List of contributors xxii

I Introduction 1
I.1 A historical overview: infants, parents, and parenting from ancient
times to nowadays 2
I.2 Definition of some major concepts 4
I.3 Structure of the book 6
I.4 References 7

SECTION 1 Parental Orientations

Normal processes

1 Mothers’ and fathers’ orientations: patterns of pregnancy,
parenting and the bonding process 9
Joan Raphael-Leff
1.1 Introduction 9
1.2 Pregnancy and the ‘placental paradigm’ 11
1.3 The model of maternal orientations 13
1.4 Mothering 14
1.5 Postnatal disturbances 16
1.6 Contagious arousal 19
1.7 Paternal orientations 20
1.8 Conclusion 21
1.9 References 21
2 The competent fetus

Sam Tyano and Miri Keren

2.1 Introduction

2.2 Continuity from intrauterine life to infancy

2.3 The competent fetus and its receptive sensorial capacities

2.4 Fetuses remember and therefore can learn . . .

2.5 Fetuses can feel pain

2.6 Fetal psychology: an emerging domain

2.7 Conclusion: the fetus can no longer be thought as a ‘witless tadpole’

2.8 References

Challenging pregnancies

3 Single parenthood: its impact on parenting the infant

Sam Tyano and Miri Keren

3.1 Introduction

3.2 Single-parent families come in a variety of profiles

3.3 Single parenthood as risk factor for parental mental health

3.4 Risk factors for mental health problems among single mothers

3.5 Single-father families versus single-mother families

3.6 Single custodial parenthood

3.7 Psychological characteristics of single mothers by choice

3.8 A double-edge risk situation: being a single parent of an infant at risk

3.9 Clinical implications

3.10 Summary

3.11 References

4 Surrogate mothers

Olga B.A. van den Akker

4.1 Introduction

4.2 Characteristics, motivations and experiences

4.3 Attachment, bonding and pregnancy

4.4 Relinquishing the baby and the social context

4.5 Conclusion

4.6 References

At-risk pregnancies

5 The impact of stress in pregnancy on the fetus, the infant, and the child

Miri Keren

5.1 Introduction

5.2 Data from animal studies
5.3 Human studies of the impact of maternal stress on offspring 52
5.4 Discussion 55
5.5 Conclusion: implications for social health policy 56
5.6 References 57

6 Unintended pregnancies 59
Myriam Szejer
6.1 Introduction 59
6.2 The insistence of desire 59
6.3 Abortion 63
6.4 Rape, incest and denials of pregnancy 63
6.5 Pregnancy and mental illness 64
6.6 Conclusion 65
6.7 References 65

7 Clinical challenges of adolescent motherhood 67
George M. Tarabulsy, Annie Bernier, Simon Larose, Fanie Roy, Caroline Moisan and Claire Baudry
7.1 Introduction 67
7.2 Early challenges faced by young mothers 69
7.3 Adolescent mother–infant interaction and the elaboration of attachment 73
7.4 Intervention with adolescent mothers and their infants 74
7.5 Conclusion 76
7.6 References 77

8 Psychopathological states in the pregnant mother 79
Carol Henshaw MD FRCPsych FHEA
8.1 Introduction 79
8.2 General guidelines 86
8.3 Conclusions 87
8.4 References 87

9 When something goes wrong with the fetus: rights, wrongs and consequences 89
Julio Arboleda-Flórez
9.1 Reproduction and threats to the unborn 89
9.2 The rights of the fetus and of the newborn 91
9.3 Parental reactions 93
9.4 The fate of persons with developmental disabilities 94
9.5 Conclusions 97
9.6 References 98
10 Multiple fetuses pregnancy and other medical high-risk pregnancies
   Micheline Garel, Elise Charlemaine and Sylvain Missonier
10.1 Medical high-risk pregnancies: definition
10.2 Psychological aspects of multiple pregnancies
10.3 Pregnancy and HIV, a public health problem
10.4 Conclusion
10.5 References

Assessment of prenatal parenting

11 Prenatal self-report questionnaires, scales and interviews
   Massimo Ammaniti and Renata Tambelli
11.1 Introduction
11.2 Semi-structured interviews
11.3 Self-report questionnaires and scales
11.4 Inventories
11.5 Conclusion
11.6 References

12 Observational tool: the prenatal Lausanne Trilogue Play
   Elisabeth Fivaz-Depeursinge, France Frascarolo and Antoinette Corboz-Warnery
12.1 Introduction
12.2 The Lausanne Trilogue Play paradigm
12.3 The prenatal LTP
12.4 Discussion
12.5 Conclusion
12.6 References

Treatment of abnormal states during pregnancy

13 Psychopharmacological treatments during pregnancy: risks and benefits for the mother and her infant
   Martin St-André and Brigitte Martin
13.1 Introduction
13.2 Depression and anxiety during pregnancy
13.3 Bipolar disorder
13.4 Schizophrenia
13.5 Post-partum psychosis
13.6 Conclusion
13.7 References
14 Psychotherapeutic, psychosocial, individual and family interventions for abnormal states during pregnancy 147
Prabha S. Chandra, Geetha Desai and Veena A. Satyanarayana

14.1 Introduction 148
14.2 Maternal–fetal attachment disorders 148
14.3 Anxiety disorders 149
14.4 Eating disorders 152
14.5 Depression 153
14.6 Suicide 155
14.7 Substance use 157
14.8 Conclusions 158
14.9 Acknowledgements 158
14.10 References 159

SECTION 2 Delivery and birth

15 Perinatal loss: its immediate and long-term impact on parenting 161
Miri Keren

15.1 Introduction 162
15.2 Historical and cultural perspectives 162
15.3 Psychological effects of perinatal death on mothers 163
15.4 Psychological effects of perinatal death on fathers 163
15.5 Impact of perinatal loss on the couple 164
15.6 Impact of perinatal loss on the subsequent pregnancy 164
15.7 Clinical implications 165
15.8 Conclusion 168
15.9 References 168

SECTION 3 Parenting of the infant during the first year of life

Normal processes

16 Transition to parenthood 171
Antoine Guedeney and Susana Tereno

16.1 Introduction 171
16.2 Pregnancy and emotional upheaval: risks and resiliency 172
16.3 The psychological unfolding of pregnancy 173
16.4 Psychopathology in pregnancy 175
16.5 Prevention and early intervention 176
16.6 CAPEDP-Attachment: a French project to promote parental skills and decrease disorganized attachment 177
16.7 References 178
17 Role of parenting in the development of the infant’s interpersonal abilities

Deborah Weatherston and Hiram E. Fitzgerald

17.1 Introduction
17.2 Transformative theoretical concepts of human relationships
17.3 Infant mental health service structure
17.4 Summary
17.5 References

18 Welcoming a stranger: cultural and social aspects of parenting

Nathalie Zajde and Catherine Grandsard

18.1 Introduction
18.2 Jimmy
18.3 Ethnopsychiatry
18.4 Ethnopsychiatric therapy sessions
18.5 Treatment
18.6 Psychotherapy and diplomacy
18.7 The conflict between the two families
18.8 Sorcery: from the Antilles to the Congo
18.9 Pentecostal churches in the Congo
18.10 Misunderstanding no. 1
18.11 The Bakongo kinship and parenting system
18.12 Misunderstanding no. 2
18.13 To whom does the child belong?
18.14 Back to the treatment
18.15 Identifying baby Jimmy
18.16 Epilogue
18.17 Conclusion
18.18 References

19 Filicide: parents who murder their child

Sam Tyano and John Cox

19.1 Introduction
19.2 Prevalence of filicide among Western societies
19.3 Filicide and the child’s age
19.4 Filicide and parent’s gender
19.5 Parental motivations for committing filicide: at the psychiatric level
19.6 Parental motivations for committing filicide: at the psychodynamic level
19.7 Characteristics of the child at risk for filicide
Parental risk factors for parenthood

20 Maternal postnatal mental disorder: how does it affect the young child? 217
John Cox and Joanne Barton

20.1 Introduction 217
20.2 Postnatal mental illness: immediate effect on parenting 218
20.3 Mother–infant relationships 220
20.4 Risk and resilience 220
20.5 Infant outcome and child development 221
20.6 Child mental health problems 222
20.7 Child abuse and neglect 223
20.8 Family aspects 223
20.9 Considering the child in the management of maternal mental illness 224
20.10 Conclusions 226
20.11 References 227

21 Psychopathological states in the father and their impact on parenting 231
Michael W. O’Hara and Sheehan D. Fisher

21.1 Introduction 231
21.2 Prevalence of psychiatric disorders in men 232
21.3 Paternal psychopathology and child internalizing and externalizing problems 233
21.4 How depressive symptoms may affect parenting 233
21.5 Paternal psychopathology and parenting 234
21.6 Summary 237
21.7 Research agenda 237
21.8 References 238

22 The impact of trauma on parents and infants 241
Joy D. Osofsky, Howard J. Osofsky and Erika L. Bocknek

22.1 Introduction 241
22.2 The problem of abuse and neglect 242
22.3 Other trauma exposure in young children 244
22.4 Lessons learned 245
22.5 References 246
23  Substance problems: bridging the gap between infant and adult  251
   Ilana Crome
23.1  Introduction  251
23.2  The prevention and policy framework  252
23.3  Epidemiology: the magnitude of the problem  253
23.4  Health and welfare: context and consequences  255
23.5  Assessment and treatment: uniting families  259
23.6  Specific interventions for pregnant substance misusers  262
23.7  Pharmacological treatments for pregnant substance misusers  263
23.8  Catalysing change by implementation of research: service models  265
23.9  Conclusion  265
23.10  References  266

Environmental risk factors for parenthood

24  Foster parenthood  271
   Yvon Gauthier
24.1  Introduction  271
24.2  Foster children symptomatology  271
24.3  The use of attachment theory  272
24.4  Foster children’s special needs  273
24.5  How to help foster parents to provide best care for the fostered child  274
24.6  Kin vs. non-kin foster parents  275
24.7  Visits to the biological parents  275
24.8  Need for permanency  275
24.9  References  276

25  Parenting the chronically ill infant  277
   Barbara G. Melamed
25.1  Introduction  277
25.2  Asthma  279
25.3  Congenital heart disease  280
25.4  Cystic fibrosis  282
25.5  Very low birth weight infants  284
25.6  Conclusions and future studies  286
25.7  References  287

26  Parenting an infant born of rape  289
   Frances Thomson Salo
26.1  Case vignette 1  289
26.2  Case vignette 2  289
### CONTENTS

26.3 Case vignette 3 290  
26.4 Introduction 290  
26.5 Context 291  
26.6 Outcomes of pregnancy 292  
26.7 Perinatal period 293  
26.8 Maternal representation of the infant 293  
26.9 Maternal attachment 294  
26.10 Infant attachment 295  
26.11 Representations of the father and disclosure to the infant 295  
26.12 Adoptive and foster parenting 296  
26.13 Siblings 297  
26.14 Being parented in ongoing difficulty 297  
26.15 Support and therapeutic intervention for the family 297  
26.16 The infant’s view of their life 298  
26.17 Conclusions 298  
26.18 References 298

27 Parenting an infant with a disability 301

*Sheila Hollins, Stella Woodward and Kathryn Hollins*

27.1 Introduction 301  
27.2 Parental expectations 301  
27.3 Antenatal diagnosis 302  
27.4 Case vignette 1 302  
27.5 Case vignette 2 302  
27.6 Postnatal diagnosis 303  
27.7 Case vignette 3 303  
27.8 Case vignette 4 303  
27.9 Diagnostic uncertainty 304  
27.10 Parental responses 304  
27.11 Parent–infant relationship development 305  
27.12 Case vignette 5 305  
27.13 Case vignette 6 305  
27.14 Depression in parents of children with a disability 306  
27.15 Responses of family, friends and wider society 307  
27.16 Economic and social implications 307  
27.17 Positive implications 308  
27.18 Supporting parents 308  
27.19 Conclusion 309  
27.20 References 309

### 32 Principles of effective co-parenting and its assessment in infancy and early childhood

*James P. McHale and Elisabeth Fivaz-Depeursinge*

32.1 Introduction 357
32.2 What is effective co-parenting? 358
32.3 Co-parenting as a triangular concept 358
32.4 Co-parenting and division of labor 359
32.5 Co-parenting and children’s adjustment 359
32.6 What do mental health professionals need to know? The essentials 360
32.7 Instruments of choice: observational, interview and self-report survey data 363
32.8 Conclusion 368
32.9 References 368

### 33 Legal assessment of parenting competency

*Jean-Victor P. Wittenberg*

33.1 Introduction 373
33.2 Definitions of maltreatment 374
33.3 Assessment is an intervention 375
33.4 Infants and toddlers are a special group 376
33.5 Models of parenting capacity assessment 377
33.6 Core competencies for professionals doing parenting capacity assessments with infants 379
33.7 Conclusions 381
33.8 References 382

### Treatment of dysfunctional parenting

#### 34 Psychotropic drugs and lactation: to nurse or not to nurse

*Zivanit Ergaz and Asher Ornoy*

34.1 Drug excretion into breast milk: general considerations 385
34.2 Benzodiazepines 387
34.3 Phenothiazines 388
34.4 Butyrophenones 389
34.5 Atypical neuroleptics 390
34.6 Antimanic drugs 392
34.7 Anticonvulsants that are also mood-stabilizers 392
34.8 Central nervous system stimulants 393
34.9 Tricyclic antidepressants 393
34.10 Tetracyclic antidepressants 394
34.11 Selective serotonin reuptake inhibitors 395
34.12 Serotonin and norepinephrine reuptake inhibitors 396
34.13 Noradrenaline reuptake inhibitors 397
34.14 Conclusions 397
34.15 References 398

35 Parent–infant psychotherapies and indications for inpatient versus outpatient treatments 401
Kaija Puura and Paivi Kaukonen
35.1 Introduction 401
35.2 Different forms of parent–infant psychotherapy 402
35.3 Indications for inpatient versus outpatient treatment 407
35.4 When parents reject treatment 412
35.5 Conclusions 412
35.6 References 412

Pathological parenting: from the infant’s perspective

36 The symptomatology of a dysfunctional parent–infant relationship 415
Campbell Paul
36.1 Introduction 415
36.2 ‘Good-enough’ parenting 416
36.3 Parenting in the context of mental illness 416
36.4 Qualities of infant–parent interaction 417
36.5 Assessing infant–parent interaction 418
36.6 The infant response in the context of a dysfunctional relationship 421
36.7 Implications for prevention and intervention 425
36.8 Conclusion 426
36.9 Acknowledgements 427
36.10 References 427
Concluding chapter

37 Mental health of parents and infant health and development in resource-constrained settings: evidence gaps and implications for facilitating ‘good-enough parenting’ in the twenty-first-century world

Jane Fisher, Atif Rahman, Meena Cabral de Mello, Prabha S. Chandra and Helen Herrman

37.1 Introduction
37.2 Social model of mental health
37.3 Parenting and mothers’ social position
37.4 Human rights, mental health and child health and development
37.5 Promotion of infant health and development and prevention of maternal mental health problems
37.6 Preventing and ameliorating maternal mental health problems and potential benefits for infant health and development
37.7 Addressing the social determinants of compromised early childhood development and maternal mental health problems
37.8 Implications for facilitating ‘good-enough parenting’ in the communities of the twenty-first century
37.9 Conclusion
37.10 References
