Candy, P., 146
Care4Life.com, 108–109
Caregiving: for parents, 48; personal development, technology and, 47–48
CCSS. See Common Core State Standards
Cell phones: access to, 206; as adult learning resource, 66; cultural exposure from, 156; cultures exposed by, 156; education assisted by, 31, 203; Facebook used on, 22, 88; innovation of, 22; KWL assisted by, 135; learning experiences with, 88–89
Children, 18
Cognitive development: challenges of, 72; mindfulness addressing, 193–194; stages of, 69; theories of, 68–73
Collaborative learning, 210; activities for, 217; adult learning as independent with, 241–242; development of, 216; natural benefits of, 231; new world views provided by, 243; real-life scenarios for, 218; resources for, 214; techniques for, 138; wikis used for, 211–212
Common Core State Standards (CCSS), 5
Communication: as cross-cultural, 162; in cyberculture, 164–165; discovery learning with, 132; diversity needing cross-cultural, 162; dynamic interaction offered by, 208; e-Mail as form of, 162, 163; generational model of technology and, 165–166; global citizenry, digital age and, 11, 12; global context of, 166; social media, community and, 35; as strategic, 191–192; technology facilitating international, 170–171
Communities: building of, 214; communication, social media and, 35; HEIs resulting in transformation of, 29; HEIs transforming, 29; integration of online, 109–110; social media needing, 55; spiritual development in, 58; support from, 101–102; tacit learning taught through, 33–34
Computers: advent of, 17; programming code for, 22; SDL with, 143
Concept maps, 122–123
Confidence: autonomy creating, 74; learning experiences building, 60, 92; literacy skills creating, 54
Constructivism: as active learning, 72; facilitation involvement with, 94; problem-solving as active in, 117
Contemplative practices: in daily routine, 199; in education, 195–196; MBS connections from, 196; mindfulness emphasized by, 196
Corporations, U.S., 28
Cranton, P. A., 175
Creating Significant Learning Experiences (Fink), 5
Creativity: characteristics of, 74; critical thinking connected to, 115, 180; research on, 120; in workplace, 73
Critical thinking: andragogy fostering, 87; application of, 141–142; creativity connected to, 115, 180; cultivating of, 130–142; defining of, 115; education cultivating, 35, 116; insight into, 9–10; mindfulness, MBS and, 201; problem-solving and, 113, 130, 139, 140, 141–142, 150, 228, 240, 247; resources for, 141–142; skills of, 9, 53, 114
Cui, G., 163
Cultures: cell phone exposure from, 156; change pace of innovation in, 229–230; diversity needing competence elements of, 163; entertainment analyzing, 157; of innovation, 22; materialism focused on, 58; mindfulness origins in, 194; motivation influenced by, 96; social media needing, 55; social media needing community and, 55; text messages as appropriate in, 225. See also Cyberculture
Cyber identity: regard for, 36; skills of, 36–37
Cyberculture: communication in, 164–165; evolution of, 235; literature on, 191
D
Devices: benefits of, 188; categories of, 20–21; children using, 18; e-learning enabled by, 204; in home environment, 88; for mindfulness, 198; as overwhelming, 19; social adoption, technology and, 19–20, 205–206; social adoption necessary for, 19
Dewey, John, 68, 72, 115
Dialogue: education utilizing, 123–124; TL influenced by, 175
Diffusion of Innovation (Rogers, E. M.), 225–226
Diffusion tenor imaging (DTI), 77
Digital age: adult learning in, 16, 43, 62–64; andragogy in, 88, 100; challenges of, 8, 28; changing demands of, 239–240; communication, global citizenry and, 11, 12; consequences of, 223; contexts of, 244; diversity intersecting with, 163; entertainment in, 55–56; essential skills for, 83; evolution of, 17; interdisciplinary boundaries in,
INDEX

242; intrinsic motivation demands of, 74; learning boundaries of, 7; learning comfort in, 240; learning experiences woven with, 46; life balance as focus in, 192; MBS awareness needed in, 189–193; new vistas in, 185, 238–241, 254; opportunities offered by, 75–76; SDL demanded by, 9, 147; social roles in, 94; spirituality, mindfulness and, 58; spirituality shifted by, 59; stress created in, 202; TL in, 170, 173; understanding of, 40; virtual learning in, 246; workplace demands in, 251; workplace schedules in, 189, 203

Digital recordings, 124
Dirkx, J. M., 59, 252
Disabilities: awareness of, 158–159; learning experiences for people with, 158; technology aiding with, 158–159

Discovery learning: communication by, 132; modes of, 131

Distance learning, 204

Diversity: awareness strategies of, 166–167; challenges in, 155, 157; cross-cultural communication needed for, 162; cultural competence elements for, 163; digital age intersecting with, 163; dimensions of, 154; education and research in, 161–162; global understanding of, 157; integrated media displays facilitating, 166; models for, 163–166; perspective and understanding of, 250; respect for, 164; skills of, 11; technology impacting, 157

Dream careers, 8
