transmission system, 56, 197ff,
transmitters, 55ff
wavelength conversion, 105, 388f
wavelength switching devices, 125ff
WDM overlay to PON, 121

WDM filters, 111ff
AWG, 115ff
FBG, 118f
fused wavelength-selective couplers,
113f
interleaver, 119f
TFF, 114f
tunable filters, 120ff
INDEX

WDM-PON, 259ff
  with active remote node, 270
  coherent UDWDM-PON, 271ff
  deployment reference, 276
hybrid WDM/TDMA-PON,
  launch power, 275
  network consolidation, 314f
OTDR monitoring, 374
power consumption, 320f
power levels, 275
protection, 386f
Rayleigh backscattering, 268ff
reach, 273ff
  with remote seed source, 270
RSOA reflections, 78f
  with seeded/reflective transmitters, 266ff
  with tunable LDs, 261ff
  using multiple bands, 265f
  with wavelength re-use, 267f
WR-WDM-PON, 261ff
WS-WDM-PON, 260f
XPolM, 36f
