List of Contributors  vii

1 Microalgae as a Sustainable Source of Nutraceuticals  1
Md Nazmul Islam, Faisal Alsenani, and Peer M. Schenk

2 Functional Foods from Cyanobacteria: An Emerging Source for Functional Food Products of Pharmaceutical Importance  21
Neha Panjiar, Shashank Mishra, Ajar Nath Yadav, and Priyanka Verma

3 Seaweed Carotenoid, Fucoxanthin, as Functional Food  39
Nissreen Abu-Ghannam and Emer Shannon

4 Functional Foods from Mushroom  65
Vinay Basavegowda Raghavendra, Chandrasekar Venkitasamy, Zhongli Pan, and Chandra Nayak

5 Microbial Production of Organic Acids  93
Ram Naraian and Simpal Kumari

6 Microbes as a Source for the Production of Food Ingredients  123
Charu Gupta and Dhan Prakash

7 Microbial Xanthan, Levan, Gellan, and Curdlan as Food Additives  149
Ozlem Ateş and Ebru Toksoy Oner

8 Microbial Fibrinolytic Enzyme Production and Applications  175
Essam Kotb

9 Microbial Products Maintain Female Homeostasis  215
Sarika Amdekar, Mayuri Khare, Vivek Kumar Shrivastava, Avnish Kumar, and Vinod Singh
Contents

10 Production of High-Quality Probiotics by Fermentation 235
   Marimuthu Anandharaj, Rizwana Parveen Rani, and Manas R. Swain

11 Probiotics and Their Health Benefits 267
   Michelle Fleet and Pattanathu K.S.M. Rahman

12 Nutritional Potential of Auricularia auricula-judae and
   Termitomyces umkowaan – The Wild Edible Mushrooms of
   South-Western India 281
   Namera C. Karun, Kandikere R. Sridhar, and Cheviri N. Ambarish
