SECTION 1  Current themes in psychiatric disorders among women

Ahmed Okasha and Prabha S. Chandra

1. Psychotic disorders and bipolar affective disorder

Rangaswamy Thara and Ramachandran Padmavati

1.1 Psychotic disorders in women
1.2 Schizophrenia
1.3 Bipolar disorder
1.4 Other psychoses
1.5 Special issues in women with severe mental illness

2. Depression and anxiety among women

Nadia Kadri and Khadija Mchichi Alami

2.1 Introduction
2.2 Epidemiology
2.3 Transcultural aspects of affective disturbances in sub-Saharan Africa
2.4 Treatment effects
2.5 Sex differences in depression and anxiety disorders: Biological determinants
2.6 Sex differences in depression and anxiety disorders: Social factors
2.7 Mood and anxiety disorders across lifespan in women
2.8 Pregnancy
2.9 Motherhood
2.10 Conclusion
3. Somatisation and dissociation 65
Santosh K. Chaturvedi and Ravi Philip Rajkumar

3.1 Introduction 65
3.2 Somatisation – definitions and concept 66
3.3 Dissociation – definitions and concept 66
3.4 The diagnosis and classification of somatoform and dissociative disorders 68
3.5 The neurobiology of somatisation and dissociation 70
3.6 Psychosocial factors 74
3.7 Conversion disorder 81
3.8 Hypochondriasis 83
3.9 Dissociative disorders 85
3.10 Conclusions 88

4. Eating disorders 97
Sarvath Abbas and Robert L. Palmer

4.1 Introduction 97
4.2 Risk factors and pathogenesis 98
4.3 Distribution 100
4.4 Presentation, assessment, diagnosis and engagement 100
4.5 Treatment and management 104
4.6 Conclusion 111

5. Suicidality in women 117
Gergő Hadlaczky and Danuta Wasserman

5.1 Definitions 117
5.2 Epidemiology 118
5.3 Suicidality and mental disorders and risk 126
5.4 Suicide prevention 129

6. Alcohol and substance abuse 139
Florence Baingana

6.1 Introduction 139
6.2 Genetics of alcohol and drug abuse 140
6.3 Burden of the problem and patterns of drinking 140
6.4 Alcohol and drug abuse, risky sexual behaviour and HIV vulnerability 141
6.5 Stigma, women and alcohol and drug abuse 143
6.6 Health consequences 143
6.7 Social and economic consequences 143
6.8 Interventions 144
6.9 Challenges 145
7. Psychiatric consequences of trauma in women
   Elie G. Karam, Mariana M. Salamoun and Salim El-Sabbagh
   7.1 Introduction
   7.2 What types of traumata are more common among women?
   7.3 How do women respond to trauma?
   7.4 What are the trauma related risk factors?
   7.5 Which mental disorders are related to trauma?
   7.6 Future directions

8. Voices of consumers – women with mental illness share their experiences
   Shoba Raja
   8.1 ‘Ni Tagibebu’ – ‘I will change my lifestyle’
   8.2 Determined to go against the odds
   8.3 Brilliant madness – a narrative by a young woman from India who is recovering from mental illness
   8.4 From illness to purpose and recovery . . .
   8.5 Conclusions

SECTION 2 The interface between reproductive health and psychiatry
   Prabha S. Chandra
9. Mental health aspects of pregnancy, childbirth and the postpartum period
   Jane Fisher, Meena Cabral de Mello and Takashi Izutsu
   9.1 Mental health and maternal mortality
   9.2 Mental health and antenatal morbidity
   9.3 Depression in pregnancy
   9.4 Anxiety in pregnancy
   9.5 Cultural preferences and mental health in pregnancy
   9.6 Inflicted violence and mental health in pregnancy
   9.7 Mental health and postpartum morbidity
   9.8 Postpartum blues or mild transient mood disturbance
   9.9 Postpartum psychotic illness
   9.10 Postpartum depression

18. Intimate partner violence interventions 387

Krishna Vaddiparti and Deepthi S. Varma

18.1 Mental health consequences of intimate partner violence on women 387
18.2 Victim focused interventions 388
18.3 Interventions with batterers of violence 391
18.4 Other intervention approaches 396
18.5 Conclusion 398

19. Migration and mental health in women: Mental health action plan as a tool to increase communication between clinicians and policy makers 405

Solvig Ekblad

19.1 Definitions: Mental health and health 405
19.2 Introduction 406
19.3 Risk factors 408
19.4 Resilience and coping 409
19.5 The impact of domestic violence on immigrant women’s mental health 410
19.6 Access to mental healthcare services 411
19.7 The ADAPT model (Adaptation and Development after Persecution and Trauma) 412
19.8 The case of Mrs Aba, her family and the community 413
19.9 Theory of change logic: Mental health action planning 415

20. Work and women’s mental health 423

Saida Douki

20.1 Introduction: A late but growing awareness 423
20.2 The job burnout 424
20.3 A higher risk for burnout 428
20.4 Work and women’s mental health issues 434
20.5 Management issues 438
20.6 Conclusion 439

21. Globalisation and women’s mental health: Cutting edge information 443

Unaiza Niaz

21.1 Concept and process of globalisation 443
21.2 Gendered effects of globalisation 444
21.3 The impact of globalisation and liberalisation on women’s health 445
21.4 Education and empowerment in women 446
21.5 The United Nations’ and World Bank’s approach to women’s education 447
21.6 The global and local intersection of feminism in muslim societies 448
21.7 Other impacts of globalisation 451  
21.8 Internet addiction 455  
21.9 Mental health issues related to the use of internet and mobile phones in the developing countries 456  
21.10 Recommendations to counteract negative effects of globalisation 458

22. The impact of culture on women’s mental health 463  
Marianne Kastrup and Unaiza Niaz  
22.1 Introduction 463  
22.2 Definitions 464  
22.3 Epidemiological perspectives 466  
22.4 Cultural aspects of stress 466  
22.5 Diagnostic considerations 469  
22.6 Cultural and social practices and their impact on mental health 473  
22.7 Therapeutic issues 477  
22.8 Perspectives 478

23. Female mutilation 485  
Amira Seif Eldin  
23.1 Definition 485  
23.2 Introduction 485  
23.3 Historical background 486  
23.4 Classification 487  
23.5 Epidemiology of FGM 488  
23.6 Physical complications of FGM 489  
23.7 Psychological complications 490  
23.8 Posttraumatic stress disorder and memory problems after FGM 491  
23.9 Obstacles facing changing harmful social convention: Female genital mutilation/cutting 491  
23.10 The basic concept for FGM elimination (The mental map for FGM) 494  
23.11 Recommendations in countries where FGM is commonly practised 495

SECTION 5 Gender, social policy and implications for promoting women’s mental health 499  
Jane Fisher and Helen Herrman  
24. Women’s mental health in the context of broad global policies 507  
Takashi Izutsu  
24.1 Introduction 507  
24.2 Definitions of health and the right to health made by the United Nations 508
24.4 Conventions 510
24.5 Other international tools 512
24.6 New aid environment: Sector wide approaches and the poverty reduction strategy paper 513
24.7 Conclusion 514

25. Families of origin as agents determining women’s mental health 517

Wenhong Cheng

25.1 Introduction 517
25.2 The impact of the family of origin’s perspectives about females on the growth of women 518
25.3 Impact of parenthood on women’s mental health 519
25.4 Families, social change and women’s mental health 521
25.5 Conclusion 522

26. The unpaid workload: Gender discrimination in conceptualisation and its impact on maternal wellbeing 525

Jane Fisher

26.1 Introduction 525
26.2 Maternal desire 526
26.3 Disenfranchised grief and motherhood 526
26.4 Fantasies of motherhood 527
26.5 Fantasies about the workload 527
26.6 Workload of motherhood 528
26.7 Occupational fatigue as a determinant of maternal mood? 529
26.8 Recognition and valuing of work and occupational satisfaction 531
26.9 Training and education for mothering 532
26.10 Presumptions about the contributions of others to the workload 534
26.11 Collegial relationships 534
26.12 Honouring the work of motherhood in practice and policy 535
26.13 Conclusion 537

27. Foundations of human development: Maternal care in the early years 539

Linda M. Richter and Tamsen Rochat

27.1 Child development and human culture 539
27.2 Interactions and relationships 541
27.3 Maternal mental health and children’s development 542
27.4 Maternal care 543
27.5 Implications for mental healthcare 544
28. The adverse impact of psychological aggression, coercion and violence in the intimate partner relationship on women’s mental health

Toshiko Kamo

28.1 Introduction 549
28.2 Prevalence and nature of intimate partner violence 549
28.3 Impact of intimate partner violence on general health 551
28.4 Mental health problems among women affected by intimate partner violence 551
28.5 Intimate partner violence, children and intergenerational patterns of abuse 555
28.6 Conclusion 556
