ABCD principle, 12
ABCs, 8
Abdominal counterpressure, 198
Abdominal fluid biochemical testing
  bile peritonitis, 209
  septic peritonitis, 225
  uroperitoneum, 69–70, 179–180, 184, 186–187
  bile peritonitis, 209
Abdominal fluid
  bilirubin, 209
  bun/creatinine, 69–70
  creatinine, 179–180, 184, 186–187
  glucose, 225
  lactate, 225
  potassium, 179–180, 184, 186–187
Abdominal hemorrhage, 21
Abdominal packing, 199
Abdominal parenchymal organ injury
diagnosis, 192–195
monitoring, 198
nursing care, 198
physical examination, 191–192
surgical management, 198–202
treatment, 195–202
Abdominal trauma, indications for surgery, 217
Abdominal wall herniation, 214–215
  concurrent injuries, 217
  diagnosis, 216
  imaging, 216
  pathophysiology, 214
  physical examination, 216, 216
  treatment, 217–218
  types, 214
Abdominocentesis, 194–195, 195, 208–209
  four quadrant, 195, 209
  simple, 208–209
Acepromazine, 80–81
Acetabular fractures, 336, 339, 341
Acetylcysteine, 238, 248
Alpha 2 agonists, 81

Altered levels of consciousness, 12
Alveolar jugum, 280
Alveolar mucosa, 280
Alveolar-arterial gradient, 53
Analgesia
  for head trauma, 88
  physiologic changes to consider, 73–74
Analgesia/anesthesia, case examples, 94–97
Anatomy
  cat, 256–257
  jaw, 271–272, 272
  pelvis, 335–336, 336
  sacrum, 341, 341, 342
  skull, 279–280
  stifle joint, 321–322
  tooth, 256–257, 257
Anesthesia
  cardiac arrest in, 91
  for short procedures, 89
  Anesthetics, inhalants, 87
Angular limb deformity, 310
Antegrade pyelography, 186
Antibacterial rinse, oral cavity, 255, 290
Antibiotics, pulmonary contusion, 122–123
Apical abscess, 262
Apical periodontitis, 262
Arrhythmia, 3, 15
  and parenchymal organ injury, 194
  ventricular, 120–130, 194
Arterial blood gas analysis, 27, 50–53
  alveolar-arterial gradient, 53
  hypoventilation, 53
  hypoxemia, 52
  obtaining blood, 50–52
  venous admixture, 53
Arterial blood pressure see blood pressure, arterial
Artificial colloids, 41
Atrial rupture, 3, 23
Aural hematoma, 359
  active drainage, 360
  cavity obliteration, 359–360
  passive drainage, 360
