fatty acids
short spike bursts 83
signalment
causes of colic by 224
foal with colic 413
predisposing to colic 215–216
prognostic value 289–290
silicone putty, digital support 652–653
sinker, medial 643, 644, 648
SIRS see systemic inflammatory response syndrome
skin
cleaning and disinfection 542–545, 545–547
sealing 545
surgical closure 608
skin lesions, malabsorption syndromes 811
skin tent 235–236
SGLT1 transporter 492
slowly migrating cluster of short and long spike bursts 83
slow waves (electrical control activity) 78, 79, 80
generation of contractions 81, 82
pacemaker cells generating 79–80

transcellular transport ions 30–31, 32
volatile fatty acids 46
water 32, 48, 49
transfaunation see fecal microbiota transplantation
transferrin receptors 35, 36
transforming growth factor-α (TGF-α) 112, 113
transforming growth factor-β (TGF-β) 112, 113
transfusion reactions 345
transit, gastrointestinal see gastrointestinal transit
transit amplifying cells 20
transport of horses colic risk 217
for surgical treatment 287
transverse colon 15
enteroliths 755
intraoperative examination 557, 560
trauma abdominal see abdominal trauma
parturition-related 826–828
self-induced 120, 231, 233
trefoil peptides 112
triglycerides (triacylglycerols) digestion 35
hyperlipemia pathogenesis 681–682
metabolism 57, 681
serum 619, 677, 683
see also hypertriglyceridemia
triodothyronine, plasma 73
trimethoprim–sulfadiazine 62
trimethoprim–sulfamethoxazole 364, 479
trimethoprim–sulfonamide, rectal tears 794
trocarization (percutaneous decompression) foals 424
nephroplenic entrapment 759
tympany 617–618, 737, 739
trypsin 28
tryptsinogen 28
tucked-up appearance 231–232, 786
tumor necrosis factor-α (TNF-α) 189
mams, abdominal see neoplasia, abdominal
unica adventitia, esophagus 6
tunica mucosa see mucosa
tunica serosa see serosa
tunica submucosa see submucosa
tampany cecum 737–738
donkeys 484
graion overload 67–68
intraoperative decompression 565, 567
large colon 748
percutaneous decompression 617–618, 737, 739
typhlectomy, cecocolic
intussusception 744, 745
philitis, ultrasonography 275–276
typhlocolitis, donkeys 482
typhlotomy, cecal impaction 741, 742
Tyzzer disease 461–462
u
U-74389G (21-aminosteroid) 108
stressive colitis, right dorsal colon see right dorsal colitis

abdominal abscesses 278, 849
abdominal neoplasia 278, 852
abdominal trauma 844
fetal health assessment 819
foals 419–420, 421
guiding abdominocentesis 363
indications for surgery 286, 427–428
liver 279–280, 677–678
neonatal enteritis 726
portosystemic shunts 460
portacaval shunts 460
postoperative 617–618, 627
postpartum mares 825
prognostic value 291
small intestinal wall thickness 812
transcutaneous 271–278
transrectal 271, 278–279, 280
uroperitoneum 278, 420, 421, 455–456
umbilical hernia 457
strangulating 714–715
umbilical vein abscess, affecting liver 463–464
unstirred water layer 27, 35, 110
urachus, rupture 455
urea 56, 614
ureterolithiasis 281, 835
urethral calculi 836
urinary bladder
intraoperative palpation 557, 563
rectal palpation 244
rupture 836–837
foals 455–457
postparturient mares 828
ultrasonography 280, 281
urinary tract
disruption in foals 455–457
painful disorders 835–837
urine collection system 332, 333
urine output
anesthetized foals 446
donkeys 472
intensive care unit patients 619
neonatal foals 423
urine specific gravity 351, 620
urobilinogen 56
urogenital hemorrhage, postparturient mares 827–828
uro lithiasis 281, 835–836
u rope ritoneum 836–837
foals 455–457
peritoneal fluid analysis 256, 417, 455
postparturient mares 828
ultrasonography 278, 420, 421, 455–456
ursodeoxycholic acid (ursodiol) 695, 697
uterine artery hemorrhage
hemoperitoneum 367, 368
periparturient mares 827–828
pregnant mares 824
uterine horn, inversion 834–835
uterine torsion 823–824
rectal palpation 250
descending colon involvement 780
uterus
dorsoretroflexion 833
marbles within 833
prolapse 834–835
rupture, during parturition 827
V
vaccination, Theiler disease after 686–687
vaginal (breeding) injuries 833
vaginal mucosa, large colon volvulus 765
vaginal rings
inguinal herniation 709, 710, 711
intraoperative palpation 557, 562
vagus nerve
afferent (sensory) fibers 88, 89, 127
gut efferents 8, 87
validity 207–208
external 209
internal 208–209
vancomycin 394
vascular lesions
large colon 768–769
small colon 779–780
see also ischemia, intestinal vasoactive amines 67, 71
vasoactive drugs
anesthetized foals 447–448
anesthetized horses 525–528
vasoactive intestinal peptide (VIP) ileus pathophysiology 140–141
intestinal motility 84, 85, 86
vasodilators, for laminitis 648–649
vasopressin (anti diuretic hormone; ADH)
physiologic role 50, 368
therapy 447, 448, 528
vegetable oils 71, 494
after colic surgery 498, 504
assisted enteral feeding 499, 500
venography, digital 648
ventilation
anesthetized foals 444, 447
anesthetized horses 520, 522–525
recovery from anesthesia 531
ventilators, mechanical
anesthesia 520
anesthesia machines 523–524
foals 438
ventral body wall hernias 824–825, 840
ventral median celiotomy, foals 552
ventral midline celiotomy 549–551
abdominal closure 604–607
