Index

6-Item Cognitive Impairment Test (6CIT) 12
Abbreviated Mental Test Score (AMTS) 12
ACE (Addenbrookes Cognitive Assessment) 12
acetylcholinesterase inhibitors (AChE inhibitors) 18–19, 20, 33, 35, 39, 56
acute confusion 59
acute hospitals 4, 47–50
Addenbrookes Cognitive Assessment (ACE) 12
adjuvant analgesics 59
Admiral nurses 17, 45
ADRT (advance decision to refuse treatment) 52–3
advance care planning 56
advance decision planning 45, 52–3
advance decision to refuse treatment (ADRT) 52–3
advance statements 52, 53
aetiology 7, 39
affective disturbance 3
alcohol risk 8
alzheimer's disease (AD) 5–6, 39, 57
AMTS (Abbreviated Mental Test Score) 12
amyloid cascade hypothesis 6
Analgesic Ladder 58–9
analgesics 58–9
antibiotics 59
anticholinergic agents 21
antipsychotics 34–5, 39
aphasias 6, 7, 11, 39
Apolipoprotein E (APOE) 8
assessment dementia 10–13, 43
capacity assessment 32, 51–2
cardiovascular disease 8–9
care homes 4, 46
careers 3, 40, 49
see also families
caring for people with dementia 26–8
case finding 42–3
causes of dementia 5–9
change in mental skills 11
cholesterol risk 6
CJD (Creutzfeld–Jacob disease) 8, 39
clinical history 11
clinical prognostic indicators 57
cognitive enhancers are acetylcholinesterase inhibitors (AChE inhibitors)
cognitive functions 1
cognitive impairment 1
cognitive testing 11–12
communication with the patient 27–8, 58
comunity mental health teams (CMHTs) 4
community social workers 3
cortical ischaemia 6, 19
Court of Protection (CoP) 53
covered medication prescribing 54
creative therapies 33
creutzfeld–jacob disease (CJD) 8, 39
definition of dementia 1
dehdration 59
delirium 49, 59
delusions 2–3
dementia advisors 17, 45
dementia cafes 17
dementia with Lewy bodies (DLB) 7, 19, 39, 57
dementia-friendly hospitals 48
demography 2, 37, 42
depression 3, 19
Deprivation of Liberty Safeguards (DoLS) 32, 52
deputyship 53
diabetes mellitus (DM) 8
diagnosis 13, 42, 43
eye-onset dementia 37–9
see also assessment
diet 9
disability see mental capacity; physical disability
discharge from care 17
disease modification 16
disease severity 2
disease staging 2
DLB (dementia with Lewy bodies) 7, 19, 39, 57
DM (diabetes mellitus) 8
donepezil 19, 20, 33
Down’s syndrome 2, 8
driving 54
drug treatments 18–21
behavioural and psychological symptoms of dementia (BPSD) 34–5
covered medication prescribing 54
drugs to avoid 20–1
eye-onset dementia 39
end-of-life care 56
pain relief 58–9
eye-onset intervention 14–17
Early Intervention Dementia Service 15–16, 17
eye-onset dementia 2, 8, 12, 37–41
economic impact 2
educational factors 8
death of life 3, 36–60
enduring power of attorney (EPA) 53
enduring power of attorney (EPA) 13
epidemiology 2, 37, 42
ethical considerations 18
ethnic differences 2
families 22–4, 33, 40, 47, 49
financial decisions 53
financial impact 2
frontotemporal dementias (FTDs) 7, 8, 39, 57
functional imaging 13
galantamine 19, 33
gender differences 2
genetic factors 8, 39
Gold Standards Framework 57
