CONTENTS

Preface xi

I. TECHNOLOGY COMPETITIVENESS—BUSINESS BASE OF INNOVATION

1 Technological Innovation 3
   Timeline of Science, Technology, and Industrialization 4
   Innovation Process 12
   Technology and Wealth 17
   Technical Savvy and Financial Savvy 20
   Technical Personnel and Business Personnel 25

2 Innovation and Economy 27
   Economic Scale of Innovations 29
   Economic Long Waves 31
   Measuring the Economic Impact of Technological Innovation in an Economy 37
   Core Technologies of an Industry 41
   Industrial Life Cycle 42
   Industrial Standards and First Movers in a New Industry 44
   Commodity Industry 48

3 Innovation and National Systems 51
   Science Bases for Technology 54
   Computer Technology 58
   National Innovation System 60
   Radical Innovation at the Macro and Micro-Levels 66
   Radical Innovation and Next-Generation Product Lines 71
   Circular Interactions in a National Innovation System 72
   Performance of National Innovation Systems 75
CONTENTS

4 Innovation Research 77
   Logic of Research for Innovation 79
   Logic of Radical Innovation—Technology Research 87
   Logic of Radical Innovation—Engineering Research 89
   Logic of Radical Innovation—Commercialization 91
   Costs of Innovation 94

5 Innovation and Corporate R&D 97
   Institutionalization of Scientific Technology 103
   Objectives of Corporate Research 106
   Planning Incremental Innovation 108
   Two Cultures—Research Laboratory and Business Division 109
   Evaluating Corporate R&D 112

6 Innovation and Markets 115
   Business Model—Price and Value 118
   Designing a Product for a Market 124
   Completing High-Tech Products for Applications 127
   Market Positioning 130
   Proprietary Technology 132
   Market Niches 134

7 Innovation and Product Development 137
   Market-Pull or Technology-Push Innovation 139
   Incremental Innovation in Product Development 142
   Delays in a Product Development Process 145
   Product Quality 152

8 Innovation and Strategy 153
   Micro-level Innovation in a Business 156
   Top-down and Bottom-up Strategy in Innovation 161
   Top-level Innovation Strategy 164
   Mid-level Innovation Strategy—New High-tech Business Ventures 167
   Lower Level of Innovation Strategy—Technical Programs 171
   Bottom Level of Innovation Strategy—Technical Projects 172

II. TECHNOLOGY STRATEGY—
   TECHNICAL BASE OF INNOVATION

9 Integrating Technology and Business Strategy 177
   Industrial Value Chain 179
   Technology Strategy 186
Technology and Application Systems 192
Product-Line Planning 196
Product-Line Platforms 197

10 Inventing Technology 199
Technology and Potentials of Nature 206
Next-Generation Technologies 212
Innovation Process of Next-Generation-Technology Products 214
Types of Technologies 217

11 Technology Systems 220
Technology System 224
Physical Technology S-Curve 228
Technology Performance Parameters 230
Software Technologies 232
Planning Technology Discontinuities 235
Technological Progress 236
Systems Analysis for Alternative Technology Configurations 238

12 Product Systems 241
Sikorsky’s Helicopter 241
Hardware Product System 245
Systems Analysis in Hardware-Product Design 246
Specialized Languages in Science 249
Computer-Assisted Networks 252
Logic and Language in Software Design 255
Design Bugs 256
Comparing Software and Hardware Innovation 258

13 Service Systems 260
Services Science 260
Logic of Service Transactions 263
Strategic Business Vision—A Hardware Business or a Service Business? 266
Services and E-Commerce 270
Modeling Service Systems 272
Services Performance and Innovation 276

14 Biotechnology Systems 278
Science Bases for Technology 285
Profits in Biotechnology 288
Research and Complexity of Nature 290
Progress in Biotechnology 293
University Research Centers for Science and Technology 297
| CONTENTS |
|-----------------|---|
| 15 Ethics and Technology | 299 |
| Technology in Ethics as “Means and Ends” | 302 |
| Ethics and Regulation | 305 |
| Ethical Imperative and Technology Imperative | 307 |
| Control Systems for Intrinsically Evil Technologies | 313 |
| III. INNOVATION HANDBOOK |
| 16 Innovation Practice | 317 |
| Introduction | 317 |
| How to Manage Innovation Processes | 317 |
| How to Manage Research and Development (R&D) | 323 |
| How to Manage Product Development | 329 |
| How to Manage High-Tech Marketing | 332 |
| How to Manage Service Innovation | 334 |
| How to Manage Biotechnology Innovation | 335 |
| Summary—Overview of Innovation Theory | 337 |
| Bibliography | 339 |
| Index | 349 |
