  metal for, 235–236
  openings in, 356–362
  sheathing for, 152–155
  space frame connections at, 232
  wood for, 252–259
Roof coverings, 327–346
  built-up bituminous, 331–332
  elastomeric and thermoplastic membranes, 337–340
  fluid-applied, 340–341
  horizontal waterproofing, 342–345
  for low slope roofs, 331–346
  metal, 345–346
  modified bituminous membrane, 333–336
  shingles, 327–329
  slate, 330–331
  for steep slope roofs, 327–331
  tile, 329–330
  vegetated, 341–342
wood shingles and shakes, 327–329
Roofing nails, 161
Roof ridge, 349, 351, 575
Roofing nails, 161
Rooftop plantings, 621–622
Roof vents, 359, 440
Room acoustics, 46–49
Root balls, tree, 619
Rotary veneers, 157
Rough carpentry, nails for, 161
Round holes, perforated metals with, 136
Route accessibility, 17–18
Row-to-row spacing (seating), 535
RT (reverberation time), 50–51
Rubber flooring, 414
Rubble, 113
Rubblestone stone wall patterns, 615
Runs, of exterior stairs, 600
Runners, 365
Running match method, 157
Runoff, 617
Rustication, 104
Sabine, Wallace Clement, 46
Saddle ridges, 330
Safety:
and building resilience, 59–66
fire, 65–67, 249
and flooding hazards, 65
of gravitational and lateral loads, 59–62
of playgrounds, 611
and seismic forces, 60–63
shelters for, 64
and skylights, 356
in theaters, 536
and wind loads, 59–61
Safety glass, 388
Sand, pavers in, 596
Sandblasting glass, 390
Sanded panels, plywood, 148, 149
Sandstone, 112
Sandwich wall construction, 271
Sanitary waste systems, 438–442
and domestic water heaters, 441–442
drainage and waste lines in, 439–440
fixture traps for, 440
sump pump systems, 442
vent piping for, 439, 440
Saunas, 567–568
Schools, 558–560
Scientific notation, 637
SCMs (supplementary cementitious materials), 104
Screed, 385
Screens, 421, 513
Screws, 163, 164, 283
Screw spline storefront assemblies, 310
Scuppers, 319, 347
Scuttes, roof, 359
Seals, 298
Sealants, 167
Sealant joints, 288
Sealers, concrete, 106
Seating:
at conference tables, 554
fixed, 547–550

Understand in universal design, 10

V
Valves, piping, 443–444
Vans, 588
Van-accessible stalls, 594
Vanities, 9
Vapor barriers, for windows, 303
Vapor retarders:
in computer room air-conditioning, 483
for concrete slabs, 193
for exterior walls, 299
for low slope roofs, 325
Variable air volume (VAV) air distribution, 473
Variable-volume dual-duct systems, 472
Variable-volume single-duct systems, 473
Vaults, 494, 568–569
VAV (variable air volume) air distribution, 473
Venting, for gas appliances, 463
Vent pipe flashing, 347
Vent piping, sanitary waste system, 439, 440
Vent stacks, 462–463
Vertical clearance, reduced, 18
Vertical enclosures, see Exterior vertical enclosures
Vertical expansion control, 208–209
Vertical storm drainage piping, 451
Vibration control, 576–577
Video-conferencing, 514, 527
Video systems, 513
Viewing area, 528–529
Vinyl flooring, 414
Vinyl tile flooring, 414
Vinyl wall coverings, 386
Visual alarms, 515
Visually symmetrical trees, 620
Vitruvius, 629
Void forms, 104
Volume:
architectural, 639–640
calculating, 639–640
soil, 620
thermal expansion of, 638

W
Waffle slabs, 223
Wainscot, 422
Walking times, lobby, 430
Waitstaff stations, 549
Walks, pedestrian, 596–599
Walking surfaces, 17, 18
Walk-off grilles, 413
Walkways, 352
Walls. See also Exterior walls; Interior partitions;
Rainscreen walls; Retaining walls
access panels in, 405
ballistic-resistant, 69
INDEX

Walls. (continued)
basement, 196–198
cavity, 308, 310
curtain, 171, 312–318
drained cavity, 208, 268
energy efficient, 40
expansion control, 208–209
expansion joints at roof intersections with, 353, 354
flashing at, 352
foundation, 186–187
framing doors in, 397
framing intersections of, 233, 244
of metal building systems, 575–576
protection for, 421–422
retaining, 611–614
roof at, 346
sauna, 568
seat, 614
sheathing for, 152–153
and skylights, 359
of sound-conditioned rooms, 566
of steam baths, 568
stone, 614–615
at storefronts, 311
vault, 569
for windows, 303
Wall base, 414–415
Wall cladding, 291–293
Wall coverings, 386–388
Wall forms, 94–97
Wall guards, 421–422
Wall-hung cabinets, 542
Wall-hung lavatories, 446
Wall-hung sinks, 446
Wall hydrants, 450
Wall-mounted fire department connection, 489
Wall plates, 253
Warm-air furnaces, 469
Washers, 534
Wastewater management, 621–622
Water:
  leakage of, through windows, 303
  in mortar and grout, 115
  movement across joints of, 268
  temperature of hot, 441
Water absorption, 378, 408
Water-based dyes, 106
Water-based fire-suppression systems, 484
Waterborne preservatives, 145
Water chillers, 467, 468
Water closets, 27–28, 445
Water conservation, 616
Water coolers, 449
Water distribution, 435–438
Water-felted (wet-felted) tiles, 418
Water heaters, 441–442
Waterjet cutting, 391
Water loop heat pumps, 476–477
Water management, 300, 357, 583
Water play environments, 9
Waterproofing:
  for basement walls, 199–200
  for horizontal roofs, 342–345
  at roof transitions, 353
Water quality, 452
Water repellants, 295
Waterstop, 98
Water tanks, elevated, 437–438
Water treatment, 453, 456
Water vapor, 297–299, 325
Wattage, electrical devices, 496
Weather barriers (water-resistant barriers):
  in EIFS systems, 294
  for roofs, 324, 326, 328
  for stucco, 284
Weathering indexes, 108
Weathering probability map, 184
Weatherproofing, 306
Weatherstripping, 322–323
Weight:
  of materials, 638–639
  of metals for buildings, 127
Welded joints, 138–140, 229
Welded wire fabric reinforcing, 99
Welding, 450
Wellpoints, 583
Western (platform) framing, 239–240
Western (platform) framing, 239–240
Wet-chemical fire-extinguishing systems, 484
Wet glazing, 172
Wheelchairs, seating arrangements for persons using, 548
Wheelchair turning space, 16
Wind forces, 617
Wind loads, 59–61
Windows:
  acoustic, 576
  ballistic-resistant, 69
  blast effects on, 68
  in classical architecture, 633
  EIFS rainscreen wall around, 283
  exterior, 302–309
  interior, 388–391
  interior trim, 378
  metal framing for, 232
  in precast concrete walls, 272
sound control, 49
stone spandrels for, 287
weatherstripping for, 322–323
wood framing for, 243
Window units, manufactured, 170–172
Wind-resistant connections, 61–62
Winter garden atrium, 44
Wire chases, 296
Wired LANs, 512
Wire glass, 388
Wireless LANs, 512
Wire ties, 381
Wiring, see Branch wiring
Women:
  anthropometric data for, 6–8
  toilet rooms for, 30
Wood, 142–164
  characteristics of, 142–143
  classification of, 144
  for exterior walls, 295–297
  heavy timber construction, 246–247, 259
  installation guidelines and construction tolerances, 159–164
  as interior finish, 376–378
  permeance of, 298
  post and beam construction, 247–248
  practices involving, 142–143
  roofing materials, 327–329
  shop-fabricated structural, 245
  sources of, 144
  stairs, 259–260
  standards on, 142, 143, 146–147
  stone flooring over, 409
  superstructure components, 238–260
  treatments for, 144–147
  typical products, 148–159
  window detailing in, 307
  wood adhesives, 159
  wood ceilings, 418–419
  wood construction, 142
  wood decking, 250–252
  wood doors, 392–395
  wood fiber panels, 285–286
  wood flooring, 406–408
  wood frame construction, 142
  wood framing:
    for floors, 238–243
    interior doors in, 394
    for interior partitions, 364–365
    for openings, 243–244
    plywood subflooring on, 153–154
    reduced, 244
    residential electrical wiring in, 497
    for roofs, 252–259
veneers on, 279
for windows, 243
Wood screws, 164
Wood trim, 378
Wood veneers, 156–159
  cuts for, 157
  grades for, 158
  matching options for, 157–159
  on panel products, 156–157
  species characteristics, 158
  as wall coverings, 386

Woodwork, architectural, 376–377
Wool fibers, in carpet flooring, 413
Working slabs, horizontal waterproofing, 343
Workstations, 497–498
Work triangle, kitchen, 532–533
Woven carpets, 413
Wraparound frames, 396
Wrestling, equipment for, 541
Wrought iron, 135
W steel shapes, 130, 132

X
X-ray scanning equipment, 525

Z
Zees, 133
Zinc, 127
Zoning, HVAC, 457
