List of Tables, Figures, and Exhibits  xiii
Preface  xxiii
The Authors  xxvii

1 Epidemiology in Health Care Administration  1
   Introduction  2
   Philosophical Framework  5
   Focus and Uses of Epidemiology  6
   Observational Epidemiology  •  Experimental Epidemiology  •  Preventive Medicine
   Health Care Reform  8
   The Concept of Populations and Communities  11
   Managing Health Care for Populations and Communities  12
   Role of Epidemiology  14
   Summary  16
   Study Questions  16
Contents

Study Designs  93
Experimental  •  Clinical Trials  •  Observational  •  Descriptive Studies
•  Cross-Sectional Studies  •  Ecological Studies  •  Prospective Studies
•  Retrospective Studies

Association of Risk Factors and Health and Disease  103
Measuring Association in Prospective Studies  104
Measuring Association in Retrospective Studies  108
Application to Population Health Management  110
Sampling  113
Summary  115
Study Questions  115

5  Standardizing Population Health Information  117
Introduction  118
Stratification  120
Matching  121
Standardization of Information  123
Direct Method of Standardization  •  Indirect Method of Standardization
Risk Adjustment  136
Summary  139
Study Questions  140

6  Medical Management in Population Health Care  149
Introduction  150
Medical Management  151
Clinical Effectiveness  •  Validity  •  Managerial Aspects of Validity  •  Reliability
•  Impact of Test Information  •  Clinical Practice Analysis
Chronic Disease Management  169
Summary  170
Study Questions  171

7  Management of Infectious Epidemics  175
Introduction  175
Infectious Disease Epidemiology  176
Infectious Epidemics

8 Reimbursement Approaches and Marketing | 191 |
| Introduction | 192 |
| Reimbursement Methods | 193 |
  - Current Procedural Terminology  
  - Capitation  
  - Diagnosis-Related Groups  
  - Outpatient Prospective Payment System  
  - Inpatient Rehabilitation Facility Prospective Payment System  
  - Skilled Nursing Facility Prospective Payment System  
  - Home Health Prospective Payment System  
  - Resource-Based Relative Value Scale  
  - Accountable Care Organizations  
  - Pay for Performance |
| Marketing and Population Health | 202 |
| Marketing  
  - The Role of Marketing  
  - Marketing the Health Care System |
| Market Research | 204 |
  - Sampling  
  - Market Research Data Analysis  
  - Patient Satisfaction  
  - Demand Estimation  
  - Validity and Reliability of Market Research |
| Summary | 214 |
| Study Questions | 215 |

9 Population Health Outcomes and Quality of Care | 219 |
| Introduction | 220 |
| Assessing Health Outcomes | 220 |
| Health Status Assessment | 225 |
| Patient Satisfaction and Patient Expectations Assessment | 227 |
| Monitoring Health Outcomes | 231 |
| Managing with Health Outcomes | 232 |
  - Uses of Outcomes Assessment  
  - Benchmarking  
  - Best Practices and Practice Guidelines  
  - Application of Best Practice Assessment  
  - Root Cause Analysis |
| Quality of Health Care | 241 |
  - Rapid Improvement Cycle Process  
  - Statistical Process Control  
  - The Malcolm Baldrige National Quality Program |
| Summary | 250 |
| Study Questions | 251 |
10 Economic Analysis of Health Care for Populations  253
  Introduction  254
  Economic Evaluation  257
  Cost Analysis  259
  Cost-Benefit Analysis  261
  Cost-Effectiveness Analysis  262
  Cost-Utility Analysis  264
  Discounting  265
  Sensitivity Analysis  269
  Burden of Disease Analysis  269
  Examples of Economic Analysis  272
  Summary  275
  Study Questions  276

11 Expanding Hospital Health Care Services  281
  Introduction  282
  Service Area Population  283
  Hospital Care Utilization  284
  Discharges  287
  Length of Hospital Stay  289
  Hospital Description  292
  Payment Sources  293
  Service Area Population Health  296

12 Long-Term Care  303
  Introduction  303
  Population Characteristics  304
  Westside Elderly Care, Inc.  308
  Utilization of Services  308
  Staffing  319
13 Emergency Department Services 321
   Introduction 321
   Emergency Department Utilization 322
   Payment Sources 331
   Time Analysis 332
   Primary Diagnosis at Arrival 336
   Patient Disposition 337

14 Physician Practices 341
   Introduction 342
   Population Characteristics 342
   Resource Utilization 343
   Time Since Last Visit 346
   Insurance Coverage 349
   Reason for Visit 351
   Preventive Care Visits 355
   Chronic Conditions 356
