## Contents

Preface 7  
Acknowledgments 7  
List of abbreviations 9  

**Part 1** Introduction to histology  
1 Preparation of tissues for histology 10  
2 Different types of histological stain 12  
3 Sectioning and appearance of sections in the light microscope 14  
4 Light and electron microscopes 16  

**Part 2** The cell  
5 The cell and its components 18  
6 Cell division 20  

**Part 3** Basic tissue types  
7 Epithelium 22  
8 Skeletal muscle 24  
9 Cardiac and smooth muscle 26  
10 Nerves and supporting cells in the central nervous system 28  
11 Nerves and supporting cells in the peripheral nervous system 30  
12 Connective tissue 32  

**Part 4** Blood and hemopoiesis  
13 Blood 34  
14 Hemopoiesis 36  

**Part 5** Bone and cartilage  
15 Cartilage 38  
16 Bone 40  

**Part 6** Cardiovascular system  
17 Heart 42  
18 Arteries and arterioles 44  
19 Capillaries, veins, and venules 46  

**Part 7** Skin  
20 Epidermis 48  
21 Dermis, hypodermis, and sweat glands 50  
22 Hair, sebaceous glands, and nails 52  

**Part 8** Digestive system  
23 Oral tissues (the mouth) 54  
24 General features and the esophagus 56  
25 Stomach 58  
26 Small intestine 60  
27 Large intestine and appendix 62  
28 Digestive glands 64  
29 Liver 66  

**Part 9** Respiratory system  
30 Trachea 68  
31 Bronchi, bronchioles, and the respiratory portion of the lungs 70  

**Part 10** Urinary system  
32 Renal corpuscle 72  
33 Renal tubule 74  
34 Ureter, urethra, and bladder 76  

**Part 11** Female reproductive system  
35 Ovary and oogenesis 78  
36 Female genital tract and mammary glands 80  

**Part 12** Male reproductive system  
37 Testis 82  
38 Male genital tract 84  
39 Accessory sex glands 86  

**Part 13** Endocrine glands  
40 Thyroid, parathyroid, and adrenal glands 88  
41 Pituitary and pineal glands, and the endocrine pancreas 90  

**Part 14** Lymphatic system  
42 Thymus and lymph nodes 92  
43 Spleen, tonsils, and Peyer’s patches 94  

**Part 15** Sense organs  
44 Eye and ear 96  

**Part 16** Self-assessment  
Self-test questions 98  
Self-test answers 102  

Index 105
Companion website

A useful website which can be used alongside this book is available at:

www.wiley.com/go/histologyataglance

The site was developed by the author of Histology at a Glance and the University of Leeds.

The site includes:
• Histological slides with on/off labels for all the main body systems
• Topic objectives
• Self-test quizzes
• Histological movies
