Index

Note: Page numbers in italics refer to figures. Those in bold refer to tables. In cross-references, commas may indicate that the phrase following is a subheading. Thus, “see also abscess, crypt” means “see also the subheading ‘crypt’ under the main heading ‘abscess’”. Entries are in word-by-word alphabetical order, ignoring hyphens, so that “fasting” comes after “fast tracking” and “D-shaped” comes after “dropped.”

Abbott’s artery 261, 262
abdomen
compartment syndrome 136
examination 61
abdominal aorta, coarctation of the aorta 70
aberrant right subclavian artery 235–236, 238, 240
interrupted aortic arch 283
ABIOMED pump 878
ablation
arrhythmias
accessory conduction pathways 769, 772, 776–777
preoperative 870
transcoronary, septal hypertrophy 898
see also cryoablation
ABO compatibility, heart transplantation 819
abscesses, infective endocarditis 849
accessory chamber, cor triatriatum sinister 676–677
accessory conduction pathways
ablation 769, 772, 779–83, 792–793
Ebstein anomaly 583, 774, 778
supraventricular tachycardia, conditions causing 771
accessory connection-mediated atrial tachycardia 773–778, Plate 41.1, Plate 41.2
acetaminophen (tylenol) 149
dosages 124, 130
for hyperthermia 120
acidosis
interrupted aortic arch 285
postoperative 121, 877
activated clotting time 193
acute decompensated heart failure 815–816
acute tubular necrosis, postoperative 135–136
acyanotic lesions, classification 33–34
acyanotic tetralogy of Fallot 413
adenine nucleotides, myocardium 216
adenosine 132, 803
adenosine triphosphate 214
adherence factors, bacteria 846
administration
cardiac catheterization, anesthesia 108
hybrid procedures 89
pulmonary 444
allograft(s)
unifocalization of pulmonary arteries 436
allograft conduits
discontinuous pulmonary arteries and 789
pulmonary 446–449
allograft vasculopathy, cardiac 821
anesthesia (spinal) 107, 108
anesthesia (epidural) 107, 108
anesthesia 103–112
anemia
aneurysms
Anderson system, segmental anatomy 1, 2
alpha value, imidazole group, histidine 175
α-2-macroglobulin 193
α-smooth muscle actin, neural crest 16
alveoli (pulmonary), CPB 183
ambiguity, atrioventricular connections 32
ambulatory EKG monitoring 63
amikacin, dosages 123
amino acids, cardioplegia solutions 123
amphoterin B, lung transplantation 838
ampicillin, dosages 123
Amplatzer® devices
Anticoagulation
Anastomoses
coarctation repair 269–271
reperfusion 276
heart transplantation 819
heart-lung transplantation 835
lung transplantation 834–835
unifocalization of pulmonary arteries 435
see also specific procedures
anencephalus
anencephalus
anemia
Kawasaki disease 737
postoperative 150
anesthesia 103–112
adult CHD 875–876
Bispectral Index (EEG) 179
cardiopulmonary bypass 192
demographics 103–104
myocardial protection 183
neurological damage 178
tetralogy of Fallot repair 416
anesthesia (epidural) 107, 108
organ transplantation 836
anesthesia (spinal) on fetal stress response 56
see also epidural anesthesia
aneurysms
balloon dilation angioplasty, coarctation of the aorta 272
cocartation of the aorta 275, 887
after prosthetic patch aortoplasty 264, 275
intracranial 260, 886
coronary arteries 79, 80, 735–738
Kawasaki disease 735, 736–738
fossa ovalis membrane aneurysm 882
Kommereil’s diverticulum 246, 247
left ventricle, ALCAPA 721
mycotic 847, 850
pseudocoarctation of the aorta 259
pulmonary arteries, after Potts shunt 165, 166
sinus of Valsalva 704–714
subclavian flap aortoplasty 269
systemic 736–737
angioajlasts, embryology 2
angiogenesis, vasculogenesis vs 18
angiography 78–80
coronary arteries 79–80
anomalies 716, 717, 719, 730
intramural course 733
cyanotic CHD 872
double-outlet right ventricle 466
isolated valvar pulmonary stenosis 403
pulmonary atresia with VSD 429, 431
sinus of Valsalva aneurysm 708
stenting 90–91
angiomas 752
angioplasty
coarctation of the aorta 271–272, 273, 888
reoperation 276
arteries, Kawasaki disease 737–738
pulmonary veins, TAPVC 662
stenting vs 89
see also balloon dilation angioplasty
angioplasties 18
angiosarcomas 753
angiotensin converting enzyme inhibitors
coarctation repair 274
heart failure 815
neonate 184
patent ductus arteriosus 226
angiotensin receptor blockers, heart failure 815
animal models
developmental anomalies 19
embryology 1, 2, 5–6
fetal surgery 55–57
anulus
enlargement procedures, aortic valve replacement 597–598
infective endocarditis 851
mitral valve 640, 649, 650
pulmonary valve, hypoplasia 404
anulus fibrosus 13
anomalous aortic origin of a coronary artery (AOCA) 723–726
anomalous left coronary artery from pulmonary artery (ALCAPA) 716–722, 726
CALM vs 730–731
anomalous pulmonary origin of a coronary artery (APCA) 716–722, 726
anomalous pulmonary venous return
partial 301
scimitar syndrome 307–308
anomalous systemic venous connection 685–703
results of surgery 698–701
antenatal diagnosis see prenatal diagnosis
anterior cardiac veins 659
anterior descending coronary artery 504
bypass from internal thoracic artery 515
tetralogy of Fallot 79, 411
VSD repair and 330
anterior sandwich patch, aortopulmonary window 380
anterior septal accessory connections, cryoablation 778
antibiotics
blood culture and 847
infective endocarditis 848
failure of therapy 849–850
lung transplantation 837–838
PDA occlusion 231
prophylactic 127–128, 150
septic shock 136
antibodies
human leukocyte antigens 817–818, 821
platelet factor 4 194
anticoagulation
arrrhythmias 870
ASD closure 307
bioprostheses 584
cardiopulmonary bypass 193–195
cyanotic CHD 872
extracorporeal membrane oxygenation 201, 204
Fontan procedure 562, 893
mechanical valves and 452
mitral valve surgery 654, 655
pregnancy 874–875
regional anesthesia and 107
antidromic reciprocating tachycardia 773
Plate 41.1
antifibrinolitics 195–196
see also aprotinin
antifungals, lung transplantation 838, 841
antioxidant enzyme system, myocardium 215–216
aortic insufficiency
aortico-left ventricular tunnel 639
auscultation 61
sinus of Valsalva aneurysm 707, 710
subvalvar aortic stenosis 604, 605
ventricular septal defect 318, 323, 332–333
aortic root
Brom operation 609
Nikaidoh procedure 478, 519, 520
overriding 312
pregnancy 874
Ross aortic valve replacement 596
tetralogy of Fallot 67, 79, 422
see also coronary arteries; sinuses of Valsalva
aortic stenosis
fetus 620
subvalvar 604–607, 897
supravalvar 607–611
CALM and 730
valvar 588–604, 897
older child 594–604
aortic valve
aortico-left ventricular tunnel surgery 638
bicuspид 589, 595
coaclation of the aorta and 886
coaclation of the aorta 70, 886, 888,
895–896
Damus-Stansel-Kaye procedure 513
endocarditis 851
hybrid replacement 98–99
interrupted aortic arch and 284, 292
supravalvar aortic stenosis 607–609
tetralogy of Fallot repair 422
unicuspid 589
VSD 328, 335
leaflet prolapse 318, 323, 332–333, 883
subpulmonary 65
see also Ross aortic valve replacement
aortic valvuloplasty 591–592, 593–594,
595, 599–600
valvar aortic stenosis 591–592, 593,
595, 599–600
ventricular septal defect 332–333
aortico-left ventricular tunnel 636–639,
Plate 32.1, Plate 32.2
aorticopulmonary septation 15–16
aortocardiac fi stula 705–706, 707
aortocoronary atresia 393
aortoplasty 264–269, 271–276
supravalvar aortic stenosis 609
aortopulmonary collateral arteries
echocardiography 67
see also major aortopulmonary
collateral arteries
aortopulmonary shunts 155, 160–166,
166–167
pulmonary atresia with VSD 437
see also Blalock-Taussig shunt
aortopulmonary window 376–384
aortopulmonary window (artificial),
pulmonary atresia with VSD 433,
437–438
aortoseptal angle, subvalvar aortic
stenosis 605, 897
apex (cardiac)
cannulation 204
examination 61
minimally invasive aortic valve
replacement 98–99
nomenclature 33
apical conduit, left atrium to left ventricle
652–653
apical VSD, hybrid closure 92–93
aplasia, semilunar valves 16
apnea, vascular rings 239
apolipoprotein E 177
apoptosis, aortic arch development 283
aprotinin 133, 188, 195–196
interrupted aortic arch repair 291
arcade mitral valve 643
arch hypoplasia, coarctation of the aorta
257
archives, images 40
Archiving Working Group 40
Arciniegas procedure 720
argatroban 194
arginine vasopressin 109
see also vasopressin
arm, Blalock-Taussig shunt 160
arrhythmias 131–132, 145–146
adult CHD 869–870
atrial switch procedures 512
atrial septal defect 298, 879, 880, 881, 882
double-outlet right ventricle repair 481
Ebstein anomaly 572, 577, 583
Fontan procedure 563–565, 888–890,
893, Plate 41.5
pregnancy 874
surgery for 769–812
prophylactic 797–798
tetralogy of Fallot repair 419–420, 884
tumors 746
VSD repair 334
see also atrial arrhythmias; conduction
system; tachyarrhythmias
arhythmogenic right ventricular
dysplasia/cardiomypathy 814
arterial catheters, intraoperative
monitoring 116
arterial line filters, CPB 191
arterial lines, interrupted aortic arch
surgery 287
atrial appendages 340
interrupted aortic arch and 290
with intraventricular tunnel to pulmonary artery 479
palliative 166
pregnancy 875
for subaortic stenosis 563, 564
with tunnel closure of VSD 472–477
arteritis, coarctation of the aorta and 887
arteriovenous fistulas, coronary 730–733
arterial switch procedures 497–521
atrial baffles procedures 497, 498, 894–895
cryoablation of accessory connections 779
mortality 507
staged arterial switch procedures after 510–511
see also Senning atrial baffle procedure
atrial catheters, intraoperative monitoring 117
atrial electrograms 803, 804
atrial fibrillation 772, 795–796
adult CHD 869
atrial septal defect 298
conditions causing 771
postoperative 805
treatment 803
atrial flutter
Fontan procedure 564
treatment 803
