CONTENTS

4 Aspects to consider before you start writing an MBT model 59
4.1 Preliminary considerations on MBT modeling, 59
4.2 Subject and focus of your MBT model, 65
4.3 The influence of test objectives on MBT models, 70

5 Modeling languages – the agony of choice 75
5.1 Main categories of modeling languages, 76
5.2 UML and BPMN, 82
5.3 Other graphical modeling languages used for MBT, 85
5.4 Textual modeling languages used for MBT, 90
5.5 How to select the appropriate modeling language, 91

6 Good MBT modeling practices 97
6.1 Quality characteristics for MBT models, 97
6.2 Typical mistakes and pitfalls in MBT model design, 101
6.3 Linking requirements and process-related information to the MBT model, 103
6.4 The significance of modeling guidelines for MBT, 107
6.5 The question of reusing models from other development activities, 108
6.6 Tool support for MBT modeling activities, 112
6.7 Iterative MBT model development, 114
6.8 Other recommendations, 115

7 How MBT relates to test design techniques? 119
7.1 Equivalence partitioning and boundary value analysis, 119
7.2 Decision tables, 122
7.3 State transition testing, 123
7.4 Use case testing, 124

8 Deriving tests from an MBT model 127
8.1 Taxonomy of selection criteria, 127
8.2 Test case selection in practice, 138
8.3 Examples of coverage criteria, 140
8.4 Pros and cons of specific test selection criteria, 149
8.5 Some recommendations regarding test case selection, 152
8.6 Degree of automation in test generation, 154

9 Executing model-based tests 155
9.1 Understanding the concepts, 155
9.2 Adapting test cases for automated execution, 168
9.3 Adapting MBT artifacts due to changes, 173
10 Introducing MBT in your company

10.1 Five steps to MBT adoption, 179
10.2 Return-on-invest considerations, 182
10.3 Prioritize your organizational objectives, 186
10.4 How to measure progress and success?, 189
10.5 Deploying MBT, 191
10.6 Initial and running costs of MBT, 193
10.7 Integrating the tools, 196

11 Case studies

11.1 Enterprise IT model-based testing – OrangeHRM case study, 201
11.2 MBT for process-supporting SW – Tool validation case study, 212
11.3 MBT for security components – PKCS#11 case study, 226

12 Conclusions

Appendix A Solutions of exercises
Appendix B Test yourself
Appendix C Taxonomy of MBT approaches
