INDEX

Academic base, contribution, 34
Academy of Neuroscience for Architecture (ANFARCH), 76
Action Kit, An (Center for Health Design), 66
Advisory groups, 66–69
All Children’s Hospital
  ICU work environment, 101
  visioning session, 13f
American Society of Interior Designers (ASID), 33, 241–242
  workplace performance research, 101
Anchorage Native Primary Care Center,
  Biophilic Vernacular Design Dimension, 167f
Anshen+Allen, 212–213
  best practices, flight-ready checklist, 208f
  EBD knowledge, integration, 203
  EBD usage, 202–203
  organizational matrix, 204f
Authoritative knowledge, 162

Balcony, design hypothesis, 124
Baystate Health
  critical features, duplication/innovation, 100
  D’Amour Center for Cancer Care, 137
  deep dive, 13f
  Master Facilities, Visioning Session (handbook), 79f
  nursing unit, project driver map, 106f
  patient room studies, project driver map, 107f
  project vision, 88f
  schematic plan development, 104f
  visioning, 13, 21f, 23, 69-71, 132
boards, 96f, 97f
  final analysis, 98f–99f
  sessions, 95
Baystate Health System (BHS), 137
  D’Amour Center for Cancer Care
    Discovery Award Winner, 139f
    location, 138
  first floor, schematic, 142f
  second floor, schematic, 143f
  subcommittees, formation, 141f
Becker, Franklin
  interim study, 150
  preliminary studies, 56f
Bedside time, 98
Before/after studies, 162
Best practices, 170–171, 208f
Biophilic Organic Design Dimension, 167f
Biophilic Vernacular Design Dimension, 167f
Board of directors’ (BOD) vision, 47
Brand
  alignment, 61, 63
  cultivation, 91
Building
  boom, 27–30
  cause, 28–29
  trend, continuation, 29–30
  project, development/design, 8
Building information modeling (BIM), 145, 205
Built environment, design (problem), 4
Business case, building, 182–183
Business stations, unit size (reduction), 60
CAMA, Inc. analysis, 101
Cancer treatment, 102
  experience, change, 138–140
Cannon Design, 127–128
Care delivery, effectiveness (increase), 76, 142
  score, 77f
Care partner, encouragement, 27f
Care team vitality, 96
Center for Health Design (CHD), 34, 156, 245
  Action Kit, An, 66
  consultation, 25
  joint project, 30–31
  marketing, 163
  website, 74, 75f
Center for the Advancement of Health (CFAH), 76
Child engagement, Clarion Health, 125f
Circadian rhythms, improvement, 142
Clarian Health, balcony rail details, 124f
Clerical stations, unit size (reduction), 60
Clinical outcomes, improvement, 200
Clinical zones, light levels (reduction), 58
CMS reimbursement requirements, 126
Collaborative/war room, 100
Communication
  importance, 151–152
  system, impact, 60–61
Complaint information system, 52
Comprehensive cancer centers, research, 127–129
Comprehensive facility evaluation (CFE), 126
Connectors, finding, 46
Construction phase, 160
Consult room, 100
Continuous improvement, enabling, 54
Controlled, term (usage), 161
Cooperative care, 165, 169
  patient/guest room, 168f
Cost reduction, 76, 143
  score, 78f
Creativity, unlocking, 132
Credit Valley Hospital lobby, Biophilic
  Organic Design Dimension, 167f
Critical, term (usage), 162
Crossing the Quality Chasm (IOM publication), 31
Cultural awareness, 63–64
Cultural goals, mapping, 12–13, 83
Customer service, understanding, 47

Data collection, 162
Data-collection methods (Picker Institute), 67
Daylighting, therapeutic usage, 144f
Decision-making, trust-based approach, 21
Deep dive, 71
benefits, 94
definition, 13f
DePaul Health Center, patient journey process map, 109f
Depression, reduction, 142
Design
development, 71
stage, 160
education/practice, future, 236–237
guidelines, definition, 46
hypothesis
definition, 15, 123
explanation, 122–123
innovation, 130
definition, 133
intention, 123
message, clarity, 22
methodology, change, 3–4
problems, 122
process
researcher, role, 158–160

professional challenge, 51
growth opportunities, 229
professions, change (drivers), 32–34
relationship, 50
research methods, 240
teams, approach, 95
Design team leadership, impact, 21–22
Destiny, control, 89
Direction/diversion, project drivers, 104
“Discovery Award, The” (Starizon), 137, 139f
Discovery Health Center, ambulatory care center (LEED-certified status), 165f

Documentation studies, 162
Documented research, Ulrich/Zimring analysis, 163
Document process, 79–80
Document task area, 100
Dublin Methodist Hospital admission experience, project driver, 109f
arrival experience, project driver, 109f
automotive parking lot, community zoning requirements, 166f
Big Red Rooster
culture study, 22f
interpretation, 103
design, 23, 25
emergency experience, project driver, 110f
institutional values, map, 12f
lobby, 24f
mapping exercise, 91
patient experience, project driver, 110f
 perch/pod, 102f
positive distractions, 26f
preliminary research ideas, preliminary report, 112–118
Ritz Handoff, The, 91, 93
customization, 92
evolution, 94
illustration, 92f
room type, simulated mock-up, 146f, 147f
staff experience, project driver, 110f
walking path, detail, 93f

Earthquake preparedness, 29
Eco-Effective Design (EED), 214
Education/practice, EBD approach (acceptance), 237–239
Electronic medical record (EMR), 59–60
Elizabeth Seton Pediatric Center, personalized bed location, 189f
Ellerbe Becket, EBD/research, 176–178
El Paso Children’s Hospital, interdisciplinary team visioning, 21f
Emergency exam room layout, 5f
Empirical, term (usage), 162
Empirical knowledge, 162
Employee success, investment, 91

Environment
components, 69
patient perceptions, survey, 67
Environmental checklist, usage, 67
Environmental Design Research Association (EDRA), 188–189
