Preface vii
Contributors ix
About the Authors xi

1 Transition Metal Catalysis in the Pharmaceutical Industry 1
   Carl A. Busacca, Daniel R. Fendrick, Jinhua J. Song, and Chris H. Senanayake
   (Boehringer Ingelheim Pharmaceuticals)

2 Selected Applications of Transition Metal-Catalyzed Carbon–Carbon Cross-Coupling Reactions
   in the Pharmaceutical Industry 25
   Hong C. Shen (Roche)

3 Selected Applications of Pd- and Cu-Catalyzed Carbon–Heteroatom Cross-Coupling Reactions in the Pharmaceutical Industry 97
   Jingjun Yin (Merck)

4 Asymmetric Cross-Coupling Reactions 165
   Vince Yeh (Novartis) and William A. Szabo (Consultant in Drug Development)

5 Metathesis Reactions 215
   Oliver R. Thiel (Amgen)
CONTENTS

6 Transition Metal-Catalyzed Synthesis of Five- and Six-Membered Heterocycles 257
Cheol K. Chung (Merck) and Matthew L. Crawley (Main Line Health)

7 Oxidative Catalysis 277
Lamont Terrell (GlaxoSmithKline)

8 Industrial Asymmetric Hydrogenation 315
Hans-Ulrich Blaser (Solvias)

Index 343
