Valuation, swap, 339. See also Generic swap valuation

Value-at-risk (VaR). See also Stress testing about, 477–478
- assumption of normality, 478
- calculations, 478, 481–482, 622
- confidence intervals, 487
- correlation, 480–481
- credit risk and (see Credit VaR)
- discussions on, 624
- for fixed-income instruments (see VaR for fixed-income instruments)
- historical methodology, 479, 487–488
- Monte Carlo simulation, 479–480, 488, 489–490
- simulation methodology, 488–490
- variance-covariance (see Variance-covariance VaR)

Vanilla bond(s):
- main convexity properties of, 58
- modified duration of, 59
- repackaging structure and, 287
- repacked/different coupon, 288–290
- repacked into credit-linked note, 294–295
- repacked into negative basis bond, 291–294

Vanilla interest-rate swap, cash flows for, 332

Vanilla XCCY swap, 121

VaR for fixed-income instruments:
- about, 490
- bond convexity, 496, 497–498
- bond portfolio, 491–493, 497
- derivative products and VaR, 496
- forward-rate agreements, 493–494
- interest-rate swaps, 494–495
- option gamma, 498–500
- undiversified VaR, 495, 500

Variance:
- mean and, 456, 622, 623
- standard deviation and, 621, 622, 623

Variance-covariance VaR:
- calculation, 482–485
- mapping, 485–486
- method, 479
- portfolio volatility and, 489–490
- Variation margin, 153, 164, 165–167, 302, 310, 324, 440–441, 599
- Vasicek model, 93–94, 95
- Vega, 201, 469–470
Volatility:
- buying/selling, 469
- correlation and, 577
- dynamic hedging and, 470
- embedded options and (see Bonds with embedded options)
- future, 443
- historic, 479
- historical, of asset, 443
- implied, 444, 455, 472
- instantaneous/terminal, 590–591
- standard deviation as, 623
- stochastic, 454
- stochastic integrals and, 632
- in UK markets, 49

Volatility smile, 472
“Voluntary default,” 294
V-scores, 282–283

WAC. See Weighted Average Coupon (WAC)
Waggoner model, 248
WAL. See Weighted-average life (WAL)
WAM. See Weighted Average Maturity (WAM)
Warsaw rate fixing (Wibor) swap, 117

“Waterfall:”
- cash flow and, 268, 269
- SPVs and, 284–285
- Weighted Average Coupon (WAC), 275
- Weighted-average life (WAL), 275–276, 286–287
- Weighted Average Maturity (WAM), 275
- Weiner increment, 428
