## Index

**$C_0$-semigroup**, 279

**Hölder continuity**, 222

**active disturbance rejection control**, 2, 155, 263

ADRC, 1, 2, 5, 6, 9, 209, 230, 260, 291

asymptotic convergence, 313

asymptotical stability, 9, 230

asymptotically stable, 4, 19, 23, 60

attracting basin, 23, 31

backstepping method, 272

boundary disturbance, 157, 270

boundary stabilization, 85, 157, 270

canonical form, 9, 16, 228

canonical form of ADRC, 13, 18

class $K$ function, 21

class $K_\infty$ function, 61, 105, 211, 226, 232, 295, 300, 314, 320

class $K_\infty$ function, 21

comparison principle, 320

constant gain, 272

control (input), 3, 4, 312

differential inclusion, 32

distributed control system, 157

eigenvalue, 116, 297

equilibrium, 19, 22, 31, 293

ESO, 3, 5, 93, 209, 230, 291, 293

Euclid norm, 18

extended high-gain observer, 5, 94

extended state, 4, 96, 179, 197, 207, 291, 297

extended state observer, 3, 4, 93, 156, 263

external disturbance, 1, 4, 155, 157, 167, 229, 291, 312

external model principle (EMP), 6

finite-time observer, 4

finite-time stability, 9, 27, 292

finite-time stable, 108, 126

finite-time stable system, 69

finite-time stable tracking differentiator, 77

frequency online estimation, 81

Frobenius theorem, 16

Global ADRC, 238, 245

globally asymptotical stability, 189

Hölder continuity, 292

high frequency noise, 313

high gain control (HGC), 6, 157, 263

high gain observer, 93, 263

high gain tuning parameter, 134

high order tracking differentiator, 57, 64
high-frequency noise, 98
high-gain observer, 4
homogeneous ESO, 298
Hurwitz, 3, 25, 56, 98, 305

IMP, 260
in-domain anti-damping, 157
inner product, 279
input (control), 13, 155, 206, 291
input-to-state stability, 260, 316
internal anti-damping, 270
internal model principle (IMP), 6, 157, 252

kernel function, 273
Kronecker product, 24

Lasalle invariance principle, 23
LESO, 5, 94, 98, 297
Lie bracket, 14, 15
Lie derivative, 14, 22, 126, 177, 203, 232, 314
linear ADRC, 157, 184
linear ESO, 157
linear extended state observer (LESO), 5
linear TD, 157
linear tracking differentiator, 55, 77, 180
Lipschitz constant, 167, 231
Lipschitz continuity, 231, 292
locally Lipschitz continuity, 189
locally Lipschitz continuous function, 60
lower triangular system, 291
Luenberger observer, 3, 93
Lyapunov equation, 25, 104, 116, 123, 163, 297, 323
Lyapunov function, 22, 31, 61, 76, 122, 123, 171, 210, 226, 260, 269, 297, 319, 321, 323, 329
Lyapunov stability, 9, 18
Lyapunov stable, 54
MEMS gyroscope, 9
MIMO system, 133, 150, 157, 231, 238, 245
negative definite, 21
nonlinear ADRC, 157, 187
nonlinear ESO, 100, 187
nonlinear tracking differentiator, 59
observer-based feedback, 4
output (measurement), 3, 4, 13, 206, 291, 312
output (observation), 155
output feedback control, 4
output feedback stabilization, 155
output regulation, 252
output regulation problem, 155
peaking phenomena, 127
permanent-magnet synchronous motor, 267
PI control, 1
PID control, 1, 53
positive definite, 21
positive definite matrix, 163, 297, 323
positive definiteness, 22
practical convergence, 312, 313
proportional-integral-derivative (PID) control, 1
radial unboundedness, 315
reference signal, 1
reference system, 156
relative degree, 13, 16
robust exact differentiator, 77
Routh-Hurwitz criterion, 255
saturation function, 176, 312
semi-global ADRC, 231
semi-global convergence, 176, 203
semi-global feedback control, 186
separation principle, 4
SISO nonlinear system, 155
SISO system, 155, 187
sliding mode control (SMC), 6, 263
sliding mode observer, 4
Sobolev space, 278
stabilizable, 4
stabilization, 291
state observer, 3, 93
straightening operator, 24
strong convergence, 55
systems with discontinuous righthand sides, 32
TD, 5, 53
time-varying gain, 119, 124, 207, 211, 272, 292, 301
time-varying gain ADRC, 157
time-varying gain ESO, 127
total disturbance, 94, 157, 184, 209, 291, 306, 312, 313
Tracking differentiator, 113
tracking differentiator, 3, 53, 156, 208, 229
tuning parameter, 3
uncertainty, 167, 312
vector field, 299, 314
wave equation, 85, 157, 270
weak convergence, 76
weighted homogeneity, 9, 292
weighted homogeneous function, 210
zero dynamics, 232, 239, 312
