Contents

Biographical Notes ix
Foreword: On Culture and Biology xvii
Preface: Why Culture and Biology? xxiii

Part I General Issues in Culture and Biology Interplay

1 Introduction to Culture and Biology Interplay 3
José M. Causadias, Eva H. Telzer, and Nancy A. Gonzales

2 Integrating Culture and Biology in Psychological Research: Conceptual Clarifications and Recommendations 31
Moin Syed and Ummul-Kiram Kathawalla

3 Understanding Religion from Cultural and Biological Perspectives 55
Stefanie B. Northover and Adam B. Cohen

Part II Animal Culture

4 Introduction to Animal Culture: Is Culture Uniquely Human? 81
Charles T. Snowdon

5 Comparing and Contrasting Primate and Cetacean Culture 105
Jennifer Botting, Erica van de Waal, and Luke Rendell

6 Cultural Phenomena in Cooperatively Breeding Primates 129
Charles T. Snowdon
Contents

Part III Cultural Genomics

7 How Are Genes Related to Culture? An Introduction to the Field of Cultural Genomics 153
José M. Causadias and Kevin M. Korous

8 Dual Inheritance, Cultural Transmission, and Niche Construction 179
Michael J. O’Brien and R. Alexander Bentley

9 How the Study of Religion and Culture Informs Genetics and Vice Versa 203
Ronda F. Lo and Joni Y. Sasaki

Part IV Cultural Neurobiology

10 An Introduction to Cultural Neurobiology: Evidence from Physiological Stress Systems 227
Leah D. Doane, Michael R. Sladek, and Emma K. Adam

11 Relations among Culture, Poverty, Stress, and Allostatic Load 255
Stacey N. Doan and Gary W. Evans

12 Biological Consequences of Unfair Treatment: A Theoretical and Empirical Review 279
Anthony D. Ong, Saarang Deshpande, and David R. Williams

13 Cultural Experiences, Social Ties, and Stress: Focusing on the HPA Axis 317
Shu-wen Wang and Belinda Campos

14 Cultural Influences on Parasympathetic Activity 345
LaBarron K. Hill and Lori S. Hoggard

15 Neurobiology of Stress and Drug Use Vulnerability in Culturally Diverse Communities 369
Ezemari M. Obasi, Kristin A. Wilborn, Lucia Cavanagh, Sandra Yan, and Ewune Ewane
Part V  Cultural Neuroscience

16  An Introduction to Cultural Neuroscience  399
    Lynda C. Lin and Eva H. Telzer

17  Neurobiological Causes and Consequences of Cultural Differences in Social Cognition  421
    Meghan L. Meyer

18  Culture and Self–Other Overlap in Neural Circuits  443
    Michael E. W. Varnum and Ryan S. Hampton

19  Developmental Cultural Neuroscience: Progress and Prospect  465
    Yang Qu and Eva H. Telzer

Index  489
